Once upon a time, people knew their neighbors. They talked to them, had cook-outs with them, and went to church with them. In our time of unprecedented mobility and increasing isolationism, it's hard to make lasting connections with those who live right outside our front door. We have hundreds of "friends" through online social networking, but we often don't even know the full name of the person who lives right next door. This unique and inspiring book asks the question: What is the most loving thing I can do for the people who live on my street or in my apartment building? Through compelling true stories of lives impacted, the authors show readers how to create genuine friendships with the people who live in closest proximity to them. Discussion questions at the end of each chapter make this book perfect for small groups or individual study.

Uncover a new way to network and build relationships that last!

Networking is often considered a necessary evil for all working professionals. With social media platforms like LinkedIn, Twitter, Instagram, and Facebook at our disposal, reaching potential investors or employers is much easier. Yet, these connections often feel transactional, agenda-driven, and dehumanizing, leaving professionals feeling burnt out and stressed out. Instead, we should connect on a human level and build authentic relationships beyond securing a new job or a new investor for your next big idea. To build real and meaningful networking contacts, we need to go back to basics, remembering that technology is a tool and not a means and end. We need to tap into our humanity and learn to be more intentional and authentic. As a "serial connector" and communications expert, Susan McPherson has a lifetime of experience building genuine connections in and out of work. Her methodology is broken down into three simple steps 1. Gather: Instead of waiting for the perfect networking opportunity to come to you, think outside the box and create your own opportunity. Host your own dinner party, join a local meet-up group, or volunteer at your neighborhood food pantry. Anyone from your local barista to a fellow parent at your daughter's elementary school can lead to

another connection that you just might need. 2. Ask: Instead of leading with our own rehearsed elevator pitches asking for help, ask to help, opening the door to share resources, experience, contacts, and perspectives that add diversity to your own vision. 3. Do: Turn new connections into meaningful relationships by taking these newly formed relationships deeper. Follow through on the promises you made, keep in touch, and learn to move past small talk by embracing your vulnerability and having conversations that matter. Woven together with helpful tips and useful advice on making the most out of every step, the book draws on the real-life success stories of friends, and clients, as well as McPherson's own experience as a renowned "serial connector." Filled with humor, humility, and wisdom, *The Lost Art of Connecting* is the handbook we all need to foster personal and professional relationships that blur the lines between work and play—and enrich our lives in every way.

Fernando Soto dreamed of owning a business. For years he worked and struggled, never imagining that he could have a better life and then one day he woke up and believed that he could. In *What's Next for You?*, Mr. Soto shares the secrets to the fulfillment of his dream. But guess what? It's no secret at all. Living your dream is possible through hard work, dedication and an unrelenting will to succeed. Today, Mr. Soto owns a contract janitorial services company that services a broad range of clients in a variety of industries, from small office clients to automobile dealerships, manufacturing facilities, office buildings, medical practices and universities. One of his largest clients has annual revenues exceeding \$550 million with over ten thousand employees! He built his business from the ground up, taking notes and sketching his ideas on the manufacturing floor where he worked for years as an employee. The company where he last worked is now one of his valued clients. "Anything is possible," Mr. Soto says. Just keep your dream front and center and with Mr. Soto's help, you could be living your dream life, too.

Written to help fantasy and science fiction storytellers, game designers, gamers, and hobbyists, *Cultures and Beyond* (The Art of World Building, #3) is a how-to guide for filling an imaginary world with fascinating societies. It includes chapters on creating cultures, calendars, monetary systems, military groups, religions, the supernatural, systems of magic, magic items, names, and more. You'll also learn how to leverage real world cultures while making them seem original. Even those who've never invented a world will soon be masters as the authors decades of experience walk you through using pre-made templates that make world building faster, better, and easier to complete. Understand how to use analogues to quickly build unique societies based on Earth. Invent interesting crimes and punishments that involve imaginary

creatures or technologies. Create currencies for different places while keeping them easy for your audience to fathom. Master the art of creating naming styles for different societies. Fashion new military groups in gritty detail. Dream up sensible rules for magic, its practitioners, the supernatural and what happens when things go wrong. Learn what kind of files you'll need to create, how to organize them, and get jump started with the free templates you'll use again and again. *Cultures and Beyond* is the third volume in *The Art of World Building*, the only multi-volume series of its kind. Readers will learn how much world building to do for each scenario they encounter and whether the effort will be rewarding for them and their audience.

Rich and Judy Hill had a dream: to build a simple handcrafted log home in Michigan's Upper Peninsula. But what began as a grand adventure soon morphed into a complex entanglement of blueprint designs, contractor problems, and unforeseen financial expense. Taking it upon themselves to complete the construction of a 2500 square-foot full-size log house while working with a very limited budget, the Hills unwittingly waded into the quicksand of dealing with unreliable subcontractors, cost overruns, and winter blizzards, as well as the unpredictable nature of building with logs. Their venture in the north woods of Lake Superior would test their persistence and resolve and teach them a great deal not only about themselves but about the risks and rewards of pursuing an obsessive American dream. A New York Times bestseller—a dazzling and inspirational survey of how art can be found and appreciated in everyday life Michael Kimmelman, the prominent New York Times writer and a regular contributor to *The New York Review of Books*, is known as a deep and graceful writer across the disciplines of art and music and also as a pianist who understands something about the artist's sensibility from the inside. Readers have come to expect him not only to fill in their knowledge about art but also to inspire them to think about connections between art and the larger world - which is to say, to think more like an artist. Kimmelman's many years of contemplating and writing about art have brought him to this wise, wide-ranging, and long-awaited book. It explores art as

