DeWitt Agency Files
It's pure white, deep blue... and dirty all over. Nam Ton ware - centuries-old ceramics from Southeast Asia's Golden Triangle - captivated the DeWitt Agency's tech-tycoon client. Now Immigration and Customs Enforcement is on his case for buying smuggled antiquities. To get immunity, he's hired the agency to run an off-books investigation into Nam Ton's source. Disgraced ex-L.A. gallerist and ex-con Matt Friedrich is in charge. If he finishes within sixty days, he'll earn an early end to his

probation. If he doesn't, he may go back to prison for bending the federal criminal code into a pretzel. Soon enough, Matt's in San Francisco, getting tight with Savannah, the client's beautiful art advisor, to scam his way into the smuggling operation. As the burglary, blackmail, tax evasion and customs fraud piles up and Matt finds himself sandwiched in a federal turf war, he realizes he's in way over his head with no good way out. And that's before he ends up in a real live jungle. Matt's dealing with a type of art he knows nothing about from an area he's seen only in war movies. Now the fate of some trafficked pottery may decide whether Matt gets his freedom... or spends a long stretch in a concrete cell.

Draping. Bird Street Books
This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it

pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul

Harris.

 In Life Code: The New Rules for Winning in the Real World, six-time New York Times #1 best-selling author Dr. Phil McGraw abandons traditional thinking and tells you the ugly truth about the users, abusers, and overall "bad guys" we all have in our lives. He also reveals the secrets of how they think and how they get to and exploit you and those you love. You'll gain incredible insight into these negative people, which he refers to as BAITERS (Backstabbers, Abusers, Imposters, Takers, Exploiters, Reckless), and you'll gain the tools to protect yourself from their assaults. Dr. Phil's new book gives you the "Evil Eight" identifiers so you can see them coming

from a mile away, as well as their "Secret Playbook," which contains the "Nefarious 15" tactics they use to exploit you and take what is yours mentally, physically, socially and professionally. Life Code then focuses on you and your playbook, which contains the "Sweet 16" tactics for winning in the real world. Edgy, controversial and sometimes irreverent, Dr. Phil again abandons convention to prepare you to claim what you deserve and claim it now. You take flying lessons to learn to fly, swimming lessons to learn to swim, and singing lessons to learn to sing. So, why not take winning lessons to learn to win?

 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the

public." -an excerpt

 Laurence King Publishing
 Drawing on a wealth of knowledge and experience and a background of more than 1,000 magazine articles on the subject, engine control expert Jeff Hartman explains everything from the basics of engine management to the building of complicated project cars. Hartman has substantially updated the material from his 1993 MBI book Fuel Injection (0-879387-43-2) to address the incredible developments in automotive fuel injection technology from the past decade, including the multitude of import cars that are the subject of so much hot rodding today. Hartman's text is extremely detailed and logically arranged to help readers better understand this complex topic.
Achtung-Panzer! Wombat Group Media
 The primary purpose of the Manual of Classification of Motor Vehicle Traffic Accidents is to promote uniformity and comparability of motor vehicle traffic accident statistics now being developed in

Federal, state and local jurisdictions. This manual is divided into two sections, one containing definitions and one containing classification instructions.

This volume systematically details both the basic principles and new developments in Data Envelopment Analysis (DEA), offering a solid understanding of the methodology, its uses, and its potential. New material in this edition includes coverage of recent developments that have greatly extended the power and scope of DEA and have lead to new directions for research and DEA uses. Each chapter accompanies its developments with simple numerical examples and discussions of actual applications. The first nine chapters cover the basic principles of DEA, while

the final seven chapters provide a more advanced treatment.

Dorotea DeVillardi is ninety-one years old, gorgeous, and worth a fortune. Matt Friedrich's going to steal her. The Nazis seized Dorotea's portrait from her Viennese family, then the Soviets stole it from the Nazis. Now it's in the hands of a Russian oligarch.

