Examville Study Guides
 A Students' Guide to African American Literature, 1760 to the Present is designed to assist college students (and others) who are relative novices to the study of African American literature. Focusing on the prose tradition (from early autobiographical narratives to contemporary fiction), the author highlights themes, issues, and motifs peculiar to, and recurring in, African American literature, while providing students with more specific information on a number of key texts. Each chapter comes with suggestions for assignments and a selected bibliography for further research. The book also contains an appendix, which contains six student essays, as well as a useful glossary.

A comprehensive study guide offering in-depth explanation,

essay, and test prep for selected works by Arthur Miller, two-time Tony Winner and 1949 Pulitzer Prize Winner for Drama. Titles in this study guide include *All My Sons*, *Death of a Salesman*, *The Crucible*, *A Memory Of Two Mondays*, *A View From The Bridge*, *After The Fall*, and *Incident at Vichy*. As an influential, yet controversial, figure of American theatre, Miller expertly combined social awareness with a searching concern for his characters' inner ambitions. Moreover, Miller offered his audiences great entertainment mixed with thought-provoking social criticism. This Bright Notes Study Guide explores the context and history of Miller's classic work, helping students to thoroughly explore the reasons they have stood the literary test of time. Each Bright Notes Study Guide contains: - Introductions to the Author and the Work - Character Summaries - Plot Guides - Section and Chapter Overviews - Test Essay and Study Q&As The Bright Notes Study Guide series offers an in-depth tour of more than 275 classic works of literature, exploring characters, critical commentary, historical background, plots, and themes. This set of study guides encourages readers to dig deeper in their understanding by including essay questions and answers as well as topics for further research.

Widely known throughout the Arab world as a leading poet, journalist, and literary critic, Abbas Beydoun's writing is infused with the politics and culture of his native Lebanon. In *Blood Test*, his first novel, Beydoun recounts the efforts of a young man to explore his own history and identity through his encounters with the family and friends who surround him. The sudden death of his father prompts him to follow the physical and psychological traces he left behind, a journey that raises as many questions as it answers. The young man's search for a sense of belonging and rootedness leads him both forward and back as the narration travels in time and place over two continents and several generations. Max Weiss's fluid translation effortlessly conveys Beydoun's impassioned language and textured storytelling. *Blood Test* is a passport to places both real and imagined, leaving readers enriched by their travels.

In this book, Mark Whalan argues that World War One's major impact on US culture was not the experience of combat trauma, but rather the effects of the expanded federal state bequeathed by US mobilization. Writers bristled at the state's new intrusions and coercions, but were also intrigued by its creation of new social ties and political identities. This excitement informed early American modernism, whose literary experiments often engaged the political innovations of the Progressive state at war. Writers such as Wallace Stevens, John Dos Passos, Willa Cather, Zane Grey, and Edith Wharton were fascinated by wartime discussions

over the nature of US citizenship, and also crafted new forms of writing that could represent a state now so complex it seemed to defy representation at all. And many looked to ordinary activities transformed by the war - such as sending mail, receiving healthcare, or driving a car - to explore the state's everyday presence in American lives.

This work links ethics and the formal arrangement of literary texts. It shows that specific formal techniques and devices and the overall form of literary texts always have an ethical dimension and beg certain ethical questions. Covering the three main genres of narrative, drama and poetry, the discussion addresses aspects of syntax, line breaks, mise-en-scene and narrative situation as well as the table of contents, list of characters and chapter structure in six texts by contemporary American authors (Paul Auster, Don DeLillo, Tony Kushner, Suzan-Lori Parks, John Ashbery and Jorie Graham).

