Have you ever considered making money online? Have you heard stories of people who are earning a decent income and wondering how they do it? Would you want to earn some money while sleeping or sitting on your couch enjoying the comfort of your home? If these things excite you and you wish to explore more about them, understand them and most of all, practice them, then this book is the perfect resource for you. A Guide To Investing For Beginners is a book that sheds light on the undeniably awesome opportunities of making money online. The fact is, we all like freedom. Nobody wants to work under company restrictions that require you to be at work at nine and leave at five. Most people want to work in an environment where they are their own boss, and nobody is supervising how

they work. We all want to work with our own timelines and deadlines. And most importantly, we want to work in areas where we get value for our time. If you work in a company, your salary is constant, and the only time there's a possibility of a raise is at the end of the year, even if you work for long hours. But when you work online, you can maximize the income you get. This book, therefore, outlines the options that are available for you that guarantee you more income and freedom. It takes you from the nine-to-five clock and makes you a passive income earner. It moves you from being just an ordinary social media user and makes you an expert who can turn social media into a fulltime job. It makes you realize that you do not require to have saved millions for you to use it as capital to start a business. You can actually start a thriving business venture with just your computer and an internet connection. This book also makes you realize that you do not need a physical store or a huge inventory for you to become an entrepreneur. You can become an entrepreneur and sell things in other people's stores. Inside you will

get answers on: What is passive income? How to create passive income? What is dropshipping and how to earn from it. What is blogging? Ways of earning through blogging What is Amazon FBA and how to make an income from it? What is an online survey? How do you make money through the online survey? What is a cryptocurrency?  Bitcoin, cryptocurrency, blockchain, litecoin, ripple, zcash if these words are new for you, please don't buy this book. Bitcoin had a record-breaking year in 2017, taking a volatile growth course from \$900 at the start of the year to \$20000 by December. Some guys have made a lot of money on bitcoin growth, and I really wanted to take a part of this pie, so I decided to start trading bitcoin with only \$500, but it was not a passive income. During first weeks of my bitcoin trading experience I didn't get any positive results and this process taken a lot of my free time. But then I discovered some tools which allowed me to automate online trading process and to transform my trading in passive income! You can suppose that this method is good only when bitcoin price is growing but what if I say that you could make profit with online trading even when cryptocurrency price is decreasing? After few months of automate online trading my passive income increase to \$5000 per month with overall profit more than \$20000. And again I started only from... \$500. Why this online trading method works for me? Because I made a lot of research, I found a lot of volatile cryptocurrencies which regularly has large candlesticks In this book you will learn: When is the right time to buy cryptoassets? How to invest in bitcoin and where to buy other cryptocurrencies How to make money trading bitcoin and

not only bitcoin How to use and setup existing trading automatization tools What strategies is most profitable and when And much more! For the purpose of making easier transactions, the world, throughout history, has assigned pressed coins in old times to trade products and in present, printed currency was invented. However, this has increased the number of countries that are getting trapped into debt or for sure are facing difficulties in meeting the needs of their fiscal targets in modern era's functions of mass Demand and Supply on an international level. The trend towards a financial society that is more centralized has changed towards seeking decentralized money that could sidestep regulations of a specific nation towards the needs of international market. It is a system of payment that eliminates the requirement of a financial intermediary between two parties wanting to transmit money using the internet. It is a less costly method and at times, it's totally free. The transaction is kept unnamed as well. A man named Satoshi Nakamoto invented a new type of digital currency that could use the method of Peer-to-Peer (P2P) System, in 2008. This network itself is commonly referred as individual's network that is decentralized and these individuals don't need to know each other essentially. This system would allow the network that is decentralized, to work mutually cracking Algorithms by using high-powered rearranged Graphics Cards probably cracking a block that yielded the reward of cryptocurrency. Here Satoshi wanted to be the first one to crack and collect the profits of the famous "Genesis Block" in 2009. After his hard work and huge reward, a number of enthusiasts of computer hardware are attracted to it

and are seeking to obtain a piece from this newly discovered digital gold pit for themselves.

A crypto faucet is a website that will give you satoshis in exchange for viewing ads or completing simple tasks. Crypto currency mining is the process in which transactions between users are verified and added into the block chain. The process of mining is also responsible for introducing new coins into the existing circulating supply and is one of the key elements that allow cryptocurrencies to work as a peer-to-peer decentralized network, without the need for a third party central authority. Cloud mining happens in the "cloud." That basically means that the hardware used for mining is not physically located at your premises, but it is accessed remotely through the internet. An airdrop, in the cryptocurrency business, is a marketing stunt that involves sending free coins or tokens to wallet addresses in order to

promote awareness of a new virtual currency. In Bounty programs, participants get cryptocurrencies in exchange for promotion. A cryptocurrency exchange is any system that operates on the basis of trading cryptocurrencies with other assets. There are also some on-line service designed for those who wants to exchange electronic currencies quickly, safely and at a favorable rate, such as: Webmoney, Perfect Money, AdvCash, Payeer, Skrill, Neteller, Epay, Payza, PayPal, Visa/Master Card, Western union, MoneyGram, Bitcoin, Ethereum, Litecoin. This work will guide the user to a list of online sources to earn money in the internet through crypto faucets, mining, cloud mining, airdrops and bounties.