Dorotea's corporate-CEO grandson played by the legal rules to get her portrait back, but he struck out. So he's hired the DeWitt Agency to get it for him - and he doesn't care how they do it. Now Matt and Carson, his ex-cop partner, have to steal Dorotea's portrait from a museum so nobody knows it's gone, and somehow launder its history so the client doesn't have to hide it forever. The client's saddled them with a babysitter: Dorotea's granddaughter Julie, who may have designs on Matt as well as the painting. As if this wasn't hard enough, it looks like someone else is gunning for the same museum - and he may know more about Matt and Carson's plans than he should. Matt went to

prison for the bad things he did at his L.A. art gallery. Now he has a chance to right an old wrong by doing a bad thing for the best of reasons. All he has to do is stay out of jail long enough to pull it off.

Three Years and 54,000 Miles Around Africa Arms & Armour

For anyone approaching Discourse Analysis for the first time, theory means little when it is not related to actual knowledge and experience of language in use. Describing Discourse takes the unique approach of introducing discourse studies through the hands-on analysis of linguistic data. The book introduces students to specific discourses constructed for particular purposes, for example, from the domains of advertising, law, medicine and education. Each chapter provides examples, exercises and commentary designed to develop the analytical abilities needed in describing the characteristic forms and typical functions of different discourses. Describing Discourse provides the ideal entry into the study of discourse for students new to the subject.

The Skyway Men have ruled the underworld of the skylands for centuries - killing, stealing and doing whatever it takes of increase their wealth and power. Pistols, money and fear are their weapons of choice. After a decade exiled to a small piece of farmland that flies the quietest windlanes, Kade is thrust back into the world of death, corruption, shady deals and dirty deeds. But it's just like old times. He doesn't know who to trust. He doesn't know who's on which side. He doesn't even know which side he's on any more. All Kade knows for sure is that murder and mayhem aren't what they

used to be.

Searching for even more wild places and new experiences, Dan became determined to explore 'off the map' in Africa. From the mighty Sahara Desert in the north to the dense equatorial jungles of the Congo and the open grasslands of Southern Africa, Dan turned his biggest dream into reality. Over the course of three years Dan's second major expedition spanned fifty-four thousand miles through thirty-five unique African countries. THE ADVENTURE WAS A THOUSAND TIMES BIGGER THAN HE DREAMED POSSIBLE. After exploring the Pan-American Highway from Alaska to Argentina Dan became hooked on the freedom of global overland travel, and he only wanted more. New languages, exotic foods, stunning landscapes and local people with an entirely different outlook became Dan's everyday life. As the months turned into years, through highlights and despair Dan gained a new appreciation for what it truly means to be alive. Viewing our modern world

through African eyes gave Dan a new perspective, and he was pulled in by the endless joy, laughter and kindness at every turn. While the landscapes and wildlife are undeniably breathtaking, it is the natural warmth of the African people that is truly unforgettable. All across the continent Dan was welcomed with love and generosity, and now he will never be the same. Bloomsbury Absolute This heartbreaking, hilarious, and brutally honest memoir shares the deeply personal life story of a girl next door and her transformation into a household name. For more than forty years, Katie Couric has been an iconic presence in the media world. In her brutally honest, hilarious, heartbreaking memoir, she reveals what was going on behind the scenes of her sometimes tumultuous personal and professional life - a story she's never shared, until now. Of the medium she loves, the one that made her a household name, she says, "Television can put you in a box; the flat-screen can flatten. On TV, you are larger than life but smaller, too. It is not the whole story, and it is not the whole me. This

book is.” Beginning in early childhood, Couric was inspired by her journalist father to pursue the career he loved but couldn’t afford to stay in. Balancing her vivacious, outgoing personality with her desire to be taken seriously, she overcame every obstacle in her way: insecurity, an eating disorder, being typecast, sexism . . . challenges, and how she dealt with them, setting the tone for the rest of her career. Couric talks candidly about adjusting to sudden fame after her astonishing rise to co-anchor of the TODAY show, and guides us through the most momentous events and news stories of the era, to which she had a front-row seat: Rodney King, Anita Hill, Columbine, the death of Princess Diana, 9/11, the Iraq War . . . In every instance, she relentlessly pursued the facts, ruffling more than a few feathers along the way. She also recalls in vivid and sometimes lurid detail the intense pressure on female anchors to snag the latest “get”—often sensational tabloid stories like Jon Benet Ramsey, Tonya Harding, and OJ Simpson. Couric’s position as one of the leading lights of her profession was shadowed by the

