Aaron Horne provides the most
comprehensive guide to brass music
written by black composers. He covers
composers from around the world in the

19th and 20th centuries. Included in the
book is biographical information;
commission, duration, instrumentation,
date of publication, premiere, publisher,
discography for each piece; bibliographical
sources; and an index which groups the
music by numbers, medium, and
ensemble. This is the fourth volume in
Aaron Horne's monumental effort to
provide the most comprehensive guide to
music composed by black composers. In

this volume he covers composers from
around the world in the 19th and 20th
centuries, including William Grant Still,
Ulysses Kay, Anthony Davis, John Coltrane,
and other major figures from the world of
classical, jazz, and popular music. The
main body of the book is divided into
sections devoted to African, African
American, Afro-European, and Afro-Latino
composers. Within each section
composers are arranged alphabetically;

each entry provides biographical information as well as commission, duration, instrumentation, date of publication, premiere, publisher, discography for each composition. Backmatter includes a Brass Music Index which groups the music by numbers, medium, and ensembles; a title index; discography; and bibliography. As with the earlier volumes, this is an essential reference tool for anyone with an interest in researching and/or performing the music of black composers.

 High Register Development on tuba provides the knowledge and tools necessary for tubists to build and master

the upper register. This book focuses on building a foundation to support upper register expansion, building strength and endurance, and producing beautiful and controlled sound. Tubists at all levels can begin to improve upper register performance. Later in the book the focus changes toward bass tuba (F or Eb tubas). However, players at all levels will benefit from the studies in this book.

Inside Music Glissato Edizioni Musicali Guide to the Tuba Repertoire is the most comprehensive investigation ever undertaken into the literature and discography of any single musical instrument. Under the direction of R. Winston Morris and Daniel Perantoni, this publication represents more than 40 years of research by dozens of leading professionals throughout the world. The guide defines the current status of the tuba and documents its growth since its inception in 1835. Contributors are Ron Davis, Jeffrey Funderburk, David Graves, Skip Gray, Charles A. McAdams, R. Winston Morris, Mark A. Nelson, Timothy J. Northcut, Daniel Perantoni, Philip Sinder, Joseph Skillen, Kenyon Wilson, and Jerry A. Young.

The present "Method for Bass and Contrabass Tuba" provides daily exercises for the pupil which are conceived for a progressive and gradual advancement in the academic course of study of the tuba at the Conservatory. My decades of experience in the field of musical and instrumental teaching, led me to perfect this series of exercises; they are an excellent support as well as a useful guide for the pupil, the student, or the professional that will perform them. As usual, I leave full freedom and total discretion in the execution of these to the musician that will play them. Good study to all! Modern low brass instruments—trombone, tuba, and euphonium—have legions of ancestors, cousins, and descendants in over five-hundred years of history. Prominent scholar and performer Douglas Yeo provides a unique, accessible reference guide that addresses a broad

range of relevant topics and brings these instruments to life with clear explanations and the most up-to-date research. Brief biographies of many path-changing individuals highlight their influence on instrument development and use. The book's inclusive scope also recognizes the work of diverse, influential artists whose important contributions to trombone and tuba history and development have not previously been acknowledged in other literature. Extensive illustrations by Lennie Peterson provide insight into many of the entries.

Zum, zum, buzz.... zum, zum, buzz...
What's that strange buzz coming from the double bass? Berlioz has no time to investigate, because he and his bear orchestra are due at the gala ball in the village square at eight. But Berlioz is so worried about his buzzing bass that he steers the mule and his bandwagon full of magicians into a hole in the road and gets stuck. Time is running out, and if a rooster, a cat, a billy goat, a plow horse, and an ox can't rescue the bandwagon, who can? As the suspense mounts, intricate borders reveal the

village animals making their way to the square one by one. When the clock chimes eight, the animals, ready to dance, have filled the square-but there's no sign of Berlioz. Jan Brett's glorious illustrations invite the eye to linger over exquisite details and humorous nuances that enhance the story. This delightful cumulative tale is one that will be looked at again and again.

