**An Essay on Islamic Culture**

Cambridge University Press

Lavishly illustrated with over 300 pictures, including more than 200 in full color, *The Oxford History of Islam* offers the most wide-ranging and authoritative account available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume *Oxford Encyclopedia of the Modern Islamic World*, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic

communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, *The Oxford History of Islam* offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations.

*HISTORICAL ROLE OF ISLAM* Yale University Press

Annotation. The history of the Islamic faith on the continent of Africa spans fourteen centuries. For the first time in a single volume, *The History of Islam in Africa* presents a detailed historic mapping of the cultural, political, geographic, and religious past of this significant presence on a continent-wide scale. Bringing together two dozen leading scholars, this comprehensive work treats the historical development of the religion in each major region and examines its effects. Without assuming prior knowledge of the subject on the part of its readers, *The History of Islam in Africa* is broken down into discrete areas, each devoted to a particular place or theme and each written by experts in that particular arena. The introductory chapters examine the principal "gateways" from abroad through which Islam traditionally has influenced Africans. The following two parts present overviews of Islamic history in West Africa and the Sudanic zone, and in subequatorial Africa. In the final section, the authors discuss important themes that have had an impact on Muslim communities in Africa. Designed as both a reference and a text, *The History of Islam in Africa* will be an essential tool

for libraries, scholars, and students of this growing field.

Historic Role of Islam in the Lives of Twentieth-century Middle Eastern Muslim Women Princeton University Press

Islam in Historical Perspective integrates history of Islamic societies with discussion of how Muslim scriptures, laws, moral values and myths have shaped lives and thought of individual Muslims and various Muslim communities from the rise of Islam until today. It provides carefully selected historical and scriptural evidence that enables readers to form a comprehensive balanced vision of Islam's evolution. Author Alexander Knysh shows Muslims have made sense of their life experiences by constantly interpreting and re-interpreting Islam's foundational ideas in accordance with ever-changing social and political conditions. In addition to the combined historical and chronological approach, the author offers in-depth discussions of intellectual dialogues and struggles within Islamic tradition. He shows Islam to be a social and political force, while addressing Muslim devotional practices, artistic creativity and structures of everyday life and provides a wealth of historical anecdotes and quotations from original sources that are designed to illustrate principal points.

**The Oxford History of Islam** Springer  
From the first Arab-Islamic Empire of the mid-seventh century to the Ottomans, the last great Muslim empire, the story of the Middle East has been the story of the rise and fall of universal empires and, no less important, of imperialist dreams. So argues Efraim Karsh in this highly provocative book. Rejecting the conventional Western interpretation of Middle Eastern history as an offshoot of

global power politics, Karsh contends that the region's experience is the culmination of long-existing indigenous trends, passions, and patterns of behavior, and that foremost among these is Islam's millenarian imperial tradition. The author explores the history of Islam's imperialism and the persistence of the Ottoman imperialist dream that outlasted World War I to haunt Islamic and Middle Eastern politics to the present day. September 11 can be seen as simply the latest expression of this dream, and such attacks have little to do with U.S. international behavior or policy in the Middle East, says Karsh. The House of Islam's war for world mastery is traditional, indeed venerable, and it is a quest that is far from over.

The continued prominence of Islam in the struggle for democracy in the Muslim world has confounded Western democracy theorists who largely consider secularism a prerequisite for democratic transitions. Kamran Bokhari and Farid Senzai offer a comprehensive

view of the complex nature of contemporary political Islam and its relationship to democracy.

Drawing on political oratory, diplomatic correspondence, crusade propaganda, and historical treatises, Meserve shows how research into the origins of Islamic empires sprang from—and contributed to—contemporary debates over the threat of Islamic expansion in the Mediterranean. This groundbreaking book offers new insights into Renaissance humanist scholarship and long-standing European debates over the relationship between Christianity and Islam.

### **Mind, Economy, Discourse**

International Institute of Islamic Thought (IIIT)

It is an established fact that the Prophet never, in his entire life, put an apostate to death. Yet, the issue remains one of the most controversial to have afflicted the Muslim world down the centuries. It is also the source of much damaging media coverage today as Islamic jurisprudence stands accused of a flagrant disregard for human rights and freedom of expression. The subject of this book is a highly sensitive and important one. The author rightly concentrates on evidence, to examine the historical origins of the debate in rigorous detail, as well as the many moral and contextual issues surrounding

it. Disputing arguments put forward by proponents of the death penalty he contends that both the Qur'an and the Sunnah promote freedom of belief including the act of exiting the Faith and do not support capital punishment for the sin of al-riddah. Note that attention is on the word sin, for there is qualification: as long as one's apostasy has not been accompanied by anything else that would be deemed a criminal act, particularly in terms of national security, then according to the author, it remains a matter strictly between God and the individual. Of interest is the fact that the Qur'an significantly refers to individuals repeatedly returning to unbelief after having believed, but does not mention that they should be killed or punished. This work has been written at a time of great complexity and vulnerability when a true understanding of the higher intents and values of the Qur'an and the Sunnah, maqasid al-shariah, is sorely needed. The author employs a strong evidence-based approach examining in detail the Qur'an and authentic Hadith, taking into consideration traditional approaches to the study of the Islamic textual sciences and other fields of knowledge, as well as analyzing scholastic interpretation. Taking the life of a person without just cause is according to the Qur'an equivalent to the killing of the whole of mankind. It is vital therefore, that in the interests of compassion and justice, as well as freedom of belief, this subject is clearly addressed once and for all.

