The heart-pounding history of how Pope Pius XII -- often labeled "Hitler's Pope" -- was in fact an anti-Nazi spymaster, plotting against the Third Reich during World War II. The Vatican's silence in the face of Nazi atrocities remains one of the great controversies of our time. History has accused wartime pontiff Pius the Twelfth of complicity in the Holocaust and dubbed him "Hitler's Pope." But a key part of the story has remained untold. Pope Pius in fact ran the world's largest church, smallest state, and oldest spy service. Sainly but secretive, he sent birthday cards to Hitler -- while secretly plotting to kill him. He skimmed from church charities to pay covert couriers, and surreptitiously tape-recorded his meetings with top Nazis. Under his leadership the Vatican spy ring actively plotted against the Third Reich. Told with heart-pounding suspense and drawing on secret transcripts and unsealed files by an acclaimed author, *Church of Spies* throws open the Vatican's doors to reveal some of the most astonishing events in the history of the papacy. Riebling reveals here how the world's greatest moral institution met the greatest moral crisis in history.

This volume of *The New Encyclopedia of Southern Culture* explores the many forms of aesthetic expression that have characterized southern folk art, including the work of self-taught artists, as well as the South's complex relationship to national patterns of folk art collecting. Fifty-two thematic essays examine subjects ranging from colonial portraiture, Moravian material culture, and southern folk pottery to the South's rich quilt-making traditions, memory painting, and African American vernacular art, and 211 topical essays include profiles of major folk and self-taught artists in the region.

A haunting tribute to the heroic pioneers who shaped the American Midwest This powerful novel by Willa Cather is considered to be one of her finest works and placed Cather in the forefront of women novelists. It tells the stories of several immigrant families who start new lives in America in rural Nebraska. This powerful tribute to the quiet heroism of those whose struggles and triumphs shaped the American Midwest highlights the role of women pioneers, in particular. Written in the style of a memoir penned by Antonia's tutor and friend, the book depicts one of the most memorable heroines in American literature, the spirited eldest daughter of a Czech immigrant family, whose calm, quite strength and robust spirit helped her survive the hardships and loneliness of life on the Nebraska prairie. The two form an enduring bond and through his chronicle, we watch Antonia shape the land while dealing with poverty, treachery, and tragedy. "No romantic novel ever written in

America...is one half so beautiful as My Antonia." -H. L. Mencken
 Willa Cather (1873-1947) was an American writer best known for her novels of the Plains and for *One of Ours*, a novel set in World War I, for which she was awarded the Pulitzer Prize in 1923. She was elected a fellow of the American Academy of Arts and Sciences in 1943 and received the gold medal for fiction from the National Institute of Arts and Letters in 1944, an award given once a decade for an author's total accomplishments. By the time of her death she had written twelve novels, five books of short stories, and a collection of poetry.

During the years 1500-1800, European performing arts revealed in a kaleidoscope of Otherness: Middle-Eastern harem women, fortune-telling Spanish 'Gypsies', Incan priests, Barbary pirates, moresca dancers, and more. In this prequel to his 2009 book *Musical Exoticism*, Ralph P. Locke explores how exotic locales and their inhabitants were characterized in musical genres ranging from instrumental pieces and popular songs to oratorios, ballets, and operas. Locke's study offers new insights into much-loved masterworks by composers such as Cavalli, Lully, Purcell, Rameau, Handel, Vivaldi, Gluck, and Mozart. In these works, evocations of ethnic and cultural Otherness often mingle attraction with envy or fear, and some pieces were understood at the time as commenting on conditions in Europe itself. Locke's accessible study, which includes numerous musical examples and rare illustrations, will be of interest to anyone who is intrigued by the relationship between music and cultural history, and by the challenges of cross-cultural (mis)understanding.

Imprisoned by the Romanian Communists for his work in the Christian Underground, and subjected to medieval torture, Wurmbbrand kept his faith and strengthened it. For fourteen years, he shared that faith with suffering cellmates and gave them solace. In solitary confinement, he tapped out his message of hope and Christian love. In Room Four, the "death room", he helped dying patients even though his lungs were riddled with tuberculosis and his body lacerated and bloody from whips and kicks. Anguished over the fate of his wife and son, he could still tell jokes and stories to make despairing prisoners laugh. Sorely tempted by the promise of release and reprieve, he refused to become a Communist collaborator. And the miracle is that he survived. With humble gratitude to God and Christ, he tells his personal story. It's an inspiring drama of triumphant faith.

 Beloved, best-selling science writer Mary Roach's "acutely entertaining, morbidly fascinating" (Susan Adams, Forbes) classic, now with a new epilogue. For two thousand years, cadavers – some willingly, some unwittingly – have been involved in science's boldest strides and weirdest undertakings. They've tested France's first guillotines, ridden the NASA Space Shuttle, been crucified in a Parisian laboratory to test the authenticity of the Shroud of Turin, and helped solve the mystery of TWA Flight 800. For every new surgical procedure, from heart transplants to

gender confirmation surgery, cadavers have helped make history in their quiet way. “Delightful—though never disrespectful” (Les Simpson, Time Out New York), *Stiff* investigates the strange lives

of our bodies postmortem and answers the question: What should we do after we die? “This quirky, funny read offers perspective and insight about life, death and the medical profession. . . . You can close this book with an appreciation of the miracle that the

human body really is.” —Tara Parker-Pope, Wall Street Journal
