Even as they produce food for society and its people, lives dependent on agriculture are barely able to make ends meet. The cost of food production far outweighs the returns; the peasantry is falling prey to indebtedness, both institutionalized and non-institutionalized. It is facing the severest of challenges, with even dalit landless labourers becoming victims of indebtedness and succumbing to suicide. Based on a study done in eight districts of the Malwa region of the Punjab, this book uses quantitative data along with field work, narratives and interviews with peasant unions. Over 136 families have been interviewed where women as wives and mothers of the deceased speak of the aftermath of the suicide. The book outlines the distress borne by the family, including women, the children and the elderly in the aftermath of peasant suicides. By doing so, it interrogates the split between public and private; production and social reproduction; work and family. It highlights the determining character of capitalist-intensive agriculture in today's crisis times by focusing on women's reality and renewed hardships in a caste, class and patriarchal society.

Herschel McKee's remarkable life story reads like that of a comic-book hero. A daredevil, a leader of men and, above all, a survivor, McKee fought in both World Wars, suffering numerous skirmishes with death. His colorful life included spells as a Foreign Legion soldier, fighter-pilot ace with the elite Lafayette Flying Corps, prisoner-of-war escapee, race car driver, WWII bomber-wing commander and test pilot. Inger Frimansson was born in 1944 in Stockholm and grew up in various places in the middle of Sweden. Today she lives in Södertälje, a town not far from Stockholm, with her husband Jan. As a young girl Inger Frimansson won a number of literary competitions, among them, the so-called Little Nobel Prize in 1963. She started her career as a working journalist, and she made her debut as a writer of serious fiction in 1984 with her novel *The Double Bed* (Dubbelsängen). In 1997, she published her first full-fledged psychological thriller, *I Will Fear No Evil* (Fruktar jag intet ont). A significant breakthrough in her writing career occurred in 1998 with the publication of *Good Night, My Darling*

(Godnatt, min älskade), which was voted Best Mystery Novel of the Year by the Swedish Academy of Mystery Authors. The jury's citation included this appreciation: "A psychological thriller about senselessness and revenge that doesn't loosen its grasp of the reader's attention for the length of the book." In autumn 2002, *The Island of Naked Women* (De nakna kvinnornas ö) was published, a thriller about vehement passion and unprovoked manslaughter. *Hidden Tracks* (Mörkerspår), 2003, followed with more rave reviews from the critics, as did the recent *The Shadow in the Water* (Skuggan i vattnet), awarded with The Swedish Academy of Mystery Authors Award for Best Swedish Crime Novel 2005. She is the only female crime author ever to receive this award twice. Inger Frimansson's novels are translated into several languages and are published in various editions in Norway, Latvia, Holland, Finland, Denmark, Spain, Bulgaria, and Germany. We at *Pleasure Boat Studio* are privileged to have brought Inger's books to an English-reading audience through the excellent translations of Laura Wideburg (winner of the Best Translation of the Year Award from *ForeWord Magazine* for her translation of *Good Night, My Darling*). An unforgettable first-person account of surviving the Rwandan genocide and its aftermath Featuring a foreword by Globe and Mail Africa Bureau Chief Geoffrey York In 1994, Obadiah was the thirteen-year-old son of a Hutu pastor, living comfortably in Rwanda and dreaming of becoming a pilot, when violence and bloodshed began to engulf the country. His family soon fled their home, pursued by soldiers and stalked by death and hunger. As the genocide led into a horrific war, Obadiah was forced to survive unrelenting terror and the darkest despair as a refugee, both in neighbouring Zaire and eventually in the American refugee detention system. Obadiah was sustained through these horrors by his faith and the philosophy of ubuntu — finding one's self through connection with others. In the spirit of *Night* by Elie Wiesel, *Die Walking* is one boy's horrific story of shared humanity in a chaotic world.

One of NPR's Best Books of 2020 One of Time's 100 Must-Read Books of 2020 From the New York Times bestselling author of I Can't Date Jesus, which Vogue called "a piece of personal and cultural storytelling that is as fun as it is illuminating," comes a wry and insightful essay collection that explores the financial and emotional cost of chasing your dreams. Ever since Oprah Winfrey told the 2007 graduating class of Howard University, "Don't be afraid," Michael Arceneaux has been scared to death. You should never do the opposite of what Oprah instructs you to do, but when you don't have her pocket change, how can you not be terrified of the consequences of pursuing your dreams? Michael has never shied away from discussing his struggles with debt, but in I Don't Want to Die Poor, he reveals the extent to which it has an impact on every facet of his life—how he dates; how he seeks medical care (or in some cases, is unable to); how he wrestles with the question of whether or not he should have chosen a more financially secure path; and finally, how he has dealt with his "dream" turning into an ongoing nightmare as he realizes one bad decision could unravel all that he's earned. You know, actual "economic anxiety." I Don't Want to Die Poor is an unforgettable and relatable examination about what it's like leading a life that often feels out of your control. But in Michael's voice that's "as joyful as he is shrewd" (BuzzFeed), these razor-sharp essays will still manage to make you laugh and remind you that you're not alone in this often intimidating journey.

"This account of how a once reviled theory, Baye's rule, came to underpin modern life is both approachable and engrossing" (Sunday Times). A New York Times Book Review Editors' Choice Bayes' rule appears to be a straightforward, one-line theorem: by updating our initial beliefs with objective new information, we get a new and improved belief. To its adherents, it is an elegant statement about learning from experience. To its opponents, it is subjectivity run amok. In the first-ever account of Bayes' rule for general readers, Sharon Bertsch McGrayne explores this controversial theorem and the generations-long human drama surrounding it. McGrayne traces the rule's discovery by an 18th century amateur mathematician through its development by French scientist Pierre Simon Laplace. She reveals why respected statisticians rendered it professionally taboo for 150 years—while practitioners relied on it to solve crises involving great uncertainty and scanty information, such as Alan Turing's work breaking Germany's Enigma code during World War II. McGrayne also explains how the advent of computer technology in the 1980s proved to be a game-changer. Today, Bayes' rule is used everywhere from DNA de-coding to Homeland Security. Drawing on primary source material and interviews with statisticians and other scientists, The Theory That Would Not Die is the riveting account of how a seemingly simple theorem ignited one of the greatest controversies of all time.

A "must-read" (The Washington Post) funny and practical guide to help you find, build, and keep the relationship of your dreams. Have you ever looked around and wondered, "Why has everyone found love except me?" You're not the only one. Great relationships don't just appear in our lives—they're the culmination of a series of decisions, including whom to date, how to end it with the wrong person, and when to commit to the right one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. Drawing from years of research, behavioral scientist turned dating coach Logan Ury reveals the hidden forces that cause those mistakes. But awareness on its own doesn't lead to results. You have to actually change your behavior. Ury shows you how. This "simple-to-use guide" (Lori Gottlieb, New York Times bestselling author of Maybe You Should Talk to Someone) focuses on a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You'll learn: -What's holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn't) - How to overcome the perils of online dating (and make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) -Why "the spark" is a myth (but you'll find love anyway) This "data-driven" (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life.