life's great passion, revealing what we can learn of life through pictures and sculptures and the people who make them. It assures us that art - points of contact with the exceptional that are linked straight to the heart - can be found almost anywhere and everywhere if only our eyes are opened enough to recognize it. Kimmelman regards art, like all serious human endeavors, as a passage through which a larger view of life may come more clearly into focus. His book is a kind of adventure or journey. It carries the message that many of us may not yet have learned how to recognize the art in our own lives. To do so is something of an art itself. A few of the characters Kimmelman describes, like Bonnard and Chardin, are great artists. But others are explorers and obscure obsessives, paint-by-numbers enthusiasts, amateur shutterbugs, and collectors of strange odds and ends. Yet others, like Charlotte Solomon, a girl whom no one considered much of an artist but who secretly created a masterpiece about the world before her death in Auschwitz, have reserved spots for themselves in history, or not, with a single work that encapsulates a whole life. Kimmelman reminds us of the Wunderkammer, the cabinet of wonders - the rage in seventeenth-century Europe and a metaphor for the art of life. Each drawer of the cabinet promises something curious and exotic, instructive and beautiful, the cabinet being a kind of ideal, self-contained universe that makes order out of the chaos of the world. The Accidental Masterpiece is a kind of literary Wunderkammer, filled with lively surprises and philosophical musings. It will inspire readers to imagine their own personal cabinet of wonders.

As a diesel, liberty, and self-reliance enthusiast, Mark A. Billy wanted the family and load hauling capabilities of a full sized truck without the horrible fuel economy or the excessive price. As an engineer, he understood the efficiency and torque that turbodiesel engines provide. He knew that his goals were achievable if the right decisions were made. So, he decided to build a practical hauler for his family that wouldn't break the bank. He started with an unusual host for an efficiency project: a large, heavy, brick-shaped 1999 Suburban. He integrated a 3.9 liter Isuzu turbodiesel engine and a five-speed manual transmission into this vehicle, creating a cavernous family conveyance that cruises at highway speeds while achieving 26 mpg. The Suburban retains functional four wheel drive, cruise control, and air conditioning. Because a mechanically-injected engine and a manual transmission were used, the drivetrain of the vehicle is EMP-proof. With a 40 gallon fuel tank, the vehicle can achieve a range of over 1000 miles without refueling. This book describes the author's decision-making process as he chose, modified, and installed the components in his conversion process. He shares a number of lessons he learned the hard way, in the hopes that sharing his experience will make it easier for others to pursue similar projects.

Transparency is vital to the building and strengthening of every relationship and every ministry. It allows people to see you as approachable and to feel safer when talking to you. Transparency is a gateway to trust, and trustworthiness is an important quality which people seek in a good, ministerial leader. They want to know: Is this person trustworthy? Is this person honest? How do I know I can talk to this person without fear of condemnation? It is with this in mind that Rohini Townsend approaches writing, friendships, ministry, and life itself. Her desire to see people healed and whole has led to a candor and openness that is sure to tug at the heartstrings of the despondent. Put Some Shoes On, is an emotional and gripping story of one little girl's journey

through heartache, rejection, abuse, and turmoil. Chronicling her path from scared child to broken, rebellious teen to powerful, anointed woman of God, the author shares the most intimate moments of her life with refreshing transparency and soul stirring honesty. It is not only a story of past hurts, it is a story of learning, growing and seeking a deeper relationship with God -- the steps and sacrifices that are required for that level of depth and connection to the Father. Raw, poignant, and insightful, Put Some Shoes On was written to heal. It was written with your salvation in mind. This is a story of overcoming and, while on that walk, discovering who you are, and more importantly, WHOSE you are. Every step you take was conceived in the mind of the Father to guide you towards recognizing the spiritual gifts He has placed in you. Be not weary in well doing. Do not allow your circumstances to define you. Do not be consumed by trials and heartache. Take your experiences and let God use them to mold you into a powerful Kingdom citizen. Put some shoes on and walk boldly in your Godly identity.

Change your Habits now to change your life forever! Making progress on either making or breaking habits has never been so simple and achievable! We all definitely know that feeling. The gut-wrenching sense of guilt and frustration, the lack of drive and resolve; you know, the "I've failed yet again" feeling. And this happens every single time we slip up on creating a new habit. For some reason, even with best intentions, sheer willpower just doesn't cut it. Habit creation almost always seems daunting and doomed to fail. Why does it have to be this way? Does it have to be this way at all? Dan Stevens in *The Art of Habit Building* proves otherwise. Equipped with a simple method based in Behaviour Chaining Psychology, Stevens guides you through the habit formation process and fully outlines a step-by-step process that guarantees your success with any habit; minimal willpower required. With *The Art of Habit Building* you will easily be able to Make literally any habit achievable, no matter how big Break down habits into simple, easy-to-achieve, steps that build up over time Harness the power of the subconscious mind to propel you toward your goals. Make the habit-building process automatic (so willpower isn't even necessary!) Leverage your current routines to form new routines And, most importantly, perfect any habit over time with ease Never struggle again with making great new habits stick! Upton Sinclair, one of America's foremost and most prolific authors, addresses the cultivation of the mind and the body in this 1922 volume. Sinclair's goal was to attempt to tell the reader how to live, how to find health, happiness and success, and how to develop fully both the mind and the body. Part One: The Book of the Mind covers such subjects as faith, reason, morality, and

the subconscious. Part Two: The Book of the Body develops such subjects as errors in diet, the fasting cure, food and poisons, work and play, and diseases and their cures .
