 When Rhawn, the old scholar, dies, it is restless and temptable
 Mole who inherits the ash staff, the sword, and the mission.

 Winner of the Goodreads Choice Award for Fiction | A Good
 Morning America Book Club Pick | Independent (London) Ten Best
 Books of the Year "A feel-good book guaranteed to lift your
 spirits."—The Washington Post The dazzling reader-favorite about
 the choices that go into a life well lived, from the acclaimed
 author of *How To Stop Time* and *The Comfort Book*. Somewhere
 out beyond the edge of the universe there is a library that
 contains an infinite number of books, each one the story of
 another reality. One tells the story of your life as it is, along with
 another book for the other life you could have lived if you had
 made a different choice at any point in your life. While we all
 wonder how our lives might have been, what if you had the
 chance to go to the library and see for yourself? Would any of

these other lives truly be better? In *The Midnight Library*, Matt
 Haig's enchanting blockbuster novel, Nora Seed finds herself
 faced with this decision. Faced with the possibility of changing
 her life for a new one, following a different career, undoing old
 breakups, realizing her dreams of becoming a glaciologist; she
 must search within herself as she travels through the Midnight
 Library to decide what is truly fulfilling in life, and what makes it
 worth living in the first place.

We Have Always Lived in the Castle The Ash Garden
 The intertwined Prescott, Manzone, and Grant clans have made
 their marks on the world against the backdrop of the turbulent
 and astounding 1960s, 1970s, and 1980s. As the mid-1990s roll
 on into an exciting new millennium, evil forces rise from the
 ashes of the past and inexplicably threaten these families'
 peaceful, productive lives in San Francisco. The tight-knit group
 searches for answers to the growing peril: perpetrators who are
 driven by lethal rage and savage depravity and for whom there is
 neither redemption nor a show of mercy toward the people they
 hope to demolish. Not only do they seek to destroy the families
 but their friends as well with grotesquely malevolent intent.
 Through passion, strength, and utter fearlessness, family
 members battle back to reclaim their lives and end the savage

thirst for revenge of beings that could only be considered demons from hell. Will Norah, Adam, Zack, Trenton, Toni, and their next generations succeed? Or is the evil too smart, too immoral, and far too determined to be defeated?

The definitive history of the Vikings -- from arts and culture to politics and cosmology -- by a distinguished archaeologist with decades of expertise The Viking Age -- from 750 to 1050 -- saw an unprecedented expansion of the Scandinavian peoples into the wider world. As traders and raiders, explorers and colonists, they ranged from eastern North America to the Asian steppe. But for centuries, the Vikings have been seen through the eyes of others, distorted to suit the tastes of medieval clerics and Elizabethan playwrights, Victorian imperialists, Nazis, and more. None of these appropriations capture the real Vikings, or the richness and sophistication of their culture. Based on the latest archaeological and textual evidence, *Children of Ash and Elm* tells the story of the Vikings on their own terms: their politics, their cosmology and religion, their material world. Known today for a stereotype of maritime violence, the Vikings exported new ideas, technologies, beliefs, and practices to the lands they discovered and the peoples they encountered, and in the process were themselves changed. From Eirík Bloodaxe, who fought his way to a kingdom, to Gudrid Thorbjarnardóttir, the most traveled woman in the world, *Children of Ash and Elm* is the definitive history of the Vikings and their time.

A FINALIST for the Booker Prize, the National Book Critics Circle John Leonard Prize, the VCU/Cabell First Novelist Prize, the Lambda Literary Award, the NYPL Young Lions Award, and the Edmund White Debut Fiction Award "A blistering coming of age story" —O: The Oprah Magazine Named a Best Book of the Year by The New York Times, The Washington Post, New York Public Library, Vanity Fair, Elle, NPR, The Guardian, The Paris Review, Harper's Bazaar, Financial Times, Huffington Post, BBC, Shondaland, Barnes & Noble, Vulture, Thrillist, Vice, Self, Electric Literature, and Shelf Awareness A novel of startling intimacy, violence, and mercy among friends in a Midwestern university town, from an electric new voice. Almost everything about Wallace is at odds with the Midwestern university town where he is working uneasily toward a biochem degree. An introverted young man from Alabama, black and queer, he has left behind his family without escaping the long shadows of his childhood. For reasons of self-preservation, Wallace has enforced a wary distance even within his own circle of friends—some dating each other, some dating women, some feigning straightness. But over the course of a late-summer weekend, a series of confrontations with colleagues, and an unexpected encounter with an ostensibly straight, white classmate, conspire to fracture his defenses while exposing long-hidden currents of hostility and desire within their community. *Real Life* is a novel of profound and lacerating power, a story that asks if it's ever really possible to overcome our private wounds, and at what cost.

