Area X has

been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; the second expedition ended in mass suicide; the third expedition in a hail of gunfire as its members turned on one another. The members of the eleventh expedition returned as

shadows of their former selves, and within weeks, all had died of cancer. In *Annihilation*, the first volume of Jeff VanderMeer's *Southern Reach* trilogy, we join the twelfth expedition. The group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain, record all observations of their

surroundings and of one another, and, above all, avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it's the surprises that came across the border with them and the secrets the expedition members are keeping from one another that change everything.

Little, Brown  
This book focuses on film tourism: the phenomenon of people visiting locations from popular film or TV series. It is based on a unique, Asian perspective, encompassing case studies from around the pan-Asian region, including China, Taiwan, India, Japan, South Korea, Thailand, Hong Kong, Indonesia, and Singapore. By focusing emphatically on film tourism in the

non-West, this book offers a timely and crucial contribution to a more comprehensive understanding of the relation between film, culture and place, particularly in light of the increased volume of media production and consumption across Asia, and the consequent film tourism destinations that are currently popping up across the Asian continent.

This significant and timely volume aims to provide a focused analysis into tourist

experiences that reflect their ever-increasing diversity and complexity, and their significance and meaning to tourists themselves. Written by leading international scholars, it offers new insight into emergent behaviours, motivations and sought meanings on the part of tourists based on five contemporary themes determined by current research activity in tourism

experience: conceptualization of tourist experience; dark tourism experiences; the relationship between motivation and the contemporary tourist experience; the manner in which tourist experience can be influenced and enhanced by place; and how managers and suppliers can make a significant contribution to the tourist experience. The book critically explores these experiences

from multidisciplinary perspectives and includes case studies from wide range of geographical regions. By analyzing these contemporary tourist experiences, the book will provide further understanding of the consumption of tourism. Ways to Disappear U of Minnesota Press From the Pulitzer Prize-winning author of *The Good War: A masterpiece of modern journalism and "a huge anthem in praise of the American spirit"* (Saturday

Review). In this “invaluable record” of one of the most dramatic periods in modern American history, Studs Terkel recaptures the Great Depression of the 1930s in all its complexity. Featuring a mosaic of memories from politicians, businessmen, artists, striking workers, and Okies, from those who were just kids to those who remember losing a

fortune, *Hard Times* is not only a gold mine of information but a fascinating interplay of memory and fact, revealing how the 1929 stock market crash and its repercussions radically changed the lives of a generation. The voices that speak from the pages of this unique book are as timeless as the lessons they impart (*The New York Times*). “*Hard Times* doesn’t ‘render’ the time of the

depression—it is that time, its lingo, mood, its tragic and hilarious stories.”

—Arthur Miller  
“Wonderful! The American memory, the American way, the American voice. It will resurrect your faith in all of us to read this book.”

In 1998 the author, a professional prankster, trademarked the phrase "freedom of expression" to show how the expression of ideas was being restricted.

Now he uses intellectual property law as the focal point to show how economic concerns are seriously eroding creativity and free speech.

When Carl awakens from

a coma after being

attacked on a subway train,

life around him feels

unfamiliar, even strange.

He arrives at his best

friend's house without

remembering how he got

there; he seems to be

having an affair with his

secretary,

which is pleasant but surprising. He starts to notice distortions in his experience, strange leaps in his perception of time. Is he truly reacting with the outside world, he wonders, or might he be terribly mistaken? So begins a dark psychological drama that raises questions about the the human psyche, dream versus reality, and the boundaries of consciousness . As Carl

grapples with his predicament, Alex Garland - author of The Beach and the screenplay for 28 Days Later, plays with conventions and questions our assumptions about the way we exist in the world, even as it draws us into the unsettling and haunting book about a lost suitcase and a forgotten identity.

Penguin  
One of the most influential works of this century, *The Myth of Sisyphus* and *Other Essays* is a crucial exposition of existentialist thought.

