The Instant New York Times Bestseller and TikTok Sensation! As seen on THE VIEW! A BuzzFeed Best Summer Read of 2021 When a fake relationship between scientists meets the irresistible force of attraction, it throws one woman's carefully calculated theories on love into chaos. As a third-year Ph.D. candidate, Olive Smith doesn't believe in lasting romantic relationships--but her best friend does, and that's what got her into this situation. Convincing Anh that Olive is dating and well on her way to a happily ever after was always going to take more than hand-wavy Jedi mind tricks:

Scientists require proof. So, like any self-respecting biologist, Olive panics and kisses the first man she sees. That man is none other than Adam Carlsen, a young hotshot professor--and well-known ass. Which is why Olive is positively floored when Stanford's reigning lab tyrant agrees to keep her charade a secret and be her fake boyfriend. But when a big science conference goes haywire, putting Olive's career on the Bunsen burner, Adam surprises her again with his unyielding support and even more unyielding...six-pack abs. Suddenly their little experiment feels dangerously close to combustion. And Olive discovers that the only thing more complicated than a hypothesis on love is putting her own heart under the microscope.

When Love Goes Wrong Penguin

Revised & Updated Edition! God is love. Crazy, relentless, all-powerful love. Have you ever wondered if we're missing it? It's crazy, if you think about it. The God of the universe--the Creator of nitrogen and pine needles, galaxies and E-minor--loves us with a radical, unconditional, self-sacrificing love. And what is our typical response? We go to church, sing songs, and try not to cuss. Whether you've verbalized it yet or not, we all know something's wrong. Does something deep inside your heart long to break free from the status quo? Are you hungry for an authentic faith that addresses the problems of our world with tangible, even radical, solutions? God is calling you to a passionate love relationship with Himself. Because the answer to religious complacency isn't working harder at a list of do's and don'ts--it's falling in love with God. And once you encounter His love, as Francis describes it, you will never be the same. Because when you're wildly in love with someone, it changes everything. When Love Is Not Enough relates how a multitude of factors--the competence of staff; the safety, nurturing, and protective elements of the emotional, physical, and political setting; and all overt and covert organizational dynamics--determine whether or not a treatment setting accomplishes its therapeutic aims. Authors in *When Love Is Not Enough* continue the emphasis on the group-as-a-whole "Group Relation" model of organizational and group processes begun with Wilfred Bion's work at the Tavistok Clinic in London in the 1940s. This model helps those providing services to children and adolescents evaluate their treatment programs and make the necessary changes toward improvement. Chapters in *When Love Is Not Enough* are dedicated to improving the psychological treatment of children and adolescents in postmodern society, a society in which life in interdependent communities is becoming increasingly important for the health and survival of all persons. Topics covered include: the Tavistok approach to understanding group and organizational

behavior the emphasis on group-as-a-whole in problem solving and treatment design narrowing the gap between plan and outcome the dynamics involved in the psychiatric treatment of children issues of staff selection, training, and development in programs designed to treat children countertransference responses in the treatment of children and adolescents revitalizing organizations the subjective experience of school life When Love Is Not Enough helps organizations realize the ways in which they may, inadvertently, undermine the emotional and cognitive functioning of the staff or the identified patients and set serious limits on the growth of members of the organization, staff and patients alike. It urges organizations to conduct an ongoing self-scrutiny concerning their rational and irrational processes, as this self-examination is crucial to the health and vitality of the treatment offered to others. The book also promotes thinking of the conscious and unconscious dynamics of the group-as-a-whole to more completely inform organizational decisions concerning changes that may enhance the treatment of children and adolescents. When Love Is Not Enough serves as an invaluable guide for mental health professionals who treat children and adolescents, group therapists, hospital and clinic administrators, psychoanalysts, nurses, social workers, psychologists, and psychiatrists.

Love Kills ... a woman scorned Lulu.com

From the bestselling, Booker Prize-winning author of *The Sense of an Ending* comes "a brilliant, rueful look at love--what we do for it, how we experience it and what makes it die" (People). One summer in the sixties, in a staid suburb south of London, nineteen-year-old Paul comes home from university and is urged by his mother to join the tennis club. There he's partnered with Susan Macleod, a fine player who's forty-eight, confident, witty, and married, with two nearly adult daughters. She is a warm companion, her bond with Paul immediate. And soon, inevitably, they are lovers. Basking in the glow of one another, they set up house together in London. Decades later, Paul looks back at how they fell in love and how--gradually, relentlessly--everything fell apart. As he turns over his only story in his mind, examining it from different vantage points, he finds himself confronted with the contradictions and slips of his own memory--and the ways in which our narratives and our lives shape one another. Poignant, vivid and profound, *The Only Story* is a searing novel of memory, devotion, and how first love fixes a life forever.

