 Chicago and New York share similar backgrounds but have had strikingly different fates. Tracing their fortunes from the 1930s to the present day, Ester R. Fuchs examines key policy decisions which have influenced the political structures of these cities and guided them into, or clear of, periods of economic crisis.
Report into the Loss of the SS Titanic Palgrave Pivot
 Despite the fact that citizens of advanced market democracies are satisfied with their material progress, many are haunted by a spirit of unhappiness. There is evidence of a rising tide of clinical depression in most advanced societies, and in the United States studies have documented a decline in the number of people who regard themselves as happy. Although our political and economic systems are based on the utilitarian philosophy of happiness--the greatest good for the greatest number--they seem to have contributed to our dissatisfaction with life. This book investigates why this is so. Drawing on extensive research in such fields as quality of life, economics, politics, sociology, psychology, and biology, Robert E. Lane presents a challenging thesis. He shows that the main sources of well-being in advanced economies are friendships and a good family life and that, once one is beyond the poverty level, a larger income contributes almost nothing to happiness. In fact, as prosperity increases, there is a tragic erosion of family solidarity and community integration, and individuals become more and more distrustful of each other and their political institutions. Lane urges that we alter our priorities so that we increase our levels of companionship even at the risk of reducing our income.

 Mikhail Gorbachev and Zdenek Mlynar were friends for half a century, since they first crossed paths as students in 1950. Although one was a Russian and the other a Czech, they were both ardent supporters of communism and socialism. One took part in laying the groundwork for and carrying out the Prague spring; the other opened a new political era in Soviet world politics. In 1993 they decided that their conversations might be of interest to others and so they began to tape-record them. This

book is the product of that "thinking out loud" process. It is an absorbing record of two friends trying to explain to one another their views on the problems and events that determined their destinies. From reminiscences of their starry-eyed university days to reflections on the use of force to "save socialism" to contemplation of the end of the cold war, here is a far more candid picture of Gorbachev than we have ever seen before.

 Este estudo objetiva analisar os elementos da cultura popular ao evidenciar questões políticas e estéticas, assim como repensar as presenças dentro do espetáculo "Os Cavaleiros da Triste Figura", realizado pelo grupo teatral sergipano Boca de Cena de Aracaju/SE e que teve como inspiração o romance de Miguel de Cervantes, Dom Quixote de La Mancha. Para tanto, utilizo da minha experiência (escrivência), já que integro o espetáculo enquanto produtor e ator e assim abordo a trajetória do espetáculo em estudo, como forma de situar o emprego do conceito de cultura popular na perspectiva pós-colonial discutindo com conceitos como: decolonial, culturas híbridas, lugar de fala,

entre-lugar e escrivência. Nesse sentido, uso os registros produzidos pelo próprio grupo teatral, bem como todas as evidências empíricas produzidas durante a construção do espetáculo até o seu contato com o público, os depoimentos e as experiências relatadas pelos envolvidos no projeto cênico.

 This is a practical and realistic book for parents on how to recognize and deal with evidence of drug use among their children and their children's friends. The authors help parents to identify the sometimes subtle signs of drug use as well as identifying which drugs are being taken. They show parents how they can then move on to the next, very important step of establishing a constructive and caring dialogue with the child - something many find extremely difficult.

 "Translated with skill and precision, these lectures . . . present the most penetrating analysis of two of Hölderlin's most significant hymns" (Choice). Martin Heidegger's 1934-1935 lectures on Friedrich Hölderlin's hymns "Germania" and "The Rhine" are considered the most significant among Heidegger's lectures on Hölderlin. Coming at a crucial time in his career, the text illustrates Heidegger's turn toward language, art, and poetry while reflecting his despair at his failure to revolutionize the German university and his hope for a more profound revolution through the German language, guided by Hölderlin's poetry. These lectures are important for understanding Heidegger's changing relation to politics, his turn toward Nietzsche, his thinking about the German language, and his breakthrough to a new kind of poetic thinking. "[This translation], including a clear and concise introduction and useful glossaries, attains both accuracy and clarity, rarely faltering in its choice of words."

Report into the Loss of the SS Titanic is a complete re-evaluation of the loss of Titanic based on evidence that has come to light since the discovery of the wreck in 1985. This collective undertaking is compiled by eleven of the world's foremost Titanic researchers - experts who have spent many years examining the wealth of information that has arisen since 1912. Following the basic layout of the 1912 Wreck Commission Report, this modern report provides fascinating insights into the ship itself, the American and British inquiries, the passengers and crew, the fateful journey and ice warnings received, the damage and sinking, rescue of survivors, the circumstances in connection with the SS Californian and SS Mount Temple, and the aftermath and ramifications that followed the disaster. The book seeks to answer controversial questions, such as whether steerage passengers were detained behind gates, and also reveals the names and aliases of all passengers and crew who sailed on Titanic's maiden voyage. Containing the most extensively referenced chronology of the voyage ever assembled and featuring a wealth of explanatory charts and diagrams, as well as archive photographs, this comprehensive volume is the definitive 'go-to' reference book for this ill-fated ship.

The Colour and Colour Naming conference, held in 2015 at the University of Lisbon, offered a chance to explore colour naming processes from a cross-linguistic approach. The conference was an initiative of the working group Lexicography And Lexicology from a Pan-European Perspective, itself part of the COST action European Network of Lexicography. The working group investigates the various ways by which vocabularies of European

languages can be represented in dictionaries and how existing information from single language dictionaries can be displayed and interlinked to better communicate their common European heritage. The proceedings gather together a selection of studies originally presented at the conference. The first section of the volume outlines a Pan-European perspective of colour names; the second section is devoted to the categorisation and lexicographic description of colour terms.

Contemporary religious life is just now emerging from a period following the Second Vatican Council that has been both blessed and burdensome. Its members continue to face some formidable and complex challenges if their congregations are to survive and flourish in the new millennium. The work that lies ahead will

require open minds, a willingness to surrender divisive ideological points of view, and a great deal of sacrifice. This book invites those interested in the future of religious life in America to take another look at the signs of the times and to derive hope from some of the positive elements to be found there: the growing number of men and women religious interested in committing themselves to an explicit life of prayer in welcoming communities dedicated to the proclamation of God's Word and to works of reconciliation and peace aimed at transforming the world in which we live by engaging that world so as to evangelize it. Their challenge? To reclaim the values that lie at the heart of their way of living the Gospel and to express them in new form. This book, while hardly a manual, is practical in nature: it offers a number of specific recommendations about what might be done to further the renewal of religious congregations in the U.S. The questions at the end of each chapter are meant to foster further discussion and, hopefully, action that will advance the cause of consecrated life and its future in America.
