This is the second part of the my Autobiography which is the story of my medical life after I left my country Myanmar(Burma) on 29 March 1977, and lived in Great Britain till 2009. As much as I had hardship during the military regime in Burma under the rule of Dictator General Ne Win up until 1977 when I exiled to Britain I continue to face the hardship in foreign land as a doctor. The full democracy I expected was not to my expectation since I suffered the Institutionalized Racism; which is described in this book through my experience in British NHS system. Most of the characters' names are changed for confidentiality and legal reasons. This book is until 2009 when I left Britain for Hungary where I am now living and continuation of my life is in my third book the part three of Agony to Agony particularly my Artist's career.

Here is a true literary event—the long-awaited new novel by Carlos Fuentes, one of the world's great writers. By turns a tragedy and a farce, an acidic black comedy and an indictment of modern politics, *The Eagle's Throne* is a seriously entertaining and perceptive story of international intrigue, sexual deception, naked ambition, and treacherous betrayal. In the near future, at a meeting of the United Nations Security Council, Mexico's idealistic president has dared to vote against the U.S. occupation of Colombia and Washington's refusal to pay OPEC prices for oil. Retaliation is swift. Concocting a "glitch" in a Florida satellite, America's president cuts Mexico's communications systems—no phones, faxes, or e-mails—and plunges the country into an administrative nightmare of colossal proportions. Now, despite the motto that "a Mexican politician never puts anything in writing," people have no choice but to communicate through letters, which Fuentes crafts with a keen understanding of man's motives and desires. As the blizzard of activity grows more and more complex, political adversaries come out to prey. The ineffectual president, his scheming cabinet secretary, a thuggish and ruthless police chief, and an unscrupulous, sensual

kingmaker are just a few of the fascinating characters maneuvering and jockeying for position to achieve the power they all so desperately crave.

During a time of war, economic tribulation and a cultural shift in the American lifestyle, Jeremy Latchaw takes his experiences in the Global War on Terrorism, military and the Boy Scouts of America to shed light on what it truly means to be an American Patriot. By examining value systems that have made America great, from volunteer hours to character development, Jeremy is able to piece together what makes the American Patriot and how that patriot can in turn make the United States an even better place to live. Jeremy Latchaw is an Eagle Scout from Michigan as well as a combat veteran having served in Operation Iraqi Freedom and the Global War on Terrorism. From 2000-2004 he served in the Army's 1st Battalion, 16th Infantry Regiment as a platoon leader, executive officer and personnel officer. Wanting to give back to the Scouting program Jeremy was commissioned into the Boy Scout profession in 2005. In 2007 he was mobilized with the Army Reserves to Kuwait as a strategic logistical planner for the War on Terrorism in Southwest Asia. Jeremy currently resides in Kansas and continues work to develop American Patriots for the betterment of the Nation.

Robert Banks Cornelius Jr. was only sixteen when he made the big move from his hometown of Atlanta, Georgia, to New York City. The teenager had big dreams of life in the Big Apple and used his passion for business to make that dream come true. Banks Cornelius saved up money waiting tables and completing other jobs to move, and he has called New York home for the past fifty-two years. Robert Banks Cornelius Jr.'s entrepreneurial exploits don't stop there. In *Eagle Eye*, he chronicles the many opportunities he seized in his new home and how he turned them into a satisfying career. At the same time, Robert Banks Cornelius Jr. demonstrates that while he may have the brain of a businessman, he also has the heart of an artist. It took him a while to discover his passion for sculpture and poetry, but these artistic exploits have given Banks Cornelius the most joy in his life. Robert Banks Cornelius Jr. and coauthor Professor Darnell A. Morehand-Olufade also focus on the heritage Banks Cornelius has explored through his art. He has traveled across the country to participate in cultural events as a man of Native American, Black, English, and Scottish ancestry. Robert Banks Cornelius Jr. remains committed to honoring every aspect of this identity.

This book is the first of its kind to bring transparency to the FBI's attempts to destroy the incipient Chicano Movement of the 1960s. While the activities of the deep state are current research topics, this has not always been the case. The role of the U.S. government in suppressing marginalized racial and ethnic minorities began to be documented with the advent of the Freedom of Information Act and most recently by disclosures of whistle blowers. This book utilizes declassified files from the FBI to investigate the agency's role in thwarting Cesar E. Chavez's efforts to build a labor union for farm workers and documents the roles of the FBI, California state police, and local police in assisting those who opposed Chavez. Ultimately, *The Eagle Has Eyes* is a must-read for academics and activists alike.