Why do people kill those they love? David J. Krajicek, one of America's most renowned true crime storytellers, explores that question in these 50 unforgettable examples of relationship murders, including spouses, intimate partners and other blood relatives. The killers often are motivated by lust and greed, which Krajicek calls the terrible twins of the Seven Deadly Sins. More than 2 million marriages are celebrated each year in America. Some last forever. About half don't. A simple divorce is the solution for most couples when marriage loses its fragrance. But legal niceties like divorce do not seem viable for certain types of people, those who cannot fathom a life of romantic freedom fettered with debt. In these cases, Krajicek writes, "First comes love, then comes marriage. This is followed by sobering reality, quarrels, regrets, resentment, hostility, frigidity, animosity. Soon, one partner is sitting at the computer googling phrases like 'How to commit murder.'"

Out of the Broom Closet (Book 3 Love Spells Gone Wrong Series) David C Cook

A groundbreaking book about why the one thing we all fear—ambivalence—is the one thing we must accept to find lasting love. If Love Could Think is an entertaining and practical book that addresses with warmth and intelligence the age-old question relevant to any stage of a relationship: why does love go wrong, and what can we do to make it right? After many years of treating patients with relationship problems, psychologist Alon Gratch has identified seven common patterns of failed love. These patterns include, for example, narcissistic love, when a person has so idealized the partner and the relationship that they can't possibly continue to measure up; one-way love, when a person loves someone who doesn't return that love; triangular love, when a third party, be it a mother, an affair, or a job is involved in the relationship; and forbidden love, the kind of relationship that is generally off-limits, such as when a teacher dates a student. In *If Love Could Think*, Gratch shows us that all of these patterns stem from one fundamental problem—our own ambivalence. With his trademark combination of depth and humor, and using many individual stories as engaging examples, Gratch walks us through the ways we get stuck in these patterns. In each case we are looking for perfect or ideal love. Every pattern creates an obstacle so we don't have to face our own ambivalence about the relationship or the other person. But humans aren't perfect, so no matter how wonderful love can be, there is no such thing as pure love. Ambivalence implies the existence not only of love but also of anger, disapproval, or disappointment. As Dr. Gratch shows, there are really only two choices: accept ambivalence as part of any loving relationship, or continue to repeat the patterns of illusory love. Happily, using a simple yet powerful three-step approach, *If Love Could Think* helps readers to use their own minds to break these patterns of failed relationships and find real and lasting love.

Evil Eye Vintage

The #1 New York Times Bestseller “An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives.” —*Refinery 29* A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation's sharpest comedic voices. At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. “Why did this guy just text me an emoji of a pizza?” “Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!” “My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?” But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

It reveals the purpose of the moon, explains the difference between criminals and outlaws, examines the conflict between social activism and romantic individualism, and paints a portrait of contemporary society that includes powerful Arabs, exiled royalty, and pregnant cheerleaders. It also deals with the problem of redheads.

When Angels Speak of Love Bantam

“A quartet of shrewd and unnerving novellas about toxic entanglements” from the National Book Award-winning author (Booklist). Joyce Carol Oates is one of the most prominent writers of her generation, and she is fearless when exploring the most disturbing corners of human nature. In *Evil Eye*, Oates offers four chilling tales about love so powerful that people might die—or kill—for it. In the title story, we meet Mariana, the young fourth wife of a prominent intellectual. When her husband's first wife comes to visit, Mariana learns a terrible secret that threatens her marriage and sanity. In “So Near Any Times Always,” shy teenager Lizbeth meets Desmond, a charming older boy who offers the first spark of romance. Yet as their relationship blossoms, Lizbeth realizes that a menacing soul lies beneath Desmond's perfect façade. In “The Execution,” spoiled college student Bart Hansen has planned the perfect crime to get back at his condescending parents. What he didn't plan on was the resilience of his mother's love, even in the face of death. And in “The Flatbed,” childhood trauma has prevented Cecelia from enjoying physical intimacy with a man. But when she meets the love of her life, Cecelia must confront the demon who stole her innocence long ago. With the razor-sharp prose that has made Joyce Carol Oates a living legend, *Evil Eye* shows love as sporadically magical, mysterious, and murderous. “A dazzling, disturbing, tour de force of Gothic suspense: four odd, compelling, ingeniously narrated tales that gain in power and resonance when read in conjunction with each other.” —*The Boston Globe* “Exquisitely suspenseful. . . . The relationships between the damaged, sometimes monstrous individuals who people these pages will keep the reader riveted.” —*Publishers Weekly*, starred review

The New Psychology of Love Open Road + Grove/Atlantic

A collection of essays extended from *The New York Times*' most-read article of 2016. Anyone we might marry could, of course, be a little bit wrong for us. We don't expect bliss every day. The fault isn't entirely our own; it has to do with the devilish truth that anyone we're liable to meet is going to be rather wrong, in some fascinating way or another, because this is simply what all humans happen to be – including, sadly, ourselves. This collection of essays proposes that we don't need perfection to be happy. So long as we enter our relationships in the right spirit, we have every chance of coping well enough with, and even delighting in, the inevitable and distinctive wrongness that lies in ourselves and our beloveds.
