Cracking the SAT Chemistry Subject Test

McGraw Hill
Professional

Your complete guide to
a higher score on the
AP Chemistry exam.

Why CliffsAP Guides?

Go with the name you
know and trust. Get
the information you
need--fast! Written by
test-prep specialists

Contents include:

Introduction, overview
of the test and how it is
scored, proven
strategies for each
type of question.

Review of topics
tested, atom, periodic
table, bonding,
geometry-
hybridization,
stoichiometry, gases,
liquids and solids,

thermodynamics,
solutions, equilibrium,
acids and bases,
kinetics, redox, nuclear
chemistry, organic
chemistry, and writing
reactions. The Labs
feature 20 multiple-
choice questions,
multiple free-response
questions on each
topic, with answers on
each topic, with
answers and and
explanations, scoring
rubrics, and 2 full-
length practice exams
Structured like the
actual exam Complete
with answers and
explanations AP is a

Physics, Chemistry, Mathematics (For 2022 Exam) The Princeton Review

Essential strategies, practice, and review to ace the SAT Subject Test Chemistry.

Getting into a top college has never been more difficult. Students need to distinguish themselves from the crowd, and scoring well on a SAT Subject Test gives students a competitive edge.

Kaplan's SAT Subject Test: Chemistry is the most up-to-date guide on the market with complete coverage of both the content review and strategies students need for success on test day.

Kaplan's SAT Subject Test: Chemistry features: * A full-length diagnostic test * Full-length practice tests * Focused chapter

summaries, highlights, and quizzes * Detailed answer explanations * Proven score-raising strategies * End-of-chapter quizzes Kaplan is serious about raising students' scores—we guarantee students will get a higher score.

5 Steps to a 5 AP Chemistry, 2010-2011 Edition

Cengage Learning
We want to help you score high on the SAT Chemistry test We've put all of our proven expertise into McGraw-Hill's SAT Subject Test: Chemistry to make sure you're fully prepared for this difficult exam. With this book, you'll get essential skill-building techniques and strategies created by a leading high school chemistry teacher. You'll also get 5 full-length practice tests,

hundreds of sample questions, and all the facts about the current exam. With McGraw-Hill's SAT Subject Test: Chemistry, we'll guide you step by step through your preparation program-- and give you the tools you need to succeed. 5 full-length sample tests with complete explanations for every question 40 top test items to remember on exam day A step-by-step review of all topics covered on the exam Teacher-recommended tips and strategies to help you raise your score

Study Guide for Whitten/Davis/Peck/Stanley's Chemistry, 10th The Princeton Review

This workbook is a comprehensive collection of solved exercises and

problems typical to AP, introductory, and general chemistry courses, as well as blank worksheets containing further practice problems and questions. It contains a total of 197 learning objectives, grouped in 28 lessons, and covering the vast majority of the types of problems that a student will encounter in a typical one-year chemistry course. It also contains a fully solved, 50-question practice test, which gives students a good idea of what they might expect on an actual final exam covering the entire material.

 General Chemistry
 Complete Subject
 Review provides a
 detailed and thorough
 review of General
 Chemistry topics
 tested on the MCAT
 2018. The content
 covers foundational
 principles and theories
 necessary to answer
 related questions on
 the test. - Electronic
 structure and atomic
 nucleus - Periodic table
 - Chemical bonding -
 Stoichiometry - States
 of matter - Solution
 chemistry - Acids/base
 equilibria - Rate
 processes in chemical
 reactions -
 Thermochemistry,
 thermodynamics,

bioenergetics - Kinetics and equilibrium - Electrochemistry This book provides a detailed and thorough review of General Chemistry topics tested on the MCAT. The content covers foundational principles and theories necessary to answer related questions on the test. The information is presented clearly and organized in a systematic way to provide students with targeted MCAT review tool. You can focus on one knowledge area at a time to learn and fully comprehend important concepts and theories, or to simply refresh your memory. By reading these review chapters thoroughly, you will learn important chemistry concepts and the relationships

between them, so you can answer related questions on the test. This will prepare you for the MCAT general chemistry and you will significantly increase your score. Scoring well on the MCAT is extremely important for admission into medical school. To achieve a high MCAT score, you need to develop skills to properly apply the knowledge you have and quickly choose the correct answer. Understanding key concepts, having the ability to extract information from the passages and distinguishing between similar answer choices is more valuable than simply memorizing terms. All the material in this book is prepared by science instructors with years of

experience in applied chemistry and in academic settings. It was reviewed and organized by our MCAT editors to ensure strict adherence to the topics and skills outlined by the AAMC for the current MCAT. Our MCAT editors possess extensive credentials, were educated in top colleges and universities and have been admitted to medical school with stellar MCAT scores. They are experts on teaching, preparing students for the MCAT and have coached thousands of premeds on admission strategies.

