## ALIJAH OBRIEN

### Diversity, Dealignment, and Disillusion Routledge

The second edition of this popular and accessible text reflects the changing nature of the teaching and study of political ideologies in the UK. In addition to updating the chapters on ideologies on the spectrum from the Far Left to Far Right, Leach has added three completely new chapters on Nationalism and the Politics of Ethnicity, Feminism and the Greens. The second edition will also include more figures and diagrams and each chapter will contain a summary and guide to further reading, in addition to the full bibliography at the end of the volume." Include three completely new chapters on nationalism and ethnicity, feminism and environmentalism. Political Theory/Ideologies, British Politics. A Harvester Wheatsheaf Book.

### Contemporary British Politics John Wiley & Sons

Anthony Forster argues that euroscepticism, in addition to being a political stance, displays the seeds of becoming a new faith. Through a detailed analysis of British post-war politics, he shows the development of a core set of beliefs, a history of persecution, displays of moral rectitude in opposing Europe and the power of scepticism to change existing beliefs. This challenging new history of euroscepticism will be a valuable resource for undergraduate students of politics and European studies.

### Britain and the European Union Routledge

The continuous rise in the profile of the environment in politics reflects growing concern that we may be facing a large-scale ecological crisis. The new edition of this highly acclaimed textbook surveys the politics of the environment, providing a comprehensive and comparative introduction to its three components: ideas, activism and policy. Part I explores environmental philosophy and green political thought; Part II considers parties and environmental movements; and Part III analyses policy-making and environmental issues at international, national and local levels. This second edition has been thoroughly updated with new and revised discussions of many topics including the ecological state, ecological citizenship, ecological

modernisation and the Greens in government and also includes an additional chapter on 'Globalisation, Trade and the Environment'. As well as considering a wide variety of examples from around the world, this textbook features a glossary, guides to further study, chapter summaries and critical questions throughout.

### **Understanding Labour's Political Thought Since 1945**

Macmillan International Higher Education

British Politics: The Basics Routledge

Politics and the Mass Media in Britain Manchester University Press  
Understanding US/UK Government and Politics is a further volume in the Understanding Politics series. Clear and accessible in style, it offers invaluable insights into the similarities and differences between British and American politics. These are summarized in useful boxes at the end of each chapter, where there are also details of relevant websites and likely examination questions. The book begins by examining the setting against which government and politics operates in Britain and the United States, noting aspects of the history and social structure of each country before exploring the concept of political culture. The underlying ideas and values of British and American people are compared, and the book goes on to analyse the constitution and the protection of rights, before considering the executive, legislative and judicial branches of government in detail.

### **Social Movements and Contentious Politics** Routledge

The 1832 Reform Act was a watershed in the history of modern Britain, profoundly affecting the composition of parliament and the course of all subsequent legislation. This new edition of The Great Reform Act of 1832 extends and updates Eric J. Evans's classic account of the crucial political and economic issues and: \* highlights the travails of Toryism at the end of the 1820s \* clarifies complex questions of policy \* shows the connections between the Reform Act of 1832 and subsequent radical activity and reform legislation \* presents revised electoral statistics. An accessible and stimulating guide to the student of modern political history, students of history and political history will find this invaluable to their studies.

British General Elections Since 1964 Routledge

This fully-updated new edition of Politics and the Mass Media

provides a comprehensive introduction to the role of mass communications in politics at all levels, from election campaigns, news reports and lobbying groups to the media activities of pressure groups. The relationship between politics, politicians and the media is a matter of increasingly contentious debate, as politicians' awareness of the importance of the media becomes more sophisticated amidst rapidly-advancing media technology and control. Providing a review of the nature and content of political communications and of recent theoretical developments, Negrine addresses the issues surrounding today's mass media, including cable and satellite television, investigation of the press, the relationship between the state and broadcasting institutions and the ever-present question of whether or not Britain needs a media policy. This new edition includes: \* Case studies from television and the press \* Fully revised text with updated sections on the press, broadcasting and media legislation \* Brand new chapters on Europe and globalisation

### Euroscepticism in Contemporary British Politics CUP Archive

This long-awaited second edition sees this classic text by a leading scholar given a new lease of life. It comes complete with a wealth of original material on a range of topics and takes into account the vital research that has been undertaken in the field in the last two decades. The book considers the development of the internal structure of Britain and explores the growing sense of British nationhood. It looks at the role of religion in matters of state and society, in addition to society's own move towards a class-based system. Commercial and imperial expansion, Britain's role in Europe and the early stages of liberalism are also examined. This new edition is fully updated to include: - Revised and thorough treatments of the themes of gender and religion and of the 1832 Reform Act - New sections on 'Commerce and Empire' and 'Britain and Europe' - Several new maps and charts - A revised introduction and a more extensive conclusion - Updated note sections and bibliographies  
The Long Eighteenth Century is the essential text for any student seeking to understand the nuances of this absorbing period of British history.

An Introduction Routledge

This book discusses British thought on race and racial differences in the latter phases of empire from the 1890s to the early 1960s.

