 An unconventional business book for the rebels and misfits—the Rare Breeds—who don't fit the traditional mold, offering an approach that's anything but business as usual. "Brazen rant!" -- Seth Godin, New York Times bestselling author of *This is Marketing and What to Do When It's Your Turn* In every job you've ever had, you've been judged, labeled, and made to feel like an outsider. Defiant. Dangerous. Different. A real pain-in-the-ass. The message? To be successful, you've got to fundamentally change. But what if -- instead of conforming -- you learned how to punch society's codes in the nose, run like a hooligan through the corridors of entrenched power, and succeed -- not by grinding down your prickly parts, but by going all-in on who you really are? "A guide for strategic rebellion." -- Mark Levy, founder of Levy Innovation and creator of Your Big Sexy Idea® Meet Sunny Bonnell and Ashleigh Hansberger, award-winning global brand consultants, founders of Motto, and authors of *Rare Breed: A Guide to Success for the Defiant, Dangerous, and Different*. In this book, you'll come face-to-face with seven controversial virtues that are typically seen as ladder-burning, career-ending personality traits that -- convention says -- keep mavericks, oddballs, and visionaries like you from getting along, getting buy-in, and getting ahead. "A beautiful reminder that you are not alone." -- Charlamagne Tha God, New York Times bestselling author of *Black Privilege* Sunny and Ashleigh provide singular insight into how you can flip the script and turn your so-called "vices" into your virtues, transforming your most "undesirable" flaws into the high-octane fuel of your success. In a world that wants to own you, you'll finally learn how to own yourself, through embracing all your parts -- not just the pretty ones. College dropouts and social misfits Sunny and Ashleigh provide front-row seats to their own counterintuitive rise from broke-ass outsiders to brand consultants for iconic brands. Success, they show you, is no longer the sole purview of the Harvard MBA graduate. Your ticket to ride resides within the side of you that's disorderly, independent, and rogue. Deep down, you've always been the kid to point out when the emperor has no clothes. Yet, time and time again you've been faced with the consequences of deviating from social expectations. This is a new conversation for a new era.

What would happen if, starting today, you walked away from the sheeple? What could you build?

This book provides guidance and tools to help PhD students and junior faculty members successfully navigate and mature through the various stages of an academic career. Senior faculty members can use this book as a source of ideas to advise their PhD students and junior colleagues. This book presents knowledge that is seldom imparted in PhD programs, and organizes the same as advice and tools related to achieving success at research, teaching and service, all while maintaining work-life balance. The advice and tools provided are based on years of experience of the author and guest contributors, who have successfully navigated many of the same challenges and mentored many PhD students and junior faculty members. This book is suitable both for those who seek careers in research universities or universities that promote greater balance across research, teaching and service. Life in academia is like life in no other profession. The intellectual freedom in conducting research coupled with the ability to positively impact the lives of students through teaching makes it exciting and noble. The road to success in making a difference through knowledge creation (research), knowledge dissemination (teaching) and activities related to both (service) is riddled with many challenges. While PhD programs are designed to teach students the nitty gritty details of conducting research, few focus on the broad issues of how to build a successful research program, how to build an effective teaching portfolio and how to deal with the many other challenges encountered. Navigating the broader challenges of academia is often accomplished by trial-and-error or ad-hoc mentoring one may receive. This book, which provides advice and tools, seeks to help researchers achieve success by navigating through these very challenges. The book comprises 20 chapters that are organized into five major sections: 1.Research 2.Managing the PhD program 3.Life after the PhD 4.Teaching and service 5.Broader advice In addition to the author, both junior and senior scholars have provided contributions to share their own experiences and observations of others who have been successful. The most important component of the book is the various tools (e.g., how-to advice, checklists) that are provided to help junior researchers head up the road to success and to arm senior researchers to guide junior researchers along the way. The various tools target the following six areas: 1.Building and sustaining a research program 2.Writing a paper 3.Responding to reviews 4.Planning and monitoring through various stages of the PhD program 5.Becoming an effective

teacher 6.Achieving work-life balance

**Business Essentials** The Ultimate Guide To Success

Behind every successful business is a history of mistakes, failures, and embarrassing moments-some big and some small. Regardless of their size, these failures are essential to learning and to growing professionally and personally. Todd Palmer's failure was big-and the best thing that could have happened to him. When his business nearly went bankrupt in 2006, he began learning the critical steps that would not only rescue his company but also guide him toward becoming a powerful coach for entrepreneurs looking to go from ordinary to extraordinary. Palmer wrote From Suck to Success with the goal of making sure every business owner and corporate leader had simple tools to improve their business and their life. It doesn't matter if you're just starting out or have been in business for decades, the strategies he shares in From Suck to Success can work for you. Whether you are a mid-level leader in a large organization or a C-suite executive, the strategies can help you avoid disaster and achieve higher levels of success. They're designed to strengthen the leader from within, empowered by conviction, confidence, and impact in business and in life. Broken into two simple parts, From Suck to Success is the framework for starting up, building up, or pivoting through change in the pursuit of extraordinary entrepreneurship. In the first part, Palmer does the internal work, helping readers identify and improve their mind-set, leadership, and goal setting, or as he teaches it, intention setting. He shares how discovering your "why," or ikigai, is so pivotal to finding success in both business and personal lives. Palmer then walks readers through the Authentic, Transparent, and Vulnerable (ATV) leadership process and introduces the Extraordinary E-4 Process. The unique E-4 Process allows readers to identify and adjust whenever their mind-set, leadership, or intention setting is veering in the wrong direction. In the second part of From Suck to Success, Palmer focuses on sharing how to improve business operations. This includes building a strong culture and empowering oneself through team members so you can delegate with confidence without sacrificing quality. Success is all about investing in employees, fostering healthy organizations, and creating extraordinary workplaces that allow businesses to thrive. As Palmer writes: "When you live an extraordinary life, you define your own success." "When you live an extraordinary life, you have an iterative attitude to cope with failure." "When you live an extraordinary life, you realize extreme self-actualization." "And you are going to gain each of these by allowing me to help you build a self-fulfilling model of what you really want." A 25-year entrepreneur, business coach, keynote speaker, and author, Palmer has made it his "why" to improve lives by teaching, guiding, and empowering entrepreneurs, CEOs, and leaders on how to go from suck to success and become extraordinary.
