Princeton
Review

An investigative approach to Cambridge
IGCSE Geography, written in partnership
with the Geographical Association.
Encourage students to make links
between case studies and their own local
contexts as well as exploring the core
themes and skills of the 0460 syllabus in
the context of global case studies and
processes. Prepare for exam success
with full coverage of the core themes of
Paper 1 (Population and Settlement, The
Natural Environment, Economic
Development and the Use of Resources)
as well as the geographical and
fieldwork skills elements of Papers 2, 3
and 4. Help students focus on achieving
the best grades with excellent exam

support for each Paper, with exam-style questions, answers at different levels and accompanying comments. Be confident in the content and approach - this resource is written by highly experienced Geography teachers, consulted edited by a CIE Principal Examiner, and produced in partnership with the UK Geographical Association - the home of best practice in Geography teaching.

Debates in Geography Education encourages early career teachers, experienced teachers and teacher educators to engage with and reflect on key issues, concepts and debates. It aims to enable readers to reach their own informed judgements with deeper theoretical knowledge and understanding. The second edition is fully updated in light of the latest research, policy and practice in the field, as well as key changes to the curriculum and examination specifications. Expert contributors provide a range of

perspectives on international, historical and policy contexts in order to deepen our understanding of significant debates in geography education. Key debates include: geography's identity as an academic discipline; what constitutes knowledge in geography; places and regional geography; what it means to think geographically; constructing the curriculum; how we link assessment to making progress in geography; the contribution of fieldwork and outdoor experiences; technology and the use of Geographical Information; school geography and employability; understanding the gap between school and university geography; evidence-based practice and research in geography education. The comprehensive, rigorous coverage of these key issues, together with carefully annotated selected further reading, will help support and shape further research and writing. Debates in Geography Education is a key resource that is essential reading for all teachers and researchers who wish to extend their grasp of the place of geography in education. Mark Jones is Senior Lecturer in Education at the University of the West of England, Bristol, UK David Lambert is Professor of Geography Education at UCL Institute of Education, London, UK
