**Portrait of America: From Reconstruction to the present** University of Washington Press  
Based on the popular and revolutionary PBS multiplatform documentary project, an inspiring and striking photographic portrait that brilliantly captures the tumultuous, historic year that was 2020, offering an intimate look at the heart and soul of our national life and what it means to be an American today, revealed through the stories of ordinary people from sea to shining sea. Everyone has a story . . . In January 2020, in celebration of its 50th anniversary, PBS launched an ambitious national storytelling project, American Portrait, inviting people across the country to participate in a national conversation about what it means to be an American today. The multiplatform experience, including a television series that will air on PBS stations nationwide in January 2021, has created a communal voice through the individual stories of participants—each one a unique stitch in the beautiful, diverse quilt that is America. A vivid yet nuanced snapshot of who we are, this visually striking companion volume features more than 400 entries and photographs, all which began with an answer to a simple cue: My American story started when . . . You don't know what it's like to . . . My greatest challenge is . . . The tradition I carry on is . . . I was raised to believe . . . What keeps me up at night is . . . I took a risk when . . . When I step outside my door . . . Most days I feel . . . Told by people of all ages, orientations, and walks of life, these unique stories of joy, adversity, love, sacrifice, grief, sharing, triumph, and grace, centered on the themes of family, work, fun, faith, and community, illuminate the struggles, hopes, dreams, and convictions of Americans today. The more we share with our fellow citizens, the more we can see a real, complex, and fascinating representation of our country that is far richer and deeper than headlines and elections tell us. As intriguing, thoughtful, and distinct as the nation it embodies, American Portrait is a photographic manifestation of Walt Whitman's immortal words, "I am large. I contain multitudes"—and a vital and ultimately hopeful reminder that what we all share is much greater and enduring than what may divide us.

Out of Hitler's Reach University of Iowa Press

Discover America's secrets in this second of two volumes of the young readers' edition of The Untold History of the United States, from Academy Award-winning director Oliver Stone and Peter Kuznick, adapted by Eric Singer. There is history as we know it. And there is history we should have known. Complete with poignant photos and little-known but vitally important stories, this second of two volumes traces how people around the world responded to the United States's rise as a superpower from the end of World War II through an increasingly tense Cold War and, eventually, to the brink of nuclear annihilation during the Cuban Missile Crisis. This is not the kind of history taught in schools or normally presented on television or in popular movies. This riveting young readers volume challenges prevailing orthodoxies to reveal uncomfortable realities about the US role in heightening Cold War tensions. It also humanizes the experiences of diverse people, at home and abroad, who yearned for a more just, equal, and compassionate world. This volume will come as a breath of fresh air for students, teachers, and budding young historians hungry for different perspectives—which makes it a crucial counterpoint to today's history textbooks. Adapted by high school and university educator Eric S. Singer from the bestselling book and companion to the documentary The Untold History of the United States by Academy Award-winning director Oliver Stone and renowned historian Peter Kuznick, this volume gives young readers a powerful and provocative look at the US role in the Cold War. It also provides a blueprint for those concerned with shaping a better and more equitable future for people across the world.

The Shaping of America: A Geographical Perspective on 500 Years of History University of Chicago Press

One hundred thirty-five years after his epochal Harpers Ferry raid to free the slaves, John Brown is still one of the most controversial figures in American history. In 1970, Stephen B. Oates wrote what has come to be recognized as the definitive biography of Brown, a balanced assessment that captures the man in all his complexity. The book is now back in print in an updated edition with a new prologue by the author.

The colorful charts, graphs, and maps presented at the 1900 Paris Exposition by famed sociologist and black rights activist W. E. B. Du Bois offered a view into the lives of black Americans, conveying a literal and figurative representation of "the color line." From advances in education to the lingering effects of slavery, these prophetic infographics —beautiful in design and powerful in content—make visible a wide spectrum of black experience. W. E. B. Du Bois's Data Portraits collects the complete set of graphics in full color for the first time, making their insights and innovations available to a contemporary imagination. As Maria Popova wrote, these data portraits shaped how "Du Bois himself thought about sociology, informing the ideas with which he set the world ablaze three years later in *The Souls of Black Folk*."