This artists' book engages with the belief that the atomic bombs dropped in Japan "saved lives" by ending the war, an idea referred to by historians as "The Hiroshima Narrative." This book aims to trouble the narrative through an evidentiary examination of material that plays with proximity and reframing. Through re-photography of visual records made in 1945 by Japanese and American photographers—found on memorial plaques commemorating the loss of civilian lives, as well as "artistic" photographs of the sites in which they are found, I am to stimulate a reconsideration of what "Hiroshima" represents. On another level, my project reveals the process of historicizing the experience of being "the first A-bombed city" undertaken by Japanese survivors, organizations, historians, and governments. Finally, my own proximity and visitation of Hiroshima memorials mark shifts in distance, space, and time—past and present—while forcing a confrontation with the human costs of the bombings.

NATIONAL BESTSELLER Named a Best Book of 2021 by Newsweek, the San Francisco Chronicle, The Washington Post, and the Los Angeles Times "A glorious book—an assured novel that's gorgeously told." —The New York Times Book Review "An incredibly moving epic about an unforgettable family." —CBS Sunday Morning "[An] absorbing novel...I felt both grateful to have known these people and bereft at the prospect of leaving them behind." —The Washington Post A stunning novel about love, work, and marriage that asks how far one family and one community will go to protect their future. Colleen and Rich Gundersen are raising their young son, Chub, on the rugged California coast. It's 1977, and life in this Pacific Northwest logging town isn't what it used to be. For generations, the community has lived and breathed timber; now that way of life is threatened. Colleen is an amateur midwife. Rich is a tree-topper. It's a dangerous job that requires him to scale trees hundreds of feet tall—a job that both his father and grandfather died doing. Colleen and Rich want a better life for their son—and they take steps to assure their future. Rich secretly spends their savings on a swath of ancient redwoods. But when Colleen, grieving the loss of a recent pregnancy and desperate to have a second child, challenges the logging company's use of the herbicides she believes are responsible for the many miscarriages in the community, Colleen and Rich find themselves on opposite sides of a budding conflict. As tensions in the town rise, they threaten the very thing the Gundersens are trying to protect: their family. Told in prose as clear as a spring-fed creek, *Damnation Spring* is an intimate, compassionate portrait of a family whose bonds are tested and a community clinging to a vanishing way of life. An extraordinary story of the transcendent, enduring power of love—between husband and wife, mother and child, and longtime neighbors. An essential novel for our times.

Life in the frozen wastelands of Texas is anything but easy, but for Clay Whitaker there is always more on the line than mere survival. Followed by months of heightened seismic activity worldwide, Yellowstone, along with two other Super Volcanoes,

exploded with a tremendous fury, releasing unmeasurable quantities of ash into the atmosphere. Coastlines were changed. New canyons were formed. Temperatures plummeted, dragging economies down, too. With no real way to sustain order, governments around the world began to fold, societies collapsed. It's been seven years since the ash rained down from the sky. Populations are thinning. Food is scarce. Despair overwhelming. Clay and his sister Megan have taken a handful of orphaned children into their home—a home soaring 16 stories into the sky. Providing for his adopted family is a 24/7 job for Clay. And with roughly six short months a year to gather enough food and supplies to last the long, brutal winter, Clay is forced to spend much of his time away from home—scavenging, hunting, and bartering. Despite the vicious, unforgiving world he lives in, Clay has grown accustomed to his new life. That is, until he meets Kelsey Lambert. Now, with winter rolling in earlier than ever, Clay must swiftly adapt to the changes in his life to ensure the safety of those he cares about.