Influenced by works such as *Don Juan* and the novels of Kafka, these essays begin with a meditation on suicide; the question of living or not living in a universe devoid of order or meaning. With lyric eloquence, Albert Camus brilliantly posits a way out of despair, reaffirming the value of personal existence, and the possibility of life lived with dignity and authenticity.  
*The Film Book*

Macmillan  
The incredible bestselling first novel from Pulitzer Prize-winning author, Jhumpa Lahiri. 'The kind of writer who makes you want to grab the next person and say "Read this!"' Amy Tan 'When her grandmother learned of Ashima's pregnancy, she was particularly thrilled at the prospect of naming the family's first sahib. And so Ashima and Ashoke have agreed to put off the

decision of what to name the baby until a letter comes...' For now, the label on his hospital cot reads simply BABY BOY GANGULI. But as time passes and still no letter arrives from India, American bureaucracy takes over and demands that 'baby boy Ganguli' be given a name. In a panic, his father decides to nickname him 'Gogol' - after his favourite writer. Brought up as an Indian in suburban

America, Gogol Ganguli soon finds himself itching to cast off his awkward name, just as he longs to leave behind the inherited values of his Bengali parents. And so he sets off on his own path through life, a path strewn with conflicting loyalties, love and loss... Spanning three decades and crossing continents, Jhumpa Lahiri's debut novel is a triumph of humane storytelling. Elegant,

subtle and moving, *The Namesake* is for everyone who loved the clarity, sympathy and grace of Lahiri's Pulitzer Prize-winning debut story collection, *Interpreter of Maladies*. *The Backpacker* Penguin Books Limited John's trip to India starts badly when he finds himself looking at the sharp end of a knife in a train station cubicle. His life is saved by Rick, who persuades John to

abandon his plans and travel to the Thai island of Koh Pha-Ngan where they pose as millionaire aristocrats. Pursued by Thai Mafia, they escape, facing danger at every turn. *The Beach* Routledge Crime analysis has become an increasingly important part of policing and crime prevention, and thousands of specialist crime analysts are now employed by police forces worldwide. This is the first

book to set out the principles and practice of crime analysis, and is designed to be used both by crime analysts themselves, by those responsible for the training of crime analysts and teaching its principles, and those teaching this subject as part of broader policing and criminal justice courses. The particular focus of this book is on the adoption of a problem solving approach,

showing how crime analysis can be used and developed to support a problem oriented policing approach – based on the idea that the police should concentrate on identifying patterns of crime and anticipating crimes rather than just reacting to crimes once they have been committed. In his foreword to this book, Nick Ross, presenter of BBC Crime Watch, argues passionately that crime

analysts are 'the new face of policing', and have a crucial part to play in the increasingly sophisticated police response to crime and its approach to crime prevention - 'You are the brains, the expert, the specialist, the boffin.'

The central thesis of this book is that a genre approach provides the most effective means for understanding , analyzing and appreciating the Hollywood cinema.

Taking into account not only the formal and aesthetic aspects of feature filmmaking, but various other cultural

aspects as well, the genre approach treats movie production as a dynamic process of exchange between the film industry and its audience. This process, embodied by the Hollywood studio system, has been sustained primarily through genres, those popular narrative formulas like the Western, musical and gangster film, which have dominated the screen arts throughout

this century. *Annihilation* Vintage Buddhism Goes to the Movies: Introduction to Buddhist Thought and Practice explains the basics of Buddhist philosophy and practice through a number of dramatic films from around the world. This book introduces readers in a dynamic way to the major traditions of Buddhism: the Theravāda, and various interrelated Mahāyāna divisions

including Zen, Pure Land and Tantric Buddhism. Students can use Ronald Green's book to gain insights into classic Buddhist themes, including Buddhist awakening, the importance of the theory of dependent origination, the notion of no-self, and Buddhist ideas about life, death and why we are here. Contemporary developments are also explored, including the

Socially Engaged Buddhism demonstrated by such figures as the Dalai Lama, Thich Nhat Hanh, Aung San Suu Kyi, and other Buddhist activists. Finally, comparisons	between filmic expressions of Buddhism and more traditional artistic expressions of Buddhism—su ch as mandala drawings—are also drawn. An important addition to any introduction to	Buddhist philosophy and practice, Buddhism Goes to the Movies is an excellent way to bring Buddhist thought, history, and activity to the uninitiated and interested reader.