"Powerful . . . equal parts heartwarming and heart-wrenching. White is a gifted storyteller." —Washington Post
From the streets of Baltimore to the halls of the New Mexico Philharmonic, a musician shares his remarkable story in I'm Possible, an inspiring memoir of perseverance and possibility. Young Richard Antoine White and his mother don't have a key to a room or a house. Sometimes they have shelter,

but they never have a place to call home. Still, they have each other, and Richard believes he can look after his mother, even as she struggles with alcoholism and sometimes disappears, sending Richard into loops of visiting familiar spots until he finds her again. And he always does—until one night, when he almost dies searching for her in the snow and is taken in by his adoptive grandparents. Living with his grandparents is an adjustment with rules and routines, but when Richard joins band for something to do, he unexpectedly discovers a talent and a sense of purpose. Taking up the tuba feels like something he can do that belongs to him, and playing music is like a light going on in the dark. Soon Richard gains acceptance to the prestigious Baltimore School for the Arts, and he continues thriving in his musical studies at the Peabody Conservatory and beyond, even as he navigates racial and socioeconomic disparities as one of few Black students in his programs. With fierce determination, Richard pushes forward on his remarkable path, eventually securing a coveted spot in a symphony orchestra and becoming the first African American to earn a doctorate in music for tuba

performance. A professor, mentor, and motivational speaker, Richard now shares his extraordinary story—of dreaming big, impossible dreams and making them come true.

Daniels' Orchestral Music is the gold standard for all orchestral professionals—from conductors, librarians, programmers, students, administrators, and publishers, to even instructors—seeking to research and plan an orchestral program, whether for a single concert or a full season. This sixth edition, celebrating the fiftieth anniversary of the original edition, has the largest increase in entries for a new edition of Orchestral Music: 65% more works (roughly 14,050 total) and 85% more composers (2,202 total) compared to the fifth edition. Composition details are gleaned from personal inspection of scores by orchestral conductors, making it a reliable one-stop resource for repertoire. Users will find all the familiar and useful features of the fifth edition as well as significant updates and corrections. Works are organized alphabetically by composer

and title, containing information on duration, instrumentation, date of composition, publication, movements, and special accommodations if any. Individual appendices make it easy to browse works with chorus, solo voices, or solo instruments. Other appendices list orchestral works by instrumentation and duration, as well as works intended for youth concerts. Also included are significant anniversaries of composers, composer groups for thematic programming, a title index, an introduction to Nieweg charts, essential bibliography, internet sources, institutions and organizations, and a directory of publishers necessary for the orchestra professional. This trusted work used around the globe is a must-have for orchestral professionals, whether conductors or orchestra librarians, administrators involved in artistic planning, music students considering orchestral conducting, authors of program notes, publishers and music dealers, and instructors of conducting.

This book serves the need for an authoritative guide to the euphonium and tuba for students, teachers, and professional performers. The content and presentation as applied to the wind instruments are clearly stated. Detailed discussion by Phillips and Winkle includes many considerations for all levels of performance. The appendix includes study materials recommended for beginning, intermediate and advanced levels. This book also presents a pictorial history of the evolution and development of the tuba/euphonium family with a selected list of outstanding artists who make up its heritage.

My new book, entitled Complete Warm Up and Daily Routine for Tuba, is designed to provide students, amateurs, and professional tuba players with a useful guide to warming up and daily exercises. This new series of exercises enables tuba players to experience rapid, step-by-step progression in embouchure and, as a result, in their technical precision and speed. In particular, this enables:

- step-by-step development and progression in embouchure
- improvement and increased confidence in attacks
- improvement and increased confidence in all registers
- improvement and increased confidence in control in legato
- increased confidence in

moving from one register to another and in leaps

- increased technical precision and speed

My advice is to tackle these exercises starting at a comfortable pace (75 - 80 on the metronome) and then to gradually pick up speed in order to reach the maximum attainable pace. Another idea might be to practice in major and minor keys on alternate days, or to play in the ordinary way on one day and the opposite the next. Everything is at the sole discretion of the player. As always, I leave full freedom of execution up to tuba players who want to try their hands at this new series of daily exercises for rapid, step-by-step progression as part of their training as musicians.