From the New York Times bestselling author of *White Rage*, an unflinching, critical new look at the Second Amendment--and how it has been engineered to deny the rights of African Americans since its inception. In *The Second*, historian and award-winning, bestselling author of *White Rage* Carol Anderson powerfully illuminates the history and impact of the Second Amendment, how it was designed, and how it has consistently been constructed to keep African Americans powerless and vulnerable. *The Second* is neither a "pro-gun" nor an "anti-gun" book; the lens is the citizenship rights and human rights of African Americans. From the seventeenth century, when it was encoded into law that the enslaved could not own, carry, or use a firearm whatsoever, until today, with measures to expand and curtail gun ownership aimed disproportionately at the African American population, the right to bear arms has been consistently used as a weapon to keep African Americans powerless--revealing that armed or unarmed, Blackness, it would seem, is the threat that must be neutralized and punished. Throughout American history to the twenty-first century, regardless of the laws, court decisions, and changing political environment, the Second has consistently meant this: That the second a Black person exercises this right, the second they pick up a gun to protect themselves (or the second that they don't), their life--as surely as Philando Castile's, Tamir Rice's, Alton Sterling's--may be snatched away in that single, fatal second. Through compelling historical narrative merging into the unfolding events of today, Anderson's

penetrating investigation shows that the Second Amendment is not about guns but about anti-Blackness, shedding shocking new light on another dimension of racism in America.

Through Eyes of an Eagle Steven Warnstaff was born Steven Simonis, his father Elvin, and his mother Evon Sevy, both attended Union High School. The Simonis family were one of the first families to live in the Baker Valley, and eventually landed in North Powder, Oregon. In 1976 he moved from California to Eastern Oregon to a town named Elgin where he worked in a lumber mill a few miles away in Alicel. One day as he visited with his grandparents he asked his grandmother Olena, what it was like to live during the latter years of 1800 and early 1900's when the state was being settled by the pioneers. His grandmother told him she had lived out in the valley between Baker City and North Powder as a child, attended school in a one room schoolhouse, to which Steve's father had since moved into North Powder as his home before he passed. Several stories were shared of the Nez Perce travelling from their villages in the Wallowas to hunt elk and deer in the Blues and Elkhorn mountains above Baker City. She mentioned they had always stopped to ask permission to camp the night on her family's property, and as her father agreed, on the return trip the Nez Perce stopped and offered a deer and an elk in gratitude. This story had stayed with Steve since its inception and has brought many questions to lie unsettled as the government had stated just the opposite, the Nez Perce were not a friendly tribe and had threatened the settlers. Truth be told, Steve says it was the settlers who first broke the treaties and promises made between the two peoples in order they both could live peacefully side by side. First there were the gold miners who tore the landscape searching for their fortunes. Then ranchers and farmers came with plows that tore at the heart of Earth Mother as they turned the fields to grow hay for the cattle and horses to survive the long and cold winters. Do

you remember Lewis and Clark and the Corps of Discovery? Yes, it was the Nez Perce who saved them from starvation as they were bogged down in the deep of winter's snow without food. Steve has stated that he knew there must be a story yet untold that would resonate the truth of American history regarding the Native American Indians of the Pacific Northwest. This story, the idea bringing it to fruition had begun as Steve sat upon the high rock above Wahclella Falls and began to dream of what is, instead of what was. He says as he sat looking down upon the clearest of waters it was like a vision as it brought memories of his many journeys through the Columbia River Gorge. Each waterfall had a guardian spirit who lent wisdom to fall upon his heart, and wind spoke volumes as he sat patiently and began to listen to the cadence of its song. Steve states it is us, ourselves, that must want to see the rise of tomorrow's sun, or one day soon, we will fall from upon the lands and be cast to the heaven as dust and not be seen nor heard again. Smohalla was a great man, a great leader to those Indian that had not fallen from the graces and beliefs of the Great Spirit. Hope of a better life had invested itself swiftly upon many Indian, sadly, it was through a bottle, or many bottles of whiskey their spirits were stolen from within them. Cast to the winds their names and memories were spent, quickly forgotten, never to be mentioned again by their people. This was the government's and settler's method of controlling the Indian as they feared an uprising might occur. From the dream, the prophet Smohalla had been chosen to share, came the religion of Washani. This was a religion that spoke of peace and honor, respect, and thankfulness for all the Great Spirit had offered their people so they could too live to see the rise of all their tomorrow's suns. Close your eyes and smell the sweet scent of the Cedar in summer as the softest of breeze carries your thoughts upon journeys yet untold. This is the way to reunite one's soul with one's spirit. May we walk in remembrance to the first Salmon caught each new season. May we never be heard to cry out upon that darkest of day when first Salmon does not return. Klahowa...

In the 101st Airborne, if you cared enough to send the very best, you sent The Howlers. Gary Linderer volunteered for the Army, then volunteered for Airborne training. When he reached Vietnam in 1968, he was assigned to the famous "Screaming Eagles," the 101st Airborne Division. Once there, he volunteered for training and duty with F Company 58th Inf, the Long Range Patrol company that was "the Eyes of the Eagle." F Company pulled reconnaissance missions and ambushes, and Linderer recounts night insertions into enemy territory, patrols against NVA antiaircraft emplacements and rocket-launching facilities, the fragging of an unpopular company commander, and one of the bravest demonstrations of courage under fire that has ever been described. The Eyes of the Eagle is an accurate, exciting look at the recon soldier's war. There are none better.