It focuses on the role of racial ideas in British society and politics and looks at the decline in Victorian ideas of white Anglo-Saxon racial solidarity. The impact of anthropology is shown to have had a major role in shifting the focus on race in British ruling class circles from a classical and humanistic imperialism towards a more objective study of ethnic and cultural groups by the 1930s and 1940s. As the empire turned into a commonwealth, liberal ideas on race relations helped shape the post-war rise of 'race relations' sociology. Drawing on extensive government documents, private papers, newspapers, magazines and interviews this book breaks new ground in the analysis of racial discourse in twentieth-century British politics and the changing conception of race amongst anthropologists, sociologists and the professional intelligentsia.

*The Political Marketing Revolution* Routledge

This textbook introduces students to the public policy-making process in Britain today. Assuming no prior knowledge, it provides a full review of the key actors, institutions and processes.

Random House

Reflecting the changes within British society & politics during the 20th century, the entries in this book provide an overview of the lives & influence of 50 figures in modern British political history & chart the development of key issues.

Constitutional History of the United Kingdom British Politics: The Basics

First published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

*Parliament in British Politics* John Wiley & Sons

The third edition of this leading textbook has been comprehensively updated and substantially revised to provide the first definitive introduction to British politics and government under New Labour. As well as according greater attention to the growing role of the European Union in British politics, this edition contains systematic comparisons between constitutional arrangements in the United Kingdom and in other leading democratic political systems. The book has been substantially redesigned with the addition of many new features.

Race and Empire in British Politics Manchester University Press

Over the last two decades British politics has undergone a remarkable transformation. While some components of the system have been eroded, such as voter turnout and membership

of the big parties, other parts have flourished, such as nationalist parties, the insurgent UKIP, as well as the new media. British Politics: The Basics analyses these changes and places them within the context of the evolution of British society from absolute monarchy to representative democracy. It considers each of the major components of British politics, such as the Monarchy and the House of Lords, the Commons, voting behaviour, parties and pressure groups, the Prime Minister and Cabinet, devolution, local government, and foreign policy. Its contents include coverage of recent events such as the Scottish Referendum and the 2015 General Election. This readable and comprehensive introduction will be of key interest to A-level students, undergraduates and those new to the study of British politics.

*Land of Strangers* Oxford University Press

British Politics in the Age of Anne is a book that anyone with an interest in the period will wish to possess: completely authoritative, yet as attractive to the student and the general reader as to the specialist. The author has both revised the text and written a substantial new introduction to this edition.

Geoffrey Holmes reveals how little the structure and contents of politics under Queen Anne had in common with the connexion-ridden scene of the mid-18th century, as portrayed by Namier. He depicts a period of fierce and genuine party conflict, in which society at many levels was divided by great issues of principle and policy. Through frequent and hotly-contested elections and long parliamentary campaigns both Whigs and Tories enjoyed triumphs and suffered disasters. And while struggling against one another, each had to contend with internal factions and pressure-groups, the divisive thrust of personal ambitions and the hostility of the queen to single party rule. British politics in the Age of Anne is more than a major work of analysis and a historiographical landmark. By liberal use of quotation, eye for detail, sense of atmosphere and vivid character sketches of both leading and lesser personae, Professor Holmes recreates the unique political life of the high Augustan age.

*In and After the Twentieth Century* MacMillan

The rise of the New Right and the collapse of state communism in 1989 has fundamentally changed political thinking in the late twentieth century. Rodney Barker has revised and extended his classic text - Political Ideas in Modern Britain - in the light of these changes. His accessible account of political thinking in Britain

since the 1880s now includes detailed analysis of: \* the demise of traditional conservatism and socialism \* the rise and decline of the New Right \* the growth of feminism, liberalism and pluralism Political Ideas in Modern Britain charts the changing intellectual landscape of political thinking, illustrating how contemporary political thought is both rooted in tradition and a radical transformation of it. Whether the future is liberal, communitarian, pluralist, or simply uncertain, this is an essential guide for students of British politics. Rodney Barker is Senior Lecturer in Government at the London School of Economics and Political Science.

*The Regulations of Sexuality Since 1800* Harvester Wheatsheaf

This fully revised new edition includes expanded coverage of Parliament's relationship with the courts, devolved assemblies and the European Union. Distinctively, the book goes beyond the usual focus of Parliament-Government relations to encompass policy-makers beyond Whitehall and Parliament's broader relationship with citizens.

The Struggle for Labour's Soul Routledge

No one saw it coming. No pundit, no pollster and no political leader predicted David Cameron's Conservative Party would win a majority of seats in Parliament and his three main opponents would resign as party leaders. The consequences of the coalition also became clear as the Liberal Democrats fell dramatically from grace, and lost their spot as Britain's third party. And despite Scotland voting 'NO' to independence in 2014, the election result

also threatens the Union, with the Scottish National Party winning all but three of the country's seats. In this timely edition, Richard S. Grayson analyses Britain's changing political landscape, and explores the role of the media, the European Union and the UK's 'special relationship' with the US. Thorough and incisive, *British Politics: A Beginner's Guide* is the perfect introduction to the structure, parties and personalities of British Government today.
