A lot has changed since 1985, when this landmark collection of human resource forms was last published. New legislation, the ongoing modernization of company practices, and drastic changes in the workplace have led to a slew of new challenges for HR professionals. *Forms Used in Human Resources* tackles these challenges head on. It is fully revised with up-to-date forms for areas such as domestic partnership, the ethical use of computer software, and requests for translation services. *Forms Used in Human Resources* is for anyone faced with the difficult task of creating or redesigning human resources forms. It features contributions from over 55 U.S. and Canadian companies and includes 350 commonly used HR forms. It can be used as a source to create new forms or as a standard for evaluating your company's current forms with those used by others. Forms in this book have been designed to meet the needs of the companies using them. They have already been put to use by companies such as the Principal Financial Group, the Southwestern Life Corporation and Mutual of New York, so you know they work well in the workplace. And with so comprehensive a source, there is no longer any need to spend hours doing research or struggling to create a new form. Practical examples are right there at your fingertips-examples that will save you valuable time and money.

Welcome to the Green Book a comprehensive guide for financial institutions that receive ACH payments from the Federal government. Today, the vast majority of Federal payments are made via the ACH. With very few exceptions, Federal government ACH transactions continue to be subject to the same rules as private industry ACH payments. As a result, the Green Book continues to get smaller in size and is designed to deal primarily with exceptions or issues unique to Federal government operations.
