Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness

account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from

past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

In this groundbreaking and insightful new commentary, one of the world's leading biblical scholars unveils the unity and continuity of the Torah for the modern reader. Richard Elliott Friedman, the bestselling author of *Who Wrote the Bible?*, integrates the most recent discoveries in biblical archaeology and research with the fruits of years of experience studying and teaching the Bible to illuminate the straightforward meaning of the text -- "to shed new light on the Torah and, more important, to open windows through which it sheds its light on us." While other commentaries are generally collections of comments by a number of scholars, this is a unified commentary on the Torah by a single scholar, the most unified by a Jewish

scholar in centuries. It includes the original Hebrew text, a new translation, and an authoritative, accessibly written interpretation and analysis of each passage that remains focused on the meaning of the Torah as a whole, showing how its separate books are united into one cohesive, all-encompassing sacred literary masterpiece. This landmark work is destined to take its place as a classic in the libraries of lay readers and scholars alike, as we seek to understand the significance of the scriptural texts for our lives today, and for years to come.

From the bestselling author of *A People's*

History of the United States comes this selection of passionate, honest, and piercing essays looking at American political ideology. Howard Zinn brings to *Passionate Declarations* the same astringent style and provocative point of view that led more than a million people to buy his book *A People's History of the United States*. He directs his critique here to what he calls "American orthodoxies" -- that set of beliefs guardians of our culture consider sacrosanct: justifications for war, cynicism about human nature and violence, pride in our economic system, certainty of our freedom of speech, romanticization of representative government, confidence in our system of justice. Those orthodoxies, he believes, have a chilling effect on our capacity to think independently and to become active citizens in the long struggle for peace and justice.

The first historically and internationally comprehensive collection of its kind, *Essayists on the Essay* is a path-breaking work that is nothing less than a richly varied sourcebook for anyone interested in the theory, practice, and art of the essay. This unique work includes a selection of fifty distinctive pieces by American, Canadian, English, European, and South American essayists from Montaigne to the

present—many of which have not previously been anthologized or translated—as well as a detailed bibliographical and thematic guide to hundreds of additional works about the essay. This collection provides teachers, scholars, essayists, and readers with the materials they need to take a fresh look at this important but often overlooked form that has for too long been relegated to the role of service genre—used primarily to write about other more “literary” genres or to teach young people how to write. Here, in a single celebratory volume, are four centuries of commentary and theory reminding us of the essay's storied history, its international appeal, and its relationship not just with poetry and fiction but also

with radio, film, video, and new media. [Writing in the Disciplines](#) Macmillan Higher Education

"How to Write a Thesis can be read with profit by anyone who writes professionally, whether proposals, reports, monographs or a thesis. It is oriented to someone

writing a PhD thesis, but has a lot to say about writing in general. It deals with the process of writing rather than detailed content, and is applicable regardless of discipline" SRA "This is the book that all PhD supervisors and their students have been waiting for: the first comprehensive overview of the many different writing practices, and processes, involved in the production of a doctoral thesis. Crammed full of explanations, shortcuts and tips, this book demystifies academic writing in one fell swoop. Everyone who reads it will be massively enabled as a writer." Professor Lynne Pearce, Associate Dean for Postgraduate Teaching, University of Lancaster "Rowena Murray's down-to-earth approach both recognises and relieves some of the agony of writing a PhD. The advice in this book is both

practical and motivational; sometimes it's 'PhD-saving' too. By using Rowena Murray's techniques of regular snacking, instead of occasional bingeing, I managed to rescue my PhD from near-death at a time of work overload." Christine Sinclair, Part-time PhD student and lecturer in Educational Development, University of Paisley This book evolved from fifteen years' experience of teaching thesis writing. The contents have been tried and tested with postgraduates and academics. Early chapters explore the ambiguities and subtleties of thesis writing in detail. Later chapters are more compact, listing steps in the writing process. All chapters provide examples to illustrate techniques and activities to progress writing. Masters' Essays Writers Digest Books This successful text puts personality back into the personality course, integrating the

classic insights of the personality theorists with modern research in a manner that will fascinate and captive students. Organized around eight basic aspects of personality-psychoanalytic, ego, biological, behaviorist, cognitive, trait, humanistic, and situational/interactionist-the text both explains the classic theories and also explores how the information applies to the student reader. The text presents a balanced, critical, yet optimistic approach. Personality encourages critical thinking about human nature. While holding the highest scientific standards, the text uses unique and provocative pedagogical devices (see below) to capture students' interest and bring the field of personality to life. It has been hailed as the best-written and most relevant personality textbook in the field.
