For DBQ 12, for example, students might begin by asking themselves the following questions:

- What was the Industrial Revolution? Where did it begin, and why?
- What were the results of the Industrial Revolution (positive and negative)?
- How were the problems addressed or solved?

Document Based Assessment for Global History

Industrial Revolution DBQ

The Industrial Revolution greatly increased the production of goods. It began in England on the 1700s. Factories were built in clusters and were built near water for.

Dbq 13 Industrial Revolution Beginnings - PHDessay.com

The Industrial Revolution began in Great Britain for many reasons. The conditions in Britain happened to be

perfect at that time. England's natural resources helped in many ways to boom the newly Industrial Revolution. For instance, England's abundance of coal provided a good power source for energy; its abundance of iron would be needed for construction (Doc. 1, 4) and the damp climate was good for cotton growing.
