In 2 February 1990, FW de Klerk made a speech that changed the history of South Africa. Nine days later, the world watched as Nelson Mandela walked free from the Viktor Verster prison. In the midst of these events was Lord Renwick, Margaret Thatcher's envoy to South Africa, who became a personal friend of Nelson Mandela, FW de Klerk and Chief Mangosuthu Buthelezi, acting as a trusted intermediary between them. He warned PW Botha against military attacks on neighbouring countries, in meetings he likens to 'calling on the führer in his bunker'. He invited Mandela to his first meal in a restaurant for twenty-seven years, rehearsing him for

his meeting with Margaret Thatcher - and told Thatcher that she must not interrupt him. Their discussion went on so long that the British press in Downing Street started chanting 'Free Nelson Mandela'. In this extraordinary insider's account, Renwick draws on his diaries of the time, as well as previously unpublished material from the Foreign Office and Downing Street files. He paints a vivid, affectionate, real-life portrait of Mandela as a wily and resourceful political leader bent on out-maneuvring both adversaries and some of his own colleagues in pursuit of a peaceful outcome.

Looking at media coverage of three very prominent murder cases, *Murder Made in Italy* explores the cultural issues raised by the murders and how they reflect developments in Italian civil society over the past 20 years. Providing detailed descriptions of each murder, investigation, and court case, Ellen Nerenberg addresses the perception of lawlessness in Italy, the country's geography of crime, and the generalized fear for public safety among the Italian population. Nerenberg examines the fictional and nonfictional representations of these crimes through the lenses of moral panic, media spectacle, true crime writing, and the abject body. The worldwide publicity given the recent case of Amanda Knox, the American student tried for murder in a Perugia court, once more drew attention to crime and punishment in Italy and is the subject of the epilogue.

steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science writers, and public health advocates. Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, of lack thereof, affecting developing countries? Should animals be genetically modified for food? How are other countries handling GM crops? Jeter Unfiltered Simon and Schuster Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have

something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.
