An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle. In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud

Negro doctor-grandson of a slave—had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began—a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial

into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly recreates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. *Arc of Justice* is the winner of the 2004 National Book Award for Nonfiction.

"It is very exciting to see all of these studies compiled in one book. It can be read sequentially or just for certain transitions. It also can be used as a template for compilation of other concepts central to nursing and can serve as a resource for further studies in transitions. It is an excellent addition to the nursing literature." Score: 95, 4 Stars. --Doody's
 "Understanding and recognizing transitions are at the heart of health care reform and this current edition, with its numerous clinical examples and descriptions of nursing interventions, provides important lessons that can and should be incorporated into health policy. It is a brilliant book and an important contribution to nursing theory." Kathleen Dracup, RN, DNSc Dean and Professor, School of Nursing University of California San Francisco Afaf Meleis, the dean of the University of Pennsylvania School of Nursing, presents for the first time in a single volume her original "transitions theory" that integrates middle-range theory to assist nurses in facilitating

positive transitions for patients, families, and communities. Nurses are consistently relied on to coach and support patients going through major life transitions, such as illness, recovery, pregnancy, old age, and many more. A collection of over 50 articles published from 1975 through 2007 and five newly commissioned articles, Transitions Theory covers developmental, situational, health and illness, organizational, and therapeutic transitions. Each section includes an introduction written by Dr. Meleis in which she offers her historical and practical perspective on transitions. Many of the articles consider the transitional experiences of ethnically diverse patients, women, the elderly, and other minority populations. Key Topics Discussed: Situational transitions, including discharge and relocation transitions (hospital to home, stroke recovery) and immigration transitions (psychological adaptation and impact of migration on family health) Educational transitions, including professional transitions (from RN to BSN and student to professional) Health and illness transitions, including self-care post heart failure, living with chronic illness, living with early

dementia, and accepting palliative care Organization transitions, including role transitions from acute care to collaborative practice, and hospital to community practice Nursing therapeutics models of transition, including role supplementation models and debriefing models

The Most Famous Man in America

In this riveting historical fiction narrative, National Book Award Finalist John Demos shares the story of a young Puritan girl and her life-changing experience with the Mohawk people. Inspired by Demos's award-winning novel *The Unredeemed Captive*, *Puritan Girl, Mohawk Girl* will captivate a young audience, providing a Native American perspective rather than the Western one typically taught in the classroom. As the armed conflicts between the English colonies in North America and the French settlements raged in the 1700s, a young Puritan girl, Eunice Williams, is kidnapped by Mohawk people and taken to Canada. She is adopted into a new family, a new culture, and a new set of traditions that will define her life. As Eunice spends her days learning the

Mohawk language and the roles of women and girls in the community, she gains a deeper understanding of her Mohawk family. Although her father and brother try to persuade Eunice to return to Massachusetts, she ultimately chooses to remain with her Mohawk family and settlement. *Puritan Girl, Mohawk Girl* offers a compelling and rich lesson that is sure to enchant young readers and those who want to deepen their understanding of Native American history.

History of Anthropology is a series of annual volumes, inaugurated in 1983, each broadly unified around a theme of major importance to both the history and the present practice of anthropological inquiry. *Bones, Bodies, Behavior*, the fifth in the series, treats a number of issues relating to the history of biological or physical anthropology: the application of the "race" idea to humankind, the comparison of animals minds to those of humans, the evolution of humans from primate forms, and the relation of science to racial ideology. Following an introductory overview of biological anthropology in Western tradition, the seven essays focus on a series of particular historical episodes from 1830 to 1980: the emergence of the race idea in restoration France, the comparative psychological thought of the American ethnologist Lewis Henry Morgan, the archeological background of the forgery of the remains "discovered" at Piltdown in 1912, their impact on paleoanthropology in the interwar period, the background and

development of physical anthropology in Nazi Germany, and the attempts of Franx Boas and others to organize a consensus against racialism among British and American scientists in the late 1930s. The volume concludes with a provocative essay on physical anthropology and primate studies in the United States in the years since such a consensus was established by the UNESCO "Statements on Race" of 1950 and 1951. Bringing together the contributions of a physical anthropologist (Frank Spencer), a historical sociologist (Michael Hammond), and a number of historians of science (Elazar Barkan, Claude Blanckaert, Donna Haraway, Robert Proctor, and Marc Swetlitz), this volume will appeal to a wide range of students, scholars, and general readers interested in the place of biological assumptions in the modern anthropological tradition, in the biological bases of human behavior, in racial ideologies, and in the development of the modern human sciences.