**#1 NEW YORK TIMES BESTSELLER** • A vibrant collection of oil paintings and stories by President George W. Bush honoring the sacrifice and courage of America's military veterans. With Forewords by former First Lady Laura Bush and General Peter Pace, 16th Chairman of the Joint Chiefs of Staff. Growing out of President Bush's own outreach and the ongoing work of the George W. Bush Institute's Military Service Initiative, *Portraits of Courage* brings together sixty-six full-color portraits and a four-panel mural painted by President Bush of members of the United States military who have served our nation with honor since 9/11—and whom he has come to know personally. Our men and women in uniform have faced down enemies, liberated millions, and in doing so showed the true compassion of our nation. Often, they return home with injuries—both visible and invisible—that intensify the challenges of transitioning into civilian life. In addition to these burdens, research shows a civilian-military divide. Seventy-one percent of Americans say they have little understanding of the issues facing veterans, and veterans agree: eighty-four percent say that the public has "little awareness" of the issues facing them and their families. Each painting in this meticulously produced hardcover volume is accompanied by the inspiring story of the veteran depicted, written by the President. Readers can see the faces of those who answered the nation's call and learn from their bravery on the battlefield, their journeys to recovery, and the continued leadership and contributions they are making as civilians. It is President Bush's desire that these stories of courage and resilience will honor our men and women in uniform, highlight their family and caregivers who bear the burden of their sacrifice, and help Americans understand how we can support our veterans and empower them to succeed. President Bush will donate his net author proceeds from *PORTRAITS OF COURAGE* to the George W. Bush Presidential Center, a non-profit organization whose Military Service Initiative works to ensure that post-9/11 veterans and their families make successful transitions to civilian life with a focus on gaining meaningful employment and overcoming the invisible wounds of war.

John Ashbery's most renowned collection of poetry -- Winner of The Pulitzer Prize, the National Book Award, and the National Book Critics Circle Award First released in 1975, *Self-Portrait in a Convex Mirror* is today regarded as one of the most important collections of poetry published in the last fifty years. Not only in the title poem, which the critic John Russell called "one of the finest long poems of our period," but throughout the entire volume, Ashbery reaffirms the poetic power that made him an outstanding figure in contemporary literature. These are poems "of breathtaking freshness and

adventure in which dazzling orchestrations of language open up whole areas of consciousness no other American poet as ever begun to explore" (The New York Times).

A gripping exploration of the joys, hardships, and truths of Black students through intimate, honest dialogues and stunning photography, author of *Heavy* "A radical, reverential, and restorative document of community."—Rebecca Bengal, author of *Strange Hours: Photography, Memory, and the Lives of Artists* When photographer Adraint Bereal graduated from the University of Texas, he self-published an impressive volume of portraits, personal statements, and interviews that explored UT's campus culture and offered an intimate look at the lives of Black students matriculating within a majority white space. Bereal's work was inspired by his first photo exhibition at the George Washington Carver Museum in Austin, entitled 1.7, that unearthed the experiences of the 925 Black men that made up just 1.7% of UT's total 52,000 student body. Now Bereal expands the scope of his original project and visits colleges nationwide, from Historically Black Colleges and Universities (HBCUs) to predominantly white institutions to trade schools and more. Rather than dwelling on the monolith of trauma often associated with Black narratives, Bereal is dedicated to using honest dialogue to share stories of true joy and triumph amidst the hardships, prejudices, and internal struggles. Using an exciting and eclectic design approach to accompany the portraits and stories, each individual profile effectively conveys the interviewee's unique voice, tone, and background. *The Black Yearbook* reframes society's stereotypical perception of higher education by representing and celebrating the wide range of Black experiences on campuses.

Never-before-published work by an iconic woman artist from the very start of her career. Francesca Woodman took her first photograph at the age of the thirteen. From the time she was a teenager until her death at twenty-two, she produced a fascinating body of work exploring gender, representation, and sexuality by photographing her own body and those of her friends. Featuring approximately forty unique vintage prints, as well as notes, letters, postcards, and other ephemera related to the artist's burgeoning career, the volume, which accompanies an exhibition of the same name at MCA Denver, details both Woodman's creative and personal coming-of-age during the years 1975-1979. Francesca Woodman: Portrait of a Reputation considers how the artist came into her creative voice and her singular approach to photography at a notably young age. Ranging from portraits in her studio/apartment in college to self-portraits in the bucolic Colorado landscape in which she was raised, these works capture Woodman's hallmark approach to art making: enigmatic, rigorous, and poignant. The volume also includes select photographs of Woodman taken by friend and RISD classmate George Lange during this period. Taken together, they present a nuanced and in-depth study of this formative period in the development of this groundbreaking artist.

"An uncanny and imaginative autobiography of otherness, it offers the fictional record of a writer in the realms of the fantastic shot through with the memories of a pair of Somali-American children growing up in the 1980s. Operating under the sign of two—texts and drawings, brother and sister, black and white, extraordinary and everyday —Monster Portraits multiplies, disintegrates, and blends, inviting the reader to find the danger in the banal, the beautiful in the grotesque. Accumulating into a breathless journey and groundbreaking study, these brief fictions and sketches claim the monster as a fragmentary vastness: not the sum but the derangement of its parts."-- Amazon.com.