Sat Subject Test - Chemistry Princeton Review

If you need to know it, it's in this book. This eBook version of the

2013-2014 edition of *Cracking the SAT Chemistry Subject Test* has been optimized for on-screen viewing with cross-linked questions, answers, and explanations. It includes:

- 3 full-length practice tests with detailed explanations
- Review of all essential content, from chemical equations to kinetics to electron configurations
- Helpful study lists of key lab equipment and a cheat sheet of important equations
- Key strategies that will help maximize your score
- Tons of sample problems and drills with detailed explanations

If Students Need to Know It, It's in This Book
This book

develops the chemistry skills of high school students. It builds skills that will help them succeed in school and

on the New York Regents Exams. Why The Princeton Review?

We have more than twenty years of experience helping students master the skills needed to excel on standardized tests.

Each year we help more than 2 million students score higher and earn better grades. We Know the

New York Regents Exams

Our experts at The Princeton Review

have analyzed the New York Regents Exams, and this book provides

the most up-to-date,

thoroughly researched practice possible. We break down the test into individual skills to familiarize students with the test's structure, while increasing their overall skill level. We Get Results We know what it takes to succeed in the classroom and on tests. This book includes strategies that are proven to improve student performance. We provide a breakdown of the skills based on New York standards and objectives · hundreds of practice questions, organized by skill · two complete practice New York Regents Exams in Physical Setting/Chemistry

Barrons Educational Series Incorporated A Perfect Plan for the Perfect Score We want you to succeed on your AP* exam. That's why we've created this 5-step plan to help you study more effectively, use your preparation time wisely, and get your best score. This easy-to-follow guide offers you a complete review of your AP course, strategies to give you the edge on test day, and plenty of practice with AP-style test questions. You'll sharpen your subject knowledge, strengthen your thinking skills, and build your test-taking confidence with Full-length practice exams modeled on the real test All the terms and concepts you need to know to get your

best score Your choice of three customized study schedules--so you can pick the one that meets your needs The 5-Step Plan helps you get the most out of your study time: Step 1: Set Up Your Study Program Step 2: Determine Your Readiness Step 3: Develop the Strategies Step 4: Review the Knowledge Step 5: Build Your Confidence Topics include: Reactions and Periodicity, Stoichiometry, Gases, Thermodynamics, Spectroscopy, Light, and Electrons, Bonding, Solids, Liquids, and Intermolecular Forces, Solutions and Colligative Properties, Kinetics, Equilibrium, Electrochemistry, Nuclear Chemistry, and Organic Chemistry Also

includes: AP Chemistry practice exams *AP, Advanced Placement Program, and College Board are registered trademarks of the College Entrance Examination Board, which was not involved in the production of, and does not endorse, this product.

ACS General Chemistry Study Guide Research & Education Assoc. Earn College Credit with REA's Test Prep for CLEP* Chemistry Everything you need to pass the exam and get the college credit you deserve. CLEP* is the most popular credit-by-examination program in the country, accepted by more than 2,900 colleges and universities. For over 15 years, REA has helped students pass the CLEP* exam and earn college credit

while reducing their tuition costs. Our CLEP* test preps are perfect for adults returning to college (or attending for the first time), military service members, high-school graduates looking to earn college credit, or home-schooled students with knowledge that can translate into college credit. There are many different ways to prepare for the CLEP* exam. What's best for you depends on how much time you have to study and how comfortable you are with the subject matter. Our test prep for CLEP* Chemistry and the free online tools that come with it, will allow you to create a personalized CLEP* study plan that can be customized to fit you: your schedule, your

learning style, and your current level of knowledge. Here's how it works: Diagnostic exam at the REA Study Center focuses your study Our online diagnostic exam pinpoints your strengths and shows you exactly where you need to focus your study. Armed with this information, you can personalize your prep and review where you need it the most. Most complete subject review for CLEP* Chemistry Our targeted review covers all the material you'll be expected to know for the exam and includes a glossary of must-know terms. Two full-length practice exams The online REA Study Center gives you two full-length practice tests and the most powerful scoring

analysis and diagnostic tools available today. Instant score reports help you zero in on the CLEP* Chemistry topics that give you trouble now and show you how to arrive at the correct answer-so you'll be prepared on test day. REA is the acknowledged leader in CLEP* preparation, with the most extensive library of CLEP* titles available. Our test preps for CLEP* exams help you earn valuable college credit, save on tuition, and get a head start on your college degree.

