Riverbed Command-Line Interface Reference Manual

7 Preface

Welcome to the Riverbed Command-Line Interface Reference Manual.

Read this preface for an overview of the information provided in this guide and the documentation conventions used throughout, hardware and software dependencies, additional reading, and contact information. Riverbed Command-Line Interface Reference Manual I have found the Riverbed Template you guys have been discussing in the downloads area. I have downloaded it and saved it to what I thought was the right place... granted I have not read the admin guide about the templates... in the device types subfolder without the file extension, like the others. Backing up Riverbed Configs - THWACK STEP:2 Add

the Riverbed hostname/ip address as Network Device in ClearPass under Configuration > Network > Devices. (Use same Shared Secret Key on both Riverbed and CPPM) STEP:3 Create a TACACS+ based Enforcement profile as shown below to return the admin Privilege to Riverbed. Note: admin and monitor are the 2 default privileges in Riverbed. How to authenticate Riverbed admin users against ClearPass ... IDC conducted detailed interviews with nine organizations to understand the impact of optimizing the delivery of business applications with Riverbed SteelHead. IDC calculates that organizations will realize benefits worth

an average of \$27,014 per 100 users (\$7.23 million per organization) per year over three years, which translates to a projected three-year return on investment (ROI) of 497%. SteelCentral Controller for SteelHead | Riverbed Solved: How to configure ACS 5.3 to authenticate Riverbed Steelhead? Hello Santosh, You need to configure the attribute "local-user-name" with the value "admin" on the Shell Profile and assigned it to his Access Policy rule "default device admin". Solved: TACACS for Riverbed - Cisco Community Riverbed, known for its Digital Performance Platform, has updated its software-defined wide-

area network (SD-WAN) offerings, while also announcing SaaS Accelerator, targeting Software-as-a-Service apps such as O365, Salesforce, ServiceNow and Box. Riverbed Updates SD-WAN, Announces SaaS Accelerator ... Riverbed proof of concept demo at ONUG Fall 18 on how to monitor, troubleshoot and analyze end user application experience along with integrated troubleshoot... Riverbed SteelCentral: End User Experience and Application ... All traps: software errors, hardware errors, admin login, performance issues - cpu, memory, peer latency issues. About 115 traps defined in ADMIN > Device Support > Event. The mapped event types start with

"Riverbed-".
