The Junto Club outgrew into the American Philosophical Society. In the fall of 1727 Benjamin Franklin and a group of friends founded the Junto Club also known as the Leather Apron Club. The 12 members were tradesmen and artisans who met Friday evenings to discuss issues of morals, politics or natural philosophy. The club lasted 38 years. However, there are two main issues that make the philosophy of cosmology unlike that of any other science. The first is, The uniqueness of the Universe: there exists only one universe, so there is nothing else similar to compare it with, and the idea of “Laws of the universe” hardly makes sense. Philosophy of Cosmology (Stanford Encyclopedia of Philosophy)

The defence of the autonomy of historical explanation in The Idea of History, for example, implies that the role of philosophical analysis is to identify the distinctive presuppositions of history and to distinguish them from those of natural science with a view to combating scientism. The second conception, by contrast, places the emphasis on ... “the world behind the text”. While often discussed in terms of Jewish and Christian writings from ancient times, historical criticism has also been applied to other religious and secular writings from various ... Truth, in philosophy, the property of sentences, assertions, beliefs, thoughts, or propositions that are said, in ordinary discourse, to agree with the facts or to state what is the case. Major theories of truth include those based on correspondence, coherence, truth conditions, and deflationism. Truth | Definition, Importance, Theories, & Facts | Britannica

Hermeneutics is the theory and methodology of interpretation, especially the interpretation of biblical texts, wisdom literature, and philosophical texts. Hermeneutics is more than interpretative principles or methods used when immediate comprehension fails and includes the art of understanding and communication. Hermeneutics - Wikipedia
