**How Our Politicians Are
Abandoning the Middle
Class and Betraying
the American Dream**

Simon and Schuster
"From sensitive enfant
terrible to playful elder

statesman, James Ivory
has carried a delicate
candle of pure hedonism
through the violent
decades, sheltering it
from every hostile wind
which sought to
extinguish it. One of the
few to whom one can
unhesitatingly apply the
phrase "citizen of the
world," he has spent a
lifetime scattering
beautiful moments across
the continents."—Wallace
Shawn "James Ivory is one
of our greatest living
directors, and these
pages, deliciously poised
between diplomacy and
indiscretion, brim with his
vast experience of every
nook and cranny of the
film world. Offering
precious insights into how
the cinematic cultures of
Europe, Asia and America,
of Arthouse and
Hollywood, came to be
blended into a ravishingly
beautiful body of work,
Ivory also draws for us a
vivid picture of what it
really feels like to put
together an independent
movie. But perhaps most
striking is the way this
book illuminates the
human face of film-
making, and becomes a
touching testament to the
deep friendships - the
bonds of trust, affection,

professional respect - that have made possible the unique triumph that is Merchant Ivory.”—Kazuo Ishiguro “Robert Emmet Long’s James Ivory in Conversation transforms what might have been a routine Q & A into a lucid film history told from the unostentatious matter-of-fact viewpoint of that least narcissistic of productive and creative directors, James Ivory, with 25 films to his credit in a career that has spanned more than 40 years. He has become almost inseparably linked with producer Ismail Merchant and screenwriter Ruth Jhabvala to form the most famous collaborative troika in film history. As Mr. Ivory’s perceptively assiduous Boswell, Mr. Long deserves much of the credit for the felicitous outcome of the project. This is a must-read for all venturesome cineastes, particularly as a counterweight to all the reverse snobbery heaped upon the troika for succeeding commercially with serious and tasteful literary adaptations into film.”—Andrew Sarris *Transforming Your Life, One Night at a Time* Farrar Straus & Giroux This publication presents a comprehensive

catalogue of the works by Pablo Picasso in the Metropolitan Museum. Comprising 34 paintings, 59 drawings, 12 sculptures and ceramics, and more than 400 prints, the collection reflects the full breadth of the artist's multi-sided genius as it asserted itself over the course of his long career. The Success and Failure of Picasso Greystone Books “Wonderfully incendiary and right-headed . . . Huffington is mad as hell, and rightly so.” –Esquire The scathing and insightful New York Times bestseller, now updated to include the current economic crisis *Pigs at the Trough* is Arianna Huffington’s eerily prescient exposé of the financial meltdown—and the flagrant greed that triggered it. Once again, Huffington takes on the nexus of corporate highfliers, lobbyists, and Washington insiders who have created and zealously protected a culture of corruption in America. Harkening back to the days of Enron and WorldCom, she draws a line connecting those accounting frauds to the much larger and more sophisticated corruption that drove the latest financial crisis. The list of

new culprits is long, and in this updated version of *Pigs at the Trough*, Huffington calls them out—including AIG, Citigroup, and Merrill Lynch—and asks the probing questions of how things went so wrong and how we can rebuild our free market capitalist system on a sounder moral foundation. Wickedly amusing yet powerfully indicting, *Pigs at the Trough* will once again stir up heated discussion among Americans outraged by the bailout of corporate swine. “With a passion for the truth and an eye for detail, Arianna Huffington reports on the hijacking of democracy. Read it and weep—then head for the barricades.”—Bill Moyers “Huffington indicts with precision, verve, and sparkling wit.” –Barbara Ehrenreich “Arianna Huffington makes an appealing and compelling argument for the repeal of human nature—that part of it that indulges savage, unconscionable, and despicable greed.” –Walter Cronkite *Picasso in his posters: Classified bibliography* Bulfinch Press New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and

quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

The Biological Mind Basic Books

Arianna Huffington is one of the world's most prominent business leaders in media. As co-founder and editor-in-chief of the Huffington Post, she built the first internet newspaper, which eclipsed the traffic of the New York Times and won a Pulitzer Prize. Creating a digital media empire from an investment of just over \$1 million, she sold HuffPost to AOL in 2011 for more than \$300 million. Today, HuffPost is the flagship publication for global telecommunications giant Verizon. Considered to be one of the most influential women on earth, Huffington went on to establish Thrive Global, a wellness and technology start-up that aims to end the stress and burn out

epidemic. This concise but richly detailed biography provides an overview of Huffington's life and career, chronicling her journey from Athens to London, New York, Washington and California, across seven decades. From her earliest days, Huffington faced overwhelming challenges to carve a bold path that brought her fame, power and wealth. This book reveals her personal insights, how her companies tick, and what lies ahead. Smart, insightful and often startling, this book shows readers how Huffington did it, transforming herself from an aspiring author to a serial entrepreneur and, ultimately, the reigning queen of media.