[Islam in Historical Perspective](#) Yale University Press

This book is about an actual journey into the heart of the Islamic world, Saudi Arabia. It tells of the discoveries and revelations about the history of the Middle East, Islam, and Muslims. The

book's main proposition is connecting the dots between the early Islamic State at the time of the prophet Muhammad and modern-day terrorism and radicalism. The author presents new findings about the true history of Islam. The findings are about the theology of Islam, the language of the Quran, the history of radical Islam, and the social life of Muslims. The book presents an unprecedented analysis of the Quran and an empirical study of the psychological effect of the language of the Quran; there is also a historical and a sociological approach to understand Islam that has never been attempted before. In addition, the book exposes the goals and plans of terrorist groups such as Al-Qaeda, Boko Haram, Taliban, ISIL, Islamic Jihad, Hamas, and the Muslim Brotherhood and their followers who want to take over the world, spread Islamic Sharia law, and destroy human civilization. The book also explores the beauty of literature and how it can defeat Islamic radicalism, and how literature can be used to change the rigid mindset of some radicals. In addition, the book shows how peaceful Muslims become victims to those extremists and terrorists. The book also exonerates those moderate peaceful Muslims from any crimes committed by radicals and extremists. It is hoped that radical Muslims would show little humbleness and some humility after they know what their religion is about and learn the truth of the Quran. This book is a rational analysis of the past and present of the Middle East and Islam, the authenticity of the Quran, the life of Muslims under Sharia law, and the control of the clergy over the lives of Muslims, but it warns of the lurking danger of radical Islam that might jeopardize human civilization if it is not

stopped immediately. The author of this book, Sami Benjamin, was born in Iraq in 1949. He was raised as a Muslim in a Baghdad neighborhood. Empires of Islam in Renaissance Historical Thought Bloomsbury Publishing USA

"Ed Husain has become one of the most vital Muslim voices in the world. The House of Islam could very well be his magnum opus." -Reza Aslan, #1 New York Times bestselling author of *Zealot*  
 "This should be compulsory reading." - Peter Frankopan, author of the international bestseller *The Silk Roads Today*, Islam is to many in the West an

alien force, with Muslims held in suspicion. Failure to grasp the inner workings of religion and geopolitics has haunted American foreign policy for decades and has been decisive in the new administration's controversial orders. The intricacies and shadings must be understood by the West not only to build a stronger, more harmonious relationship between the two cultures, but also for greater accuracy in predictions as to how current crises, such as the growth of ISIS, will develop and from where the next might emerge. The House of Islam addresses key questions and points of disconnection. What are the roots of the conflict between Sunni and Shi'a Muslims that is engulfing Pakistan and the Middle East? Does the Koran encourage the killing of infidels? The book thoughtfully explores the events and issues that have come from and contributed to the broadening gulf between Islam and the West, from the United States' overthrow of Iran's first democratically elected leader to the emergence of ISIS, from the declaration of a fatwa on Salman Rushdie to the attack on the offices of Charlie Hebdo. Authoritative and engaging, Ed Husain leads us clearly and carefully through the nuances of Islam and its people, taking us back to basics to contend that the Muslim world need not be a stranger to the West, nor our enemy, but our peaceable allies.

Islamic Imperialism James Currey

What is Islam? How do we grasp a human and historical phenomenon

characterized by such variety and contradiction? What is "Islamic" about Islamic philosophy or Islamic art? Should we speak of Islam or of islams? Should we distinguish the Islamic (the religious) from the Islamicate (the cultural)? Or should we abandon "Islamic" altogether as an analytical term? In *What Is Islam?*, Shahab Ahmed presents a bold new conceptualization of Islam that challenges dominant understandings grounded in the categories of "religion" and "culture" or those that privilege law and scripture. He argues that these modes of thinking obstruct us from understanding Islam, distorting it, diminishing it, and rendering it incoherent. *What Is Islam?* formulates a new conceptual language for analyzing Islam. It presents a new paradigm of how Muslims have historically understood divine revelation—one that enables us to understand how and why Muslims through history have embraced values such as exploration, ambiguity, aestheticization, polyvalence, and relativism, as well as practices such as figural art, music, and even wine drinking as Islamic. It also puts forward a new understanding of the historical constitution of Islamic law and its relationship to philosophical ethics and political theory. A book that is certain to provoke debate and significantly alter our understanding of Islam, *What Is Islam?* reveals how Muslims have historically conceived of and lived with Islam as norms and truths that are at once contradictory yet coherent.