This book proposes a pedagogical model called "Pose, Wobble, Flow" to encapsulate the challenge of teaching and the process of growing as an educator who questions existing inequities in schooling and society and frames teaching around a commitment to changing them. The authors provide six different culturally proactive teaching stances or "poses" that secondary ELA teachers can use to meet the needs of all students, whether they are historically marginalized or privileged. They describe how teachers can expect to "wobble" as they adapt instruction to the needs of their students, while also incorporating new insights about their own cultural positionality and preconceptions about teaching. Teachers are encouraged to recognize this flexibility as a positive process or "flow" that can be used to address challenges and adopt ambitious teaching strategies like those depicted in this book. Each chapter highlights a particular pose, describes how to work through common wobbles, incorporates teacher voices, and provides questions for further discussion. Pose, Wobble, Flow presents a promising framework for disrupting the pervasive myth that there is one set of surefire, culturally neutral "best" practices. Book Features: A structure for career-long growth for ELA teachers, including ways to adapt pedagogy from one year to the next. A focus on culturally proactive positions within ELA classrooms to ensure criticality in how we teach and how we advocate for the teaching profession. Six different poses that are standards-aligned, critical, and expand the possibilities of what takes place in school. Guidelines for creating original poses beyond the scope of the book, discussion questions for courses, and resources for classroom teachers. "In Pose, Wobble, Flow, Garcia and O'Donnell-Allen remind all of us that teaching is not about following directions: it's about listening to our students and paying attention to the social forces that shape their lives; about learning how to navigate department, school, district, and federal rules to benefit our students so we can keep a job while we continue to honor our core beliefs about education." —Linda Christensen, Director, Oregon Writing Project, Lewis & Clark College "Antero Garcia and Cindy O'Donnell-Allen have written a book about teaching that I've been hoping someone would write. They deftly provide a clear and insightful framework from which any thoughtful teacher can build a vital practice, while also inserting a wealth of examples to ground the framework in working classrooms. It's a must-have for preservice and inservice teachers who care about their teaching." —Bob

This book presents an ecocritical reading of DeLillo's novels in an attempt to mediate between the seemingly incompatible influences of postmodernism and environmentalism. Martucci argues that although DeLillo is responding to and engaging with a postmodern culture of simulacra and simulation, his novels do not reflect a postmodernist theory of the "end of nature." Rather, his fiction emphasizes the lasting significance of the natural world and alerts us to the dangers of destroying it. In order to support this argument, Martucci examines DeLillo's novels in the context of traditional American literary representations of the environment, especially through the lens of Leo Marx's discussion of the conflict between technology and nature found in traditional American literature. She demonstrates that DeLillo's fiction explores the way in which new technologies alter perceptions and mediate reality to a further extent than earlier technologies; however, she argues that he keeps the material world at the forefront of his novels, thereby illuminating the environmental implications of these technologies. Through close readings of *Americana*, *The Names*, *White Noise*, and *Underworld*, and discussions of postmodernist and ecocritical theories, this project engages with current criticism of DeLillo, postmodernist fiction, and environmental criticism.

"In *Under the Sign of Empty*, Wendy Harding adopts a transdisciplinary perspective that draws on the theories of geographers, historians, sociologists, and philosophers to understand the reasons for the enduring perception of emptiness in the American landscape. In doing so, she identifies a recent trend in the literature of place that corrects the misperceptions resulting from this trope"--

In an original, widely researched, and accessibly written book, Robert Dale Parker helps redefine the study of Native American literature by focusing on issues of gender and literary form. Among the writers Parker highlights are Thomas King, John Joseph Mathews, D'Arcy McNickle, Leslie Marmon Silko, and Ray A. Young Bear, some of whom have previously received little scholarly attention. Parker proposes a new history of Native American literature by reinterpreting its concerns with poetry, orality, and Indian notions of authority. He also addresses representations of Indian masculinity, uncovering Native literature's recurring fascination with restless young men who have nothing to do, or who suspect or feel pressured to believe that they have nothing to do. *The Invention of Native American Literature* reads Native writing through a wide variety of shifting historical contexts. In its commitment to historicizing Native writing and identity, Parker's work parallels developments in scholarship on other minority literatures and is sure to provoke controversy.

The Test Drive deals with the war perpetrated by highly determined reactionary forces on science and research. How does the government at once promote and prohibit scientific testing and undercut the importance of experimentation? To what extent is testing at the forefront of theoretical and practical concerns today? Addressed to those who are left stranded by speculative thinking and unhinged by cognitive discourse, The Test Drive points to a toxic residue of uninterrogated questions raised by Nietzsche, Husserl and Derrida. Ranging from the scientific probe to modalities of testing that include the limits of friendship or love, this work explores the crucial operations of an uncontested legitimating machine. Avital Ronell offers a tour-de-force reading of legal, pharmaceutical, artistic, scientific, Zen, and historical grids that depend upon different types of testability, involving among other issues what it means to put oneself to the test.