A Schneider Family Book Award Honor Book for Teens "Raw and unflinching . . . A must-

read!" --Marieke Nijkamp, #1 New York Times-bestselling author of *This Is Where It Ends* "[It] cuts to the heart of our bogus ideas of beauty." --Scott Westerfeld, #1 New York Times-bestselling author of *Uglies* I am ugly. There's a mathematical equation to prove it. At only eight months old, identical twin sisters Ariel and Zan were diagnosed with Crouzon syndrome -- a rare condition where the bones in the head fuse prematurely. They were the first twins known to survive it. Growing up, Ariel and her sister endured numerous appearance-altering procedures. Surgeons would break the bones in their heads and faces to make room for their growing organs. While the physical aspect of their condition was painful, it was nothing compared to the emotional toll of navigating life with a facial disfigurement. Ariel explores beauty and identity in her young-adult memoir about resilience, sisterhood, and the strength it takes to put your life, and yourself, back together time and time again.

For millions of people, the great soprano Maria Callas (1923-1977) remains the focus of such unparalleled fascination that there is still no higher praise for singers than "...the best since Callas." In this biography, Callas' career is brought brilliantly to life, from her transformation from a chubby, painfully shy girl into a magnificent, celebrated soprano, to her conflict with her larger-than-life image. Huffington makes this struggle, which was at the center of her life, also the center of the biography. Using a wealth of previously unpublished material and numerous

first-hand interviews, Huffington documents Callas' interminable conflict with her mother, her deeply emotional relationship with her voice, the gradual unraveling of her first marriage, her passionate love affair with Aristotle Onassis, her agony and humiliation at his leaving her, and her secret abortion.

A pioneering neuroscientist argues that we are more than our brains. To many, the brain is the seat of personal identity and autonomy. But the way we talk about the brain is often rooted more in mystical conceptions of the soul than in scientific fact. This blinds us to the physical realities of mental function. We ignore bodily influences on our psychology, from chemicals in the blood to bacteria in the gut, and overlook the ways that the environment affects our behavior, via factors varying from subconscious sights and sounds to the weather. As a result, we alternately overestimate our capacity for free will or equate brains to inorganic machines like computers. But a brain is neither a soul nor an electrical

network: it is a bodily organ, and it cannot be separated from its surroundings. Our selves aren't just inside our heads--they're spread throughout our bodies and beyond. Only once we come to terms with this can we grasp the true nature of our humanity.

With her trademark passion, intelligence, and devastating wit, Huffington Post editor in chief Arianna Huffington tackles the issues that are crucial to this year's presidential election and, even more so, to the fate of the country. Huffington makes the case that America has been hijacked from within by a radical element—the "lunatic fringe" of the Right that has taken over the Republican Party. Despite holding views at odds with the majority of Americans, these zealots have given us an endless war in Iraq, a sputtering economy, a health care system on life support, a war on science and reason, and an immoral embrace of torture. But

they haven't done it on their own: they have been enabled by a compliant media that act as if there is no such thing as truth and are more interested in cozying up to those in power than in holding them accountable, and by feckless Democrats who have allowed themselves to be intimidated into backing down again and again. Both a withering indictment and a hopeful call to arms, *Right Is Wrong* is an explosive, boldly incisive work that will help set the national agenda.

Here it is repackaged with reproductions of over 65 paintings by Françoise Gilot (the paintings were created independently--not expressly for the book). At the height of his powers, Pablo Picasso was the artist as revolutionary, breaking through the niceties of form in order to mount a direct challenge to the values of his time. At the height of his fame, he was the artist as royalty: incalculably wealthy, universally

idolized—and wholly isolated. In this stunning critical assessment, John Berger—one of this century's most insightful cultural historians—trains his penetrating gaze upon this most prodigious and enigmatic painter and on the Spanish landscape and very particular culture that shaped his life and work. Writing with a novelist's sensuous evocation of character and detail, and drawing on an erudition that embraces history, politics, and art, Berger follows Picasso from his childhood in Malaga to the Blue Period and Cubism, from the creation of *Guernica* to the pained etchings of his final years. He gives us the full measure of Picasso's triumphs and an unsparing reckoning of their cost—in exile, in loneliness, and in a desolation that drove him, in his last works, into an old man's furious and desperate frenzy at the beauty of what he could no longer create.

"This is a brilliant, funny, subtle book. One of Carol Snow's subjects is the tenuousness and ferocity of relationship, so it shouldn't have come as a surprise, though it does, that she has made a feast

from the subject of prepositions."—Robert Hass "A poetry—post-traumatic—half-seen, half-remembered, half-named—the event more than half gone—still every half-part is a whole, when space is equal to it. Here is a new and mesmerizing way of thinking about things."—Fanny Howe "Carol Snow's staggering, ruthless poems hold a heroic quality that feels

rare these days. With a string of improbable comrades—Lewis Carroll, Sappho, A.R. Luria, and the Zen gardeners of Ryoanji Temple, Kyoto—she tracks the intricate twists and turns of American language towards uncharted territory. Every fork in thought bristles with danger and decision. A brave book indeed!"—Andrew Schelling