Following the seventieth anniversary of the atomic bombing of Hiroshima, this is a new, very personal story to join Sadako and the Thousand Paper Cranes. Yuriko was happy growing up in Hiroshima when it was just her and Papa. But her aunt Kimiko and her cousin Genji are living with them now, and the family is only getting bigger with talk of a double marriage! And while things are changing at home, the world beyond their doors is even more unpredictable. World War II is coming to an end, and since the Japanese newspapers don't report lost battles, the Japanese people are not entirely certain of where Japan stands. Yuriko is used to the sirens and the air-raid drills, but things start to feel more real when the neighbors who have left to fight stop coming home. When the bombs hit Hiroshima, it's through Yuriko's twelve-year-old eyes that we witness the devastation and horror. This is a story that offers young readers insight into how children lived during the war, while also introducing them to Japanese culture. Based loosely on author Kathleen Burkinshaw's mother's firsthand experience surviving the atomic bombing of Hiroshima, *The Last Cherry Blossom* hopes to warn readers of the immense damage nuclear war can bring, while reminding them that the "enemy" in any war is often not so different from ourselves.

After two acclaimed historical novels, one of Canada's most celebrated young writers now gives us the vibrant, contemporary story of a man studying the suddenly confusing shape his life has taken, and why, and what his responsibilities—as a husband, a father, a brother, and an uncle—truly are. Charlie Bellerose leads a seminomadic existence, traveling widely to manage the language academies he has established in different countries. After separating, somewhat amicably, from his wife, he moves from Madrid back to his native Canada to set up a new school, and for the first time he forges a meaningful relationship with his brother, who's going through a vicious divorce. Charlie's able to make a fresh start in Toronto but longs for his twelve-year-old daughter, whom he sees only via Skype and the occasional overseas visit. After a chance encounter with a girlfriend from his university days, a woman now happily married and with children of her own, he works through a series of memories—including a particularly painful one they share—as he reflects on questions of

family, home, fatherhood, and love. But two tragic events (one long past, the other very much in the present) finally threaten to destroy everything he's ever believed in. This edition includes a reading group guide.

Through ten decades and across three continents, *The Ash Museum* is an intergenerational story of loss, migration and the search for somewhere to feel at home. 1944. The Battle of Kohima. James Ash dies leaving behind two families: his 'wife' Josmi and two children, Jay and Molly, and his parents and sister in England who know nothing about his Indian family. 2012. Emmie is raising her own daughter, Jasmine, in a world she wants to be very different from the racist England of her childhood. Her father, Jay, doesn't even have a photograph of the mother he lost and still refuses to discuss his life in India. Emmie finds comfort in the local museum – a treasure trove of another family's stories and artefacts. Little does Emmie know that with each generation, her own story holds secrets and fascinations that she could only dream of. 'In her luminous fourth novel, Rebecca Smith has managed to distil ten decades of a fractured family history into a resonant and tightly woven structure that takes us on an extraordinary journey. It is a memory bank of treasures and as much a moving story about the legacy of Colonialism as it is a reflection on contemporary life and values. Her wonderful perspectives and closely observed (and often, very funny) details about those lives, past and present, are a triumph.' Christie Hickman, Books Editor, S Magazine 'A beautifully written, multi-generational tale full of poignant themes, vibrant setting packed with observation and characters you will want to be friends with.' Ella Dove, novelist and Commissioning Editor at Good Housekeeping, Prima and Red magazines 'What a fabulous new novel from a brilliant writer. Spinning through time and space, *The Ash Museum* is another country, filled with lively, emotional set-pieces, turned like physical memories from one generation to another. Endlessly exciting in its filmic, short, sharp scenes, grippingly narrative in its interwoven tales of loss and identity and home, Rebecca Smith's book demonstrates, yet again, her gift for vivid humour and deep empathy, all stirred up in her trademark scintillating prose.' Philip Hoare, winner of the 2009 Samuel Johnson Prize for Non-fiction 'A timely and acutely observed novel about family and the circle of life. Touching, universal and utterly relatable, as we all search for our own view just like Jay did.' Carmel Harrington, author of *My Pear-Shaped Life*, *A Thousand Roads Home*

At nineteen, Berie encounters a seductive and mysterious man at a bus station near her home in North Carolina. Shut off from the people around her, she finds herself compelled by his promise of a new life. He ferries her into a place of order and chaos: the Ash Family farm. There, she joins an intentional community living off the fertile land of the mountains, bound together by high ideals and through relationships she can't untangle. Berie—now renamed Harmony—renounces her old life and settles into her new one on the farm. She begins to make friends. And then they start to disappear.
