Venezuela occasionally features in world news in connection with its rich oil resources, its obsession

with beauty pageants, its outspoken and colourful president, Hugo Chávez, or the world's highest waterfall - and little else. However, beyond the headlines, this beautiful and diverse country has so much more to offer to all types of visitors - hiking the 'Lost World' landscape of Conan

Doyle, piranha-fishing from dugout canoes, paragliding from Andean peaks and windsurfing on Margarita Island. Taking travellers to the wildest of fiestas, inside the steamiest salsa bars and introducing visitors to the quirkiest of local customs, Bradt's Venezuela leads tourists from the

Caribbean coast to the southern tropical wilderness, delving into the culture and eccentricities of the country more deeply than any other guide.

Este documento, que sirve de base a la Estrategia de seguridad vial del BID, es un análisis exhaustivo del estado de la seguridad vial en los países América Latina y el Caribe. El estudio incluye un análisis de los aspectos institucionales, de financiación, planes de seguridad vial, estadísticas de siniestros, infraestructura, parque vehicular, políticas educativas y de formación vial además de aspectos de legislación y normativa

que han afectado a la región entre 2005 y 2009 en materia de seguridad vial. Los resultados de esta investigación de campo y escritorio, arrojaron datos alarmantes al identificar que la región tiene una tasa de mortalidad / siniestralidad de aproximadamente 17 por cada 100,000 habitantes, casi el doble del promedio mundial y muy por arriba de la registrada en países de alto ingreso. La mitad de las muertes en la región ocurren en zonas urbanas y entre grupos de

alta vulnerabilidad y riesgo (motociclistas, ciclistas, peatones y otros modos de transporte no motorizado). Aunado al sufrimiento que esta realidad representa para los heridos y familiares, también genera una importante demanda en la atención pre-hospitalaria y de trauma, además de una sobrecarga para los servicios de salud y un alto costo para toda la sociedad.
