Patrimonialism in

Ugarit and the

Ancient Near East

Routledge

This volume, the first in

a new series on

governance, conflict,

and civic action in

South Asia, focuses on

the larger countries of

South Asia—Pakistan,

India, Bangladesh, Sri

Lanka, and especially

Nepal. The 15 essays in this volume analyze democracy both as a process and as a value. The essays also examine in ethnographic detail the way in which democracy is actually experienced in South Asia, ranging far beyond conventional political structures to look at conflict resolution, rhetorics of foreign aid, ethnic organizations, Maoist practices of local government, Dalit resistance, and so on. Many of the processes that are analyzed in depth in the Nepalese context are shown to have their analogues in other South Asian countries. By putting Nepalese political and social processes firmly within their South Asian context, the current political crisis

in Nepal is shown to be neither so radically new and different, nor so insoluble as it might appear. At the same time, the view from the peripheries of South Asia throws into relief the extent to which India has evolved away from the traditional caste-determined patron-client structures that once formed the framework of political action there. The volume is a significant contribution to the study of how local democracy actually operates in South Asia. It will be of interest to political scientists, sociologists, anthropologists, and development specialists.

The first two volumes on patrimonialism in Ugarit and the ancient Near East, this book opens with a lengthy introduction on the interpretation of social action and households in the ancient world.

Journal of the Senate of the United States of America BRILL

This book investigates the classical model of cooperative games with transfer able utility (TU-games) and models in which the players have the possibility to cooperate partially, namely fuzzy and multichoice games. In a crisp game the agents are either

fully involved or not involved at all in cooperation with some other agents, while in a fuzzy game players are allowed to cooperate with infinitely many different participation levels, varying from non-cooperation to full cooperation. A multichoice game describes an intermediate case in which each player may have a fixed number of activity levels. Part I of the book is devoted to the most developed model in the theory of cooperative games, that of a classical TU-game with crisp coalitions, which we refer to as crisp game along the book. It presents basic notions, solutions concepts and classes of cooperative crisp games in such a way that allows the reader to use this part

as a reference toolbox when studying the corresponding concepts from the theory of fuzzy games (Part II) and from the theory of multichoice games (Part III). The work on this book started while we were research fellows at ZiF (Bielefeld) for the project "Procedural Approaches to Conflict Resolution", 2002.

This book contains a wide spectrum of articles which report the current research progress in topics concerning the dynamics of multiparticle production in high energy collision processes, with emphasis on nonperturbative aspects of QCD. The topics covered are: the phase diagram of QCD

and related transitions; correlations and fluctuations in a variety of experiments involving multiparticle production ($e+e-$ annihilation, pp collisions and heavy ion collisions); recent theoretical and experimental developments in interferometry and particle correlations; event-by-event fluctuations in high energy experiments; concepts of chaos and complexity in multiparticle dynamics and related phenomenology; relevant theoretical ideas based on QCD as a field theory.

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a

proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*.

Having lived and worked in and around agriculture in Fife all his life, Andrew Arbuckle has a deep affection for his farming heritage. Keen to record this for both those who remember the old ways of farming as well as future generations, Andrew has gathered information from a variety of sources to present a commentary on Scottish farming life from 1900 to the present day. Andrew's avenues of research included local newspaper archives, press cuttings and minutes from union meetings or local shows. Social history also plays a vital part in the project and

interviews with people who have worked in farming in days gone by give the book a vitality and humanity often missing from history books. The book is liberally illustrated with between 50-60 black and white photographs arranged in sections. *Elites and Democratic Development in Russia* Oswaal Books and Learning Private Limited

After twenty years of research, Dr. J. Barton Payne has compiled the one complete guide to Biblical prophecy. From the prediction of Adam's death in Genesis 2: 17 to the prophecy of mankind's perpetual worship of God in the new heaven and earth (Psalm 72:5), the ENCYCLOPEDIA OF BIBLICAL PROPHECY

discusses every verse of prophetic matter in Scripture. It identifies every probable point of fulfillment whether in the past, present, or still in the future. The first 144 pages of the ENCYCLOPEDIA OF BIBLICAL PROPHECY set forth a systematic approach to the subject of Biblical prophecy and the legitimate place for prediction in it. The ENCYCLOPEDIA is arranged according to the 66 books of the Bible. In each book, all the verses on one prophetic theme are treated in one combined discussion. For example: The 12 verses of Genesis that foretell God's granting of the land of Canaan to the descendants of Abraham are discussed together. It is then shown how the

promise was fulfilled in the days of Joshua.

One of the ENCYCLOPEDIA'S concluding summaries lists all the 737 major subjects that appear in Biblical prediction, with the books and paragraphs in which each is found. This way, each prophecy can be traced from its first appearance in the Bible to its last. Among the many features is a complete list of all the Scriptural prophecies pertaining to Christ. No other book has ever examined Biblical prophecy so thoroughly or presented it in such a balanced perspective as the ENCYCLOPEDIA OF BIBLICAL PROPHECY. •1,817 entries covering all the Biblical predictions in both the Old and New Testaments •A complete discussion of

all 8,352 predictive verses in the Bible •14 tables, including three on the Book of Revelation •Bibliography •4 summaries •4 statistical appendixes •5 complete indexes An indispensable tool for students of the Bible, for students in theological seminaries and Bible colleges, for pastors as a reference guide, and for concerned lay people. The ENCYCLOPEDIA OF BIBLICAL PROPHECY is certain to bring a fresh understanding and rewarding insights of the bible.

The transformation from Communist rule towards democratic development in Russia cannot be fully

understood without taking the elites into full consideration. *Elites and Democratic Development in Russia* examines how elites support and challenge democracy and why they are crucial to Russian democracy in particular. In this innovative volume, twelve respected scholars investigate how elites have affected the transition from Communist rule towards democratic development in Russia. They discuss how the elites' degree of integration on national and regional levels may constitute the main condition for the consolidation of the emerging political regime and interpret the complex post-communist elite patterns of behaviour and attitudes into a

theoretical framework of elitist democracy. This book will appeal to those interested in democratization, elites, post-Soviet Russia and post-communist studies.
