Range Rover Restoration Manual Haynes Publishing UK
 Based on real-life experience and written by expert authors, the books in the Maintenance and Upgrades Manual series from Crowood will help owners develop the workshop skills needed for the maintenance and repair of their cars, and give guidance on possibilities for improvements and upgrades to performance. With step-by-step instructions and safety information throughout, this book is a valuable technical resource for owners of Series II, IIA and III Land Rovers. The book covers: choosing and buying a Series II or III Land Rover; maintenance and service procedures; detailed guides for repair and maintenance of each of the car's systems, including brakes, steering and suspension, engine, clutch and transmission, axles, hubs and propshafts, and electrical systems; repairing and preventing corrosion; upgrades for reliability, comfort, performance and off-roading; rebuilding a Series II or III Land Rover: things to know before you take on a project car. This practical guide and technical resource for all Series II, IIA and III owners and Land Rover enthusiasts is fully illustrated with over 280 colour photographs.

Moon Manual Weigl Publishers
 Few launch vehicles are as iconic and distinctive as NASA's behemoth rocket, the Saturn V, and none left such a lasting impression on those who watched it ascend. Developed with the specific brief to send humans to the Moon, it pushed rocketry to new scales. Its greatest triumph is that it achieved its goal repeatedly with an enviable record of mission success. Haynes' Saturn V Manual tells the story of this magnificent and hugely powerful machine. It explains how each of the vehicle's three stages worked; Boeing's S-IC first stage with a power output as great as the UK's peak electricity consumption, North American Aviation's S-II troubled second stage, Douglas's workhorse S-IVB third stage with its instrument unit brain - as much a spacecraft as a rocket. From the decision to build it to the operation of its engines' valves and pumps, this lavishly illustrated and deeply informative book offers a deeper appreciation of the amazing Saturn V.

Defender 300tdi 90, 110, 130 96/98 My Brooklands Book Limited
 Launched in 1945 and commissioned two years later, submarine HMS Alliance was built for service with the Royal Navy in the Far East. Alliance had a long and distinguished career of more than 28 years that took her all over the world. Today, Alliance is the

centrepiece at the Royal Navy Submarine Museum, Gosport, where the submarine experience is brought to life by tours around the boat. Former submariner and historian Peter Goodwin gives Alliance the Haynes Manual treatment, examining in detail her

construction and restoration, and describing what it was like to live, work and go to war in a submarine.

The International Space Station Crowood
Fully comprehensive with many illustrations - owners' workshop manual for the 90,110 Defender petrol and diesel engines from

1983-on.

Range Rover Veloce Publishing Ltd
