Over the past twenty years, no other part of the world has undergone as many changes as the Asian and Islamic regions. Since 1997, the London based Asian Art Newspaper has been covering on a monthly basis the world of Asian and Islamic art. Each issue has been featuring an interview with a contemporary artist, providing the reader with the opportunity to discover an artist through his own words and not through the lens of a curator, an art historian or a dealer. The featured illustrations allow the reader to have a clear understanding of what the artist's practice and vision are about whether dealing with painting, sculpture, installation, photography, performance, video, film or music. Contemporary Voices compiles some of these interviews, covering the Asian and Islamic contemporary art scene, including internationally acclaimed as well as emerging artists.

Modified atmosphere packaging (MAP) has proved to be one of the most significant and innovative growth areas in retail food packaging of the past two decades. Bulk modified atmosphere packs have been an accepted form of packaging for meat and poultry in the USA since the early 1970s, but MAP is only now being widely adopted. Today there is a substantial wholesale on the verge market for bulk packaged fresh vegetables and fruit, and the most significant retail MAP products are fresh pasta, pre-cooked poultry and sausage, and biscuits (a unique American product). The United Kingdom is the biggest single market for the modified atmosphere packaging of fresh chilled food products, accounting for about half of the total European market. A further quarter is represented by France. The success of MAP in both the British and French markets can be attributed to the large, highly sophisticated food retailing multiples and dense populations existing in both

countries.

We've all taken a dislike to someone for no real reason. But few of us nurture this hatred like the narrator of "Moon-Face". The target of his irrational malice is a man named John Claverhouse. With cold precision, the narrator sets to planning the man's downfall. Why he has this urge, he can't explain. But he knows he'll feel immense satisfaction when John Claverhouse is made to suffer. In this macabre little tale, Jack London pinpoints a very common but unpleasant human trait. And then takes it to a horrifying extreme. This short story collection also includes "All Gold Canyon", which was adapted as part of the Netflix anthology movie "The Ballad of Buster Scruggs". Jack London

(1876–1916) was one of the first American writers to achieve worldwide celebrity. He did so with rugged adventure stories set in forbidding landscapes. And heroes who survive by embracing their most primal instincts. His breakthrough best seller was "The Call of the Wild". Inspired by his time in the Klondike Gold Rush, this hard-hitting novel is told from the perspective of a sled dog named Buck. It's inspired many adaptations, including a big-budget movie starring Harrison Ford. Among London's other notable works are "White Fang", also featuring a canine protagonist, as well as "The Sea-Wolf", "Martin Eden" and "The Iron Heel".
