HEATH KAIYA

A grammar of Yakkha Springer

The Indo-Aryan languages are spoken by at least 700 million people throughout India, Pakistan, Bangladesh, Nepal, Sri Lanka and the Maldives. They have a claim to great antiquity, with the earliest Vedic Sanskrit texts dating to the end of the second millennium B.C. With texts in

Old Indo-Aryan, Middle Indo-Aryan and Modern Indo-Aryan, this language family supplies a historical documentation of language change over a longer period than any other subgroup of Indo-European. This volume is divided into two main sections dealing with general matters and individual languages. Each chapter on the individual language covers the phonology and grammar (morphology and syntax) of the language and its writing system, and gives the historical

background and information concerning the geography of the language and the number of its speakers.

Karnali Blues, by Buddhisagar, is the most widely read Nepali novel to have appeared in the last twenty years. As it recounts the evolution of a father-son relationship-a

son's search for approval, a father's small acts of kindness and forgiveness, a son's fears for his father's dignity as his fortunes and faculties begin to fail-the reader is deeply drawn into young Brisha Bahadur's world. His father is kind and idealistic; his mother, though she is kind too, is often frustrated and irascible. The characters in this book are some of the most carefully drawn and authentic in all of Nepali literature. In a backwater district of a country about to undergo radical social, political and cultural change, Brisha's dreams, his games and his mischief, his loves, his hopes and his fears come alive. Translated from the Nepali by Michael Hutt, this highly original piece of work, with the simplicity of its language and its emotional range, holds the power to take your breath away. Its principal themes-the love between a son and his father, the joys and sorrows of childhood, the daily struggle for survival-are universal, and will resonate with readers the world over.

This grammar provides the first comprehensive grammatical description of Yakkha, a Sino-Tibetan language of the Kiranti branch. Yakkha is spoken by about 14,000 speakers in eastern Nepal, in the Sankhuwa Sabha and Dhankuta districts. The grammar is based on original fieldwork in the Yakkha community. Its primary source of data is a corpus of 13,000 clauses from narratives and naturally-occurring social interaction which the author recorded and transcribed between 2009 and 2012. Corpus analyses were complemented by targeted elicitation. The grammar is written in a functional-typological framework. It focusses on morphosyntactic and semantic issues, as these present highly complex and comparatively under-researched fields in Kiranti languages. The sequence of the chapters follows the well-established order of phonological, morphological, syntactic and discourse-

structural descriptions. These are supplemented by a historical and sociolinguistic introduction as well as an analysis of the complex kinship terminology. Topics such as verbal person marking, argument structure, transitivity, complex predication, grammatical relations, clause linkage, nominalization, and the topography-based orientation system have received in-depth treatment. Wherever possible, the structures found were explained in a historical-comparative perspective in order to shed more light on how their particular properties have emerged.

Nepali has also been adopted by peoples of the Himalayan region who belong to different linguistic groups, and is now understood throughout the whole of Nepal, the Darjeeling region of West Bengal, Sikkim, Bhutan and parts of Tibet, where it has functioned as a language of trade and commerce for well over two centuries. The aim of this course, which covers the whole grammar and all the constructions of

modern Nepali, is to present a full description of both the spoken and written forms of modern standard Nepali, and to enable the student to understand, speak and read most types of Nepali he or she is likely to encounter. The earlier lessons concentrate mainly on the spoken style, and the conversation passages whilst the later lessons concern religious, political and literary topics. Nepal is a land which already provides great enjoyment to the increasing number of visitors from the west. A knowledge of the language leads to a deeper understanding of the culture of its people, and the object of A Course in Nepali is to provide the means of learning it without much difficulty. Earlier editions of this course have been the standard book for students at the School of Oriental and African Studies, and it is without question the established market leader.
