Exploring ODEs is a
textbook of ordinary
differential equations for

advanced
undergraduates, graduate
students, scientists, and
engineers. It is unlike
other books in this field in
that each concept is
illustrated numerically via

a few lines of Chebfun code. There are about 400 computer-generated figures in all, and Appendix B presents 100 more examples as templates for further exploration.?

The contemporary music scene thus embodies a uniquely broad spectrum of activity, which has grown and changed down to the present hour. With new talents emerging and different technologies developing as we move further into the 21st century, no one can

predict what paths music will take next. All we can be certain of is that the inspiration and originality that make music live will continue to bring awe, delight, fascination, and beauty to the people who listen to it. This book cover modernist and postmodern concert music worldwide from the years 1888 to 2018. This second edition of *Historical Dictionary of Modern and Contemporary Classical Music* contains a chronology, an introduction, and an

extensive bibliography. The dictionary section has over 500 cross-referenced entries on the most important composers, musicians, methods, styles, and media in modernist and postmodern classical music worldwide, from 1888 to 2018. This book is an excellent resource for students, researchers, and anyone wanting to know more about modern and contemporary classical music.

The world-famous French singer Édith Piaf (1915-63) was never just a singer. This book suggests new ways of understanding her, her myth and her meanings over time at home and abroad, by proposing the notion of an 'imagined'

The Miracle of Stalag 8A is a retelling of the fascinating story of Olivier Messiaen's composition of his Quartet for the End of Time. Set in France & Germany from 1939 to 1941, Messiaen served in the French army, was captured at Verdun, and sent to Stalag 8A in Gorlitz, Germany, where he composed the great work, The Quartet for the End of Time. The enigmatic Messiaen, an avant-garde composer

and also a devout Catholic, along with Etienne Pasquier, an agnostic cellist, Henri Akoka, a Jewish Trotskyite Clarinetist, and Jean le Boulaire, an atheistic violinist, become the famous quartet of Stalag 8A. These four very different men collaborated to create musical history in the most unlikely of places. Messiaen's Quartet, composed in a Stalag, transforms man's inhumanity to man with hope. Yet to the avant-garde, he was too

traditional and too religious; to the traditionalists and religious, he was too avant-garde. As a result he will always stand somewhere outside of Time. The first performance of the Quartet for the End of Time at Stalag 8A in January 1941 has become, in the words of Paul Griffiths, "one of the great stories of twentieth-century music."

This book explores project

management (PM) from a musical perspective. Music is a significant example of a nontraditional arena where PM is vital, yet it is only beginning to be seen as a vital tool. Therefore, this book will give an in depth and preeminent look at the PM processes and knowledge areas that are of utmost importance in many fields that PM is not used for currently. Seeking to understand projects in musical ways, synergies between music and the wider project management profession

are many and varied. Written and developed by international experts in the project management and music professions, this book represents a unique and insightful approach to the study of the subject. The authors take a fresh look at practical models of musical thinking capable of application at every scale of project management, and in every possible project management environment. If you want to make your projects more musical, or simply

have an interest exploring project management in music, this is the book for you!

Screen World 1993 Wm. B. Eerdmans Publishing
 The clarinetist Rebecca Rischin has written a captivating book.... Her research dispels several long-cherished myths about the 1941 premiere.... Rischin lovingly brings to life the other musicians-- tienne Pasquier, cellist; Henri Akoka, clarinetist; and Jean Le Boulaire, violinist-- who played with Messiaen, the pianist at the premiere."--Alex Ross, *The New Yorker* "This book offers a wealth of new information about the

circumstances under which the Quartet was created. Based on original interviews with the performers, witnesses to the premiere, and documents from the prison camp, this first comprehensive history of the Quartet's composition and premiere held my interest from beginning to end.... For the End of Time touches on many things: faith, friendship, creativity, grace in a time of despair, and the uncommon human alliances that wartime engenders."--Arnold

Steinhardt, *Chamber Music*"The clarification of the order of composition of the movements is just one of the minor but cumulatively significant ways in which Rischin modifies the widely accepted account of the events at Stalag VIII A.... For the End of Time is a thorough and readable piece of investigative journalism that clarifies some important points about the Quartet's genesis."--Michael Downes, *Times Literary Supplement* The premiere of Olivier Messiaen's

Quartet for the End of Time on January 15, 1941, has been called one of the great stories of twentieth-century music. Composed while Messiaen (1908-1992) was imprisoned by the Nazis in Stalag VIII A, the work was performed under the most trying of circumstances: the temperature, inferior instruments, and the general conditions of life in a POW camp. Based on testimonies by the musicians and their families, witnesses to the premiere, former prisoners, and on

documents from Stalag VIII A, For the End of Time examines the events that led to the Quartet's composition, the composer's interpretive preferences, and the musicians' problems in execution and how they affected the premiere and subsequent performances. Rebecca Rischin explores the musicians' life in the prison camp, their relationships with each other and with the German camp officials, and their intriguing fortunes before and after

the momentous premiere. This paperback edition features supplementary texts and information previously unavailable to the author about the Quartet's premiere, Vichy and the composer, the Paris premiere, a recording featuring Messiaen as performer, and an updated bibliography and discography. [Comprehensive Pictorial and Statistical Record of the 1994 Movie Season](#) Indiana University Press For the forces competing for political authority in

France during World War II, music became the site of a cultural battle that reflected the war itself. In this book, Leslie A. Sprout explores how several well-known composers struggled to balance artistic integrity with political survival.

Gathering in one place a cohesive selection of articles that deepen our

sense of the vitality and controversy within the Catholic renewal of the mid-twentieth century, God's Mirror offers historical analysis of French Catholic intellectuals. This volume highlights the work of writers, thinkers and creative artists who have not always drawn the attention given to such luminaries as Maritain, Mounier, and Marcel. Organized around the typologies of renewal and engagement, editors Katherine Davies and Toby Garfitt provide a

revisionist and interdisciplinary reading of the narrative of twentieth-century French Catholicism. Renewal and engagement are both manifestations of how the Catholic intellectual reflects and takes position on the relationship between the Church, personal faith and the world, and on the increasingly problematic relationship between intellectuals and the Magisterium. A majority of the writings are based on extensive research into published texts, with

some occasional archival references, and they give critical insights into the tensions that characterized the theological and political concerns of their subjects. **God's Mirror** Biblo & Tannen Publishers Jerome Corsi's newest opus, *No Greater Valor*, examines the Siege of Bastogne—one of the most heroic victories of WWII—with a focus on the surprising faith of the Americans who fought there. In December of 1944, an outmanned, outgunned, and

surrounded US force fought Hitler's overwhelming Panzer divisions to a miraculous standstill at Bastogne. The underdogs had saved the war for the Allies. It was nothing short of miraculous. Corsi's analysis is based on a record of oral histories along with original field maps used by field commanders, battle orders, and other documentation made at the time of the military command. With a perspective gleaned from newspapers, periodicals,

and newsreels of the day, Corsi paints a riveting portrait of one of the most important battles in world history.
