The acclaimed actress and author of *Jesse: A Mother's Story* tells the "entertaining and moving" story of her outspoken, frequently outrageous Italian immigrant mother (Tom Perrotta) Marianne Leone's Ma is in many senses a larger-than-life character, one who might be capable, even from the afterlife, of shattering expectations. Born on a farm in Italy, Linda finds her way to the United States under dark circumstances, having escaped a forced marriage to a much older man, and marries a good Italian boy. She never has full command of English—especially when questioned by authorities—and when she is suddenly widowed with three young children, she has few options. To her daughter's horror and misery, she becomes the school lunch lady. *Ma Speaks Up* is a record of growing up on the wrong side of the tracks, with the wrong family, in the wrong religion. Though Marianne's girlhood is flooded with shame, it's equally packed with adventure, love, great cooking, and, above all, humor. The extremely premature birth of Marianne's beloved son, Jesse, bonds mother and daughter in ways she couldn't have imagined. The stories she tells will speak to anyone who has struggled with outsider status in any form and, of course, to mothers and their blemished, cherished girls.

In *The FRESH Classroom: Why Culturally Relevant Education Can't Wait!*, Dr. Stephanie Boyce shares personal stories to help educators unpack opportunities for applying culturally relevant education in their classrooms. She offers field-proven practical strategies and evidence-based theories that empower educators to more authentically engage and become inclusive of ALL students in their classrooms. Dr. Boyce's FRESH approach represents a solution to an urgent call for innovation by instructional leaders seeking ways to meet the needs of an ever-diversifying student population. This book is a must-have for all educators looking to connect content with students' interests effectively in deep and meaningful ways.

Teachers and teacher educators asked for: the latest research on literacy more information about national standards ways to consider gender in instruction advice for teaching Advanced Placement classes ideas for teaching media literacy and incorporating technology effectively into instruction even more resources for mentoring new teachers analysis of how trends in society, culture, and politics impact teachers and their classrooms. And Jim delivers. He has revamped his introductory chapters on literacy learning to include up-to-the-minute thinking from the field, and he has incorporated lists of key standards and

helpful suggestions for reaching them.

His practical strategies turn recent findings on literacy and gender into well-designed, research-based instruction, and his ideas help you meet the very different needs of AP students by understanding their goals and providing them with appropriate challenges.

Today, black players compose more than eighty percent of the National Basketball Association's rosters, providing a strong and valued contribution to professional basketball. In the first half of the twentieth century, however, pro basketball was tainted by racism, as gifted African Americans were denied the opportunity to display their talents. Through in-depth interviews with players, their families, coaches, teammates, and league officials, Ron Thomas tells the largely untold story of what basketball was really like for the first black NBA players, including recent Hall of Fame inductee Earl Lloyd, early superstars such as Maurice Stokes and Bill Russell, and the league's first black coaches. *They Cleared the Lane* is both informative and entertaining, full of anecdotes and little-known history. Not all the stories have happy endings, but this unfortunate truth only emphasizes how much we have gained from the accomplishments of these pioneer athletes.

"Textured Teaching is a framework for teaching and learning about texts, centered in love and social justice. The term social justice refers to a redistribution of resources, opportunities, wealth, and power that promotes equity. A teaching approach that strives for social justice, then, is one that openly addresses social injustices and functions in a way that leads students to reimagine an equitable redistribution. Our framework is built upon the values that a Textured Teacher must hold. The strategies we use to bring those values to life are the traits of Textured Teaching. Therefore, a thoughtful and intentional implementation of Textured Teaching leads to social justice work"--

Description: The most fruitful growth of Buddhism in the Far East has resulted in the development of Zen and Shin. Zen attained its maturity in China and Shin in Japan. The vigour and vitality which Buddhism still has after more than two thousand years of history will be realized when one comes in contact with these two branches of Buddhism. The one appeals to the inmost religious consciousness of mankind, while the other touches the intellectual and practical aspects of the oriental mind which is more intuitive than discursive, more mystical than logical. If Zen is the ultra self power wing of Buddhism, Shin represents the other extreme wing known as the 'other power and these two extremes are synthesized in the enlightened Buddha consciousness. This book is a collection of essays originally published in *The Eastern Buddhist* except for the one on the 'History of Zen Buddhism' specially written for the volume.

