Dreamcare: A Theology of Youth, Spirit, and Vocation helps parents, youth workers, and congregations cultivate purpose and vocation in youth and young adults. Recent findings disclose a pervasive sense of purposelessness that threatens young adults' health and well-being, and also the common good. The good news is that research shows all young people also have an often hidden sense of purpose that can be noticed, named, and nurtured by parents and communities. This volume supplements research with findings from Emory's Youth Theological Initiative (YTI), which identifies four pathways--desire, joy, compassion, and responsibility--by which

young people discover a sense of purpose. Growing from research at YTI, this volume provides concrete suggestions for how Christian communities might engage young people in practices to cultivate a sense of purpose, including narrative resources by which to make theological sense of their impulses of desire, joy, compassion, and responsibility.

For centuries the apostle Paul has been invoked to justify oppression ? whether on behalf of slavery, to enforce unquestioned obedience to the state, to silence women, or to legitimate anti-Semitism. To interpret Paul is thus to set

foot on a terrible battleground between spiritual forces. But as Neil Elliott argues, the struggle to liberate human beings from the power of Death requires "Liberating Paul" from his enthrallment to that power. In this book, Elliott shows that what many people experience as the scandal of Paul is the unfortunate consequence of the way Paul has usually been read, or rather misread, in the churches. In the first half of the book, Elliott examines the many texts historically interpreted to support oppression or maintain the status quo. He shows how often Paul's authentic message has been interpreted in the light of later pseudo-Pauline writings. In Part Two, Elliott applies a "political key" to the interpretation of Paul. Though subsequent centuries have turned the cross into a symbol of Christian piety, Elliott forcefully reminds us that in Paul's time this was the Roman mode of executing rebellious slaves, a fact that has profound political implications. *Christ and the Other* University of Georgia Press

Beginning in January 2011, the Arab world exploded in a vibrant demand for dignity, liberty, and achievable purpose in life, rising up against an image and tradition of arrogant, corrupt, unresponsive authoritarian rule. These previously unpublished, countryspecific case studies of the uprisings and their still unfolding political aftermaths identify patterns and courses of negotiation and explain why and how they occur. The contributors argue that in uprisings like the Arab Spring negotiation is "not just a 'nice' practice or a diplomatic exercise." Rather, it is a "dynamically multilevel" process involving individuals, groups, and states with continually shifting priorities--and with the prospect of violence always

near. From that perspective, the essays analyze a range of issues and events--including civil disobedience and strikes, mass demonstrations and nonviolent protest, and peaceful negotiation and armed rebellion--and contextualize their findings within previous struggles, both within and outside the Middle East. The Arab countries discussed include Algeria, Bahrain, Egypt, Libya, Morocco, Syria, Tunisia, and Yemen. The Arab Spring uprisings are discussed in the context of rebellions in countries like South Africa and Serbia, while the Libyan uprising is also viewed in terms of the negotiations it provoked within NATO. Collectively, the essays analyze the challenges of uprisers and emerging governments in building a new state on the ruins of a liberated state; the negotiations that lead either to sustainable democracy or sectarian violence; and coalition building between former political and military adversaries. Contributors: Samir Aita (Monde Diplomatique), Alice Alunni (Durham University), Marc Anstey* (Nelson Mandela University), Abdelwahab ben Hafaiedh (MERC), Maarten Danckaert (European-Bahraini Organization for Human Rights), Heba Ezzat (Cairo University), Amy Hamblin (SAIS), Abdullah Hamidaddin (King's College), Fen Hampson* (Carleton University), Roel Meijer (Clingendael), Karim Mezran (Atlantic Council), Bessma Momani (Waterloo University), Samiraital Pres (Cercle des Economistes Arabes), Aly el Raggal (Cairo University), Hugh Roberts (ICG/Tufts University), Johannes Theiss (Collège d'Europe), Sinisa Vukovic (Leiden University), I. Following the migration of workflows, data, and communication to the Cloud and other Internet-based frameworks, interaction over the Web has become ever more commonplace. As with any social situation, there are rules and consequences to actions within a virtual environment. *Cyber Behavior: Concepts, Methodologies, Tools, and Applications* explores the role of cyberspace in modern communication and interaction, including considerations of ethics, crime, security, and education. With chapters on a variety of topics and concerns inherent to a contemporary networked society, this multi-volume work will be of particular interest to students and academicians, as well as software developers, computer scientists, and specialists in the field of Information Technologies.

Liberating Paul

New required text for the FAP Modules, as of January 31, 2012. A critical point in an actuary's education is the transition from understanding the mathematical underpinnings of actuarial science to putting them into practice. The problems become less well-defined and the solutions less clear-cut. *Understanding Actuarial Practice* is designed to aid that transition in four of the areas in which actuaries practice: investments, life insurance and annuities, retirement benefits, and health insurance. In each area students are introduced to the products that are delivered in each area and the relevant methods with regard to pricing, reserving and funding. Examples

are supported by readily available spreadsheets and there are numerous exercises that reinforce the concepts. While written expressly for use in the Society of Actuaries Fundamentals of Actuarial Practice Course, this book is a valuable resource for anyone who desires to learn how actuarial principles are put into practice.

Cyber Behavior: Concepts,

Methodologies, Tools, and Applications

Before Sonny is a year old, he loses his mother on Christmas night when she is sold. He is sent to live in the chillun house where he is befriended by a deaf mute and the plantation's stableman. This saga of triumph over privation and abuse presents new insights into the lives of the Westfall slaves who appeared in Stanard's two previous novels, *Kedzie*, *Saint Helena Island Slave* and *Master of Westfall*.

Understanding Actuarial Practice

How should we relate to 'others' - those within a particular tradition, those of different traditions, and those who are oppressed? In the light of these anxieties, and building on the work of Andrew Shanks, this book offers a vision of Christ as 'the Shaken One', rooted in community with others. Shaped through dialogue with the theologies of John Hick and Lesslie Newbigin, Adams urges Christian communities to attend more deeply to the demands of ecumenical, dialogical and political theologies, to embody an ever greater 'solidarity of others' - a quality of community better demonstrating Christlike 'other-regard'.