shock and trauma of losing her husband to stage 4 colon cancer when he was just 42, leaving her a widow and single mom to two daughters, 6 and 2. The death of her sister Emily, just three years later, brought yet more trauma—and an unwavering commitment to cancer awareness and research, one of her proudest accomplishments. Couric is unsparing in the details of her historic move to the anchor chair at the CBS Evening News—a world rife with sexism and misogyny. Her “welcome” was even more hostile at 60 Minutes, an unrepentant boys club that engaged in outright hazing of even the most established women. In the wake of the MeToo movement, Couric shares her clear-eyed reckoning with gender inequality and predatory behavior in the workplace, and downfall of Matt Lauer—a colleague she had trusted and respected for more than a decade. Couric also talks about the challenge of finding love again, with all the hilarity, false-starts, and drama that search entailed, before finding her midlife Mr. Right. Something she has never discussed

publicly—why her second marriage almost didn’t happen. If you thought you knew Katie Couric, think again. Going There is the fast-paced, emotional, riveting story of a thoroughly modern woman, whose journey took her from humble origins to superstardom. In these pages, you will find a friend, a confidante, a role model, a survivor whose lessons about life will enrich your own.

 In this newly updated edition of the "meticulous and devastating" (Associated Press) account of violence and espionage that spent months on the New York Times Bestsellers list, Ronan Farrow exposes serial abusers and a cabal of powerful interests hell-bent on covering up the truth, at any cost - from Hollywood to Washington and beyond. In 2017, a routine network television investigation led to a story only whispered about: one of Hollywood's most powerful producers

was a predator, protected by fear, wealth, and a conspiracy of silence. As Farrow drew closer to the truth, shadowy operatives, from high-priced lawyers to elite war-hardened spies, mounted a secret campaign of intimidation, threatening his career, following his every move, and weaponizing an account of abuse in his own family. This is the untold story of the exotic tactics of surveillance and intimidation deployed by wealthy and connected men to threaten journalists, evade accountability, and silence victims of abuse. And it's the story of the women who risked everything to expose the truth and spark a global movement

A love letter to Singaporean cooking and family traditions. Southeast Asian cuisine is a proud mix of migrants and influences from all across Asia, which fuses together to create

something even greater than the original. In this beautiful new collection, rising star Elizabeth Haigh draws together recipes that have been handed down through many generations of her family, from Nonya to Nonya, creating a time-capsule of a cuisine. Growing up, it was through food that Elizabeth's mother demonstrated her affection, and the passion and love poured into each recipe is all collated here; a love letter to family cooking and traditions. Recipes include: Nonya-spiced braised duck stew pickled watermelon and radish salad beef rendang Singapore chilli crab fried tofu with spicy peanut sauce spicy noodle soup nasi goreng (spicy fried rice) Miso apple pie ... and many more! Adapting these traditional recipes to ensure ingredients are easily sourced in the West, Elizabeth Haigh brings a taste of Singapore to your own kitchen.

The book is designed to become a valid source of information to assist the student both in and out of the classroom to attain his or her objective. the structure of the text book is as follows: Chapter 1 is

an introduction to the book, covering the basic information on automobiles. Chapter 2 deals with engines and their auxiliary units. Chapters 3-10 cover several aspects of design of automobile components - SI system, background mathematics and advice on problem solving, particularly exam questions. Chapters 11-15 cover essential theory part of support system for vehicles. Numerous designs and fully worked problems are provided at the end of the chapter. It is expected that as the student works through the examples and problems, he or she will develop a greater understanding of the mathematics required for engineering. To help the student develop a sound grasp of the principles covered there are many diagrams, notes and applications as an aid to develop knowledge and facilitate understanding.
