They're Your Parents, Too! Yale University Press

This book was born out of the author's deep conviction that today's Christians can benefit enormously from learning what God has done in the past.

The mighty acts of Christ did not come to a halt soon after the events recorded in the book of Acts. In every century since the first, the Almighty has been at work, and believers can trace his footsteps by studying the way that Christians of a previous generation faced the challenges that confronted them. - Back cover.

[Evolving Perspectives on Computers and Composition Studies](#) Harper Collins

Your parents are growing older and are getting forgetful, starting to slow down, or worse. Suddenly you find yourself at the cusp of one of the most important transitions in your life—and the life of your family. Your parents need you and your siblings to step up and take care of them, a little or a lot. To make the right things happen, you will all need to work together. And yet your siblings may have very different ideas from yours of what's best for Mom and Dad. They may be completely uninterested in helping, leaving you with all the responsibility. Or they may take charge and not allow you to help, or criticize whatever help you do give. Will you and your siblings be able to reach an understanding and work together, or will the challenges you face tear you apart? Most of us enter this period of our lives unprepared for the difficult decisions and delicate negotiations that lie ahead. This is the first book that provides guidance on the transition from the "old" family to the "new" one, especially for adult siblings. Here you'll find practical advice on a wide range of topics including • Who will make major medical decisions, manage finances, and enforce end-of-life choices if your parents cannot? And how will this be decided and carried out? • How will you negotiate caregiving issues and deal with unequal contributions or power struggles? • How can inheritance and the division of property, assets, and personal effects be handled to minimize hurt feelings and resentment? • How will you cope with the natural reemergence of unresolved childhood rivalries, hurts, and needs? • How can caring for your parents be an enriching experience rather than a thankless chore? • Most important, how can you ensure the best care for your parents while lessening conflict, guilt, anger, and angst? Written by a veteran journalist who chronicles life and how baby boomers live it, *They're Your Parents, Too!* offers all the information, insight, and advice you'll need to make productive choices as you and your siblings begin to assume your parents' place as the decision-

making generation of your family. Filled with expert guidance from gerontologists, family therapists, elder-care attorneys, financial planners, and health workers; resonant real-life stories; and helpful family negotiation techniques, this is an indispensable book for anyone whose parents are aging. *Fahrenheit 451* HarperCollins Children's Books

Involved: Writing for College, Writing for Your Self helps students to understand their college experience as a way of advancing their own personal concerns and to draw substance from their reading and writing assignments. By enabling students to understand what it is they are being asked to write from basic to complex communications and how they can go about fulfilling those tasks meaningfully and successfully, this book helps students to develop themselves in all the ways the university offers. This edition of the book has been adapted from the print edition, published in 1997 by Houghton Mifflin. Copyrighted materials primarily images and examples within the text have been removed from this edition. --

"WE NEED TO TALK." In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real conversations BASED ON THE TED TALK WITH OVER 10 MILLION VIEWS NPR's Best Books of 2017 Winner of the 2017 Silver Nautilus Award in Relationships & Communication "We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother." (Jessica Lahey, author of New York Times bestseller *The Gift of Failure*) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist—and offers simple tools that can improve anyone's communication. For example: BE THERE OR GO ELSEWHERE. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. CHECK YOUR BIAS. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. HIDE YOUR PHONE. Don't just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you're struggling to communicate with your kid's teacher at school, an employee at work, or the people you love the most—Headlee offers smart strategies that can help us all have conversations that matter.

Discussing the profound changes and possibilities for writing and writing instruction that are evident at this stage of the computer revolution, this book contains 17 articles which focus on implications for teaching, learning, and teacher education and highlight questions that teachers and researchers must address to realize the potential of the new technology. The book's four main sections deal with the profound influence of the new electronic age on teachers' lives, the ways computers change the responsibilities of students and teachers, the significance of hypertext for writers and teachers, and the political implications of the computer revolution for education. The articles and their authors are as follows: "Ideology, Technology, and the Future of Writing Instruction" (Nancy Kaplan); "Taking Control of the Page: Electronic Writing and Word Publishing" (Patricia Sullivan); "Computing and Collaborative Writing" (Janis Forman); "Prospects for Writers' Workstations in the Coming Decade" (Donald Ross); "Computers and Teacher Education in the 1990s and Beyond" (Kathleen Kiefer); "Computers and Instructional Strategies in the Teaching of Writing" (Elizabeth Klem and Charles Moran); "Evaluating Computer-Supported Writing" (Andrea W. Herrmann); "Hypertext and Composition Studies" (Henrietta Nickels Shirk); "Toward an Ecology of Hypermedia" (John McDavid); "Reconceiving Hypertext" (Catherine F. Smith); "The Politics of Hypertext" (Stuart Moulthrop); "Technology and Authority" (Ruth Ray and Ellen Barton); "The Politics of Writing Programs" (James Strickland); "The Equitable Teaching of Composition with Computers: A Case for Change" (Mary Louise Gomez); and "Feminism and Computers in Composition Instruction" (Emily Jessup). Winner of the Dorothy Canfield Fisher Award and the Sequoyah Children's Book Award: To save money for a bike, a young girl becomes a business tycoon Janie is desperate for a new bike, but her parents won't buy her one unless she can pay for half of it herself. She's too young to babysit and it's too late to get a paper route, so Janie decides to open her own business. She calls it Kid Power and promises her customers that there is no problem too big or too small for her to handle—but this budding entrepreneur will soon find that running a company isn't as easy as it looks. As Janie begins walking dogs, feeding cats, cleaning gutters, and pulling weeds, she gets closer and closer to her bike. But as Kid Power grows bigger than Janie can handle, she learns that there are some problems money can't solve, and some things even more important than getting a new bike.

Voted America's Best-Loved Novel in PBS's The Great American Read Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, *To Kill a Mockingbird* has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