Ben Hogan's former ball shagger recounts firsthand stories of the golf legend—and reveals, for the first time, Hogan's Swing Secret, a source of

mystery to golfers for more than fifty years. Ben Hogan's pro golf record is legendary. A four-time PGA Player of the Year, he celebrated sixty-three tournament wins and became known as a man of few words and fewer close friends. Most of what we know about Hogan has been based on myth and speculation. Until now. In the 1960s, though Hogan's competitive career was over, he kept the practice habits that made him famous and remade modern competitive golf. He hired seventeen-year-old Jody Vasquez to help. Each day, after driving to a remote part of the course at Shady Oaks Country Club, Hogan would spend hours hitting balls and Vasquez would retrieve them. There, and over the course of their twenty-year friendship, Hogan taught Jody the mechanics of his famous swing and shared his thoughts on playing, practicing, and course management—unknowingly revealing much about his character, values, and beliefs, and the events that shaped them. In *Afternoons with Mr. Hogan*, Jody Vasquez shares dozens of stories about Hogan, from the way he practiced, selected his clubs, and interacted with other star players to his little-known humor and generosity. Combining the gentle insight of Tom Kite's *A Fairway to Heaven* (which recalls Kite's golf education under Harvey Penick) with the sage perspective of Penick's own *Little Red Book*, Vasquez's tribute is funny, poignant, and full of advice for golfers of all levels.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Practical help for providing

balanced, comprehensive literacy instruction for all students, particularly those from culturally diverse backgrounds and those who are struggling with reading and writing. This popular resource provides comprehensive, balanced, practical literacy instruction for all students in today's increasingly diverse classrooms, especially students from culturally diverse backgrounds and those struggling with reading and writing. As the Common Core raises the bar for all children, *Classrooms That Work* helps educators meet the challenges by presenting lesson frameworks for providing reading and language arts instruction that helps all children achieve their highest literacy levels. In a clear, friendly writing style, the authors emphasize the importance of promoting the integration of phonics and literature-based process writing and reading instruction to enhance all students' learning and reading skills. The book clarifies concepts, defines key terms, and offers just the right balance of research and practical coverage to make the content complete without being overwhelming.

Growing from tiny tadpoles to massive master jumpers, frogs and their life cycles are fascinating. How far can frogs jump? Why do their eggs look slimy? Answer these questions and many more in this illustrated introduction to amphibians. With her signature bright, well-labeled diagrams and simple text, Gail Gibbons introduces the habitat and life cycles of frogs and gives an overview of common frog behaviors. Important biology vocabulary is introduced, defined, and reinforced with kid-friendly language and clear illustrations--plus a

page of intriguing frog trivia and clear diagrams that show how frogs are different from toads. Bonus material is included about the unique role frogs play in the environment.

"Unless we believe that those who have more are inherently superior to those who have less, we should be troubled by the fact that patterns of achievement are often fairly predictable, particularly with respect to students' race and class." In *Creating the Opportunity to Learn*, Wade Boykin and Pedro Noguera help navigate the turbid waters of evidence-based methodologies and chart a course toward closing (and eliminating) the academic achievement gap. Turning a critical eye to current and recent research, the authors present a comprehensive view of the achievement gap and advocate for strategies that contribute to the success of all children. Boykin and Noguera maintain that it is possible to close the achievement gap by abandoning failed strategies, learning from successful schools, and simply doing more of what the research shows is most effective. Success is founded on equity, but equity involves more than simply ensuring students have equal access to education; equity also entails a focus on outcomes and results. If we want to bring about significant improvements in those outcomes, we have to do more to address the context in which learning takes place. In short, we must create schools where a child's race or class is no longer a predictor for

how well he or she might perform.
