Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. *Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World* is a new blueprint for fast language learning. A land of mountains, hills, and fertile plains, Romania is a tourist destination waiting to be discovered. It is a rich and complex country: a place whose cities are home to beautiful parks and vibrant cultural scenes; whose people welcome guests warmly into their homes, sharing the best of whatever they have, and party into the night, suffused by Latin joie de vivre. Buffeted over time between three great powers—the West, Russia, and Turkey—Romania betrays the cultural influences of each, and it can be a difficult place to get a handle on. Culture Smart! Romania provides an indispensable tool for the foreign visitor, digging deep behind the clichés, explaining many of the behavioral quirks of the people, smoothing your path toward better understanding, and outlining the many attractions—cultural, social, and geographical—that await you in this underexplored part of Europe.

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of

the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