About Research &
Education Association
Research & Education
Association (REA) is an
organization of
educators, scientists,
and engineers
specializing in various
academic fields.
Founded in 1959 with
the purpose of
disseminating the most
recently developed
scientific information to
groups in industry,
government, high

schools, and
universities, REA has
since become a
successful and highly
respected publisher of
study aids, test preps,
handbooks, and
reference works. REA's
Test Preparation series
includes study guides
for all academic levels
in almost all
disciplines. Research &
Education Association
publishes test preps for
students who have not
yet completed high
school, as well as high
school students
preparing to enter
college. Students from
countries around the
world seeking to attend
college in the United
States will find the
assistance they need in
REA's publications. For
college students
seeking advanced
degrees, REA publishes
test preps for many
major graduate school

admission examinations in a wide variety of disciplines, including engineering, law, and medicine. Students at every level, in every field, with every ambition can find what they are looking for among REA's publications. While most test preparation books present practice tests that bear little resemblance to the actual exams, REA's series presents tests that accurately depict the official exams in both degree of difficulty and types of questions. REA's practice tests are always based upon the most recently administered exams, and include every type of question that can be expected on the actual exams. REA's publications and

educational materials are highly regarded and continually receive an unprecedented amount of praise from professionals, instructors, librarians, parents, and students. Our authors are as diverse as the fields represented in the books we publish. They are well-known in their respective disciplines and serve on the faculties of prestigious high schools, colleges, and universities throughout the United States and Canada. PREFACE This book provides an accurate and complete representation of the Advanced Placement Examination in Chemistry. Our six practice exams are based on the most recently administered Advanced Placement Chemistry Exams. Each

exam is three hours in length and includes every type of question that can be expected on the actual exam. Following each exam is an answer key complete with detailed explanations designed to clarify and contextualize the material. By completing all six exams and studying the explanations which follow, you can discover your strengths and weaknesses and thereby become well prepared for the actual exam. The formulas and tables for the AP Chemistry Exam can be found at the back of this book, beginning on page 417. You will be provided these formulas and tables when you take the actual exam. You should also use this material when taking

the practice tests in this book. ABOUT THE TEST The Advanced Placement Chemistry Examination is offered each May at participating schools and multi-school centers throughout the world. The Advanced Placement Program is designed to allow high school students to pursue college-level studies while attending high school. The participating colleges, in turn, grant credit and/or advanced placement to students who do well on the examinations. The Advanced Placement Chemistry course is designed to be the equivalent of a college introductory chemistry course, often taken by chemistry majors in their first year of college. Since the test covers a broad range

of topics, no student is expected to answer all of the questions correctly. The exam is divided into two sections: 1) Multiple-choice: Composed of 75 multiple-choice questions designed to test your ability to recall and understand a broad range of chemical concepts and calculations. This section constitutes 45% of the final grade and you are allowed 90 minutes for this portion of the exam.

Calculators are not permitted for this section of the exam. 2) Free-response section: Composed of several comprehensive problems and essay topics. This section constitutes 55% of the final grade and the student is allowed 90 minutes for this portion of the exam. You may

choose from the questions provided. These problems and essays are designed to test your ability to think clearly and to present ideas in a logical, coherent fashion. You can bring an electronic hand-held calculator for use on the 40-minute free-response section. Essay and chemical-reaction questions comprise the last 50 minutes of the test, during which calculators are not permitted. A final note about calculators: Most hand-held models are allowed in the test center; the only notable exceptions are those with typewriter-style (QWERTY) keypads. If you are unsure if your calculator is permitted, check with your teacher or Educational

Testing Service.

SCORING The multiple-choice section of the exam is scored by crediting each correct answer with one point, and deducting only partial credit (one-fourth of a point) for each incorrect answer. Omitted questions receive neither a credit nor a deduction. The essay section is scored by a group of more than 1,000 college and high school educators

familiar with the AP Program. These graders evaluate the accuracy and coherence of the essays accordingly. The grades given for the essays are combined with the results of the multiple-choice section, and the total raw score is then converted to the program's five-point scale: 5 - Extremely well qualified 4 - Well qualified 3 - Qualified 2 - Possibly qualified