teacher in the country."— Howard Zinn James Loewen has revised Teaching What Really Happened, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. This report builds on the OECD Well-being Framework and applies a new perspective

that analyses synergies and trade-offs between climate change mitigation and broader goals such as health, education, jobs, as well as wider environmental quality and the resources needed to sustain our livelihoods through time. This report takes an explicitly political economy approach to the low-emissions transitions needed across five economic sectors (electricity, heavy industry, residential, surface transport, and agriculture) that are responsible for more than 60% of global greenhouse gas emissions.

In the twenty years since its publication, *Celebration of Discipline* has helped over a million seekers discover a richer spiritual life infused with joy, peace, and a deeper understanding of God. For this special twentieth anniversary edition, Richard J. Foster has added an introduction, in which he shares the story of how this beloved and enduring spiritual guidebook came to be. Hailed by many as the best modern book on Christian spirituality, *Celebration of Discipline* explores the "classic Disciplines," or central spiritual practices, of the Christian faith. Along the way,

Foster shows that it is only by and through these practices that the true path to spiritual growth can be found. Dividing the Disciplines into three movements of the Spirit, Foster shows how each of these areas contribute to a balanced spiritual life. The inward Disciplines of meditation, prayer, fasting, and study, offer avenues of personal examination and change. The outward Disciplines of simplicity, solitude, submission, and service, help prepare us to make the world a better place. The corporate Disciplines of confession, worship, guidance, and celebration, bring us nearer to one another and to God. Foster provides a wealth of examples demonstrating how these Disciplines can become part of our daily activities-and how they can help us shed our superficial habits and "bring the abundance of God into our lives." He offers crucial new insights on simplicity, demonstrating how the biblical view of simplicity, properly understood and applied, brings joy and balance to our inward and outward lives and "sets us free to enjoy the provision of God as a gift that can be shared with others." The discussion of celebration, often the most neglected of the

Disciplines, shows its critical importance, for it stands at the heart of the way to Christ. *Celebration of Discipline* will help motivate Christians everywhere to embark on a journey of prayer and spiritual growth.

"She fought a lonely and almost single-handed fight, with the single-mindedness of a crusader, long before men or women of any race entered the arena; and the measure of success she achieved goes far beyond the credit she has been given in the history of the country."—Alfreda M. Duster

Ida B. Wells is an American icon of truth telling. Born to slaves, she was a pioneer of investigative journalism, a crusader against lynching, and a tireless advocate for suffrage, both for women and for African Americans. She co-founded the NAACP, started the Alpha Suffrage Club in Chicago, and was a leader in the early civil rights movement, working alongside W. E. B. Du Bois, Madam C. J. Walker, Mary Church Terrell, Frederick Douglass, and Susan B. Anthony. This engaging memoir, originally published 1970, relates Wells's private life as a mother as well as her public activities as a teacher, lecturer, and journalist in her fight for equality and justice. This updated edition includes a

new foreword by Eve L. Ewing, new images, and a new afterword by Ida B. Wells's great-granddaughter, Michelle Duster.

No one predicted success for Henry Ward Beecher at his birth in 1813. The blithe, boisterous son of the last great Puritan minister, he seemed destined to be overshadowed by his brilliant siblings—especially his sister, Harriet Beecher Stowe, who penned the century's bestselling book *Uncle Tom's Cabin*. But when pushed into the ministry, the charismatic Beecher found international fame by shedding his father Lyman's Old Testament-style fire-and-brimstone theology and instead preaching a New Testament-based gospel of unconditional love and healing, becoming one of the founding fathers of modern American Christianity. By the 1850s, his spectacular sermons at Plymouth Church in Brooklyn Heights had made him New York's number one tourist attraction, so wildly popular that the ferries from Manhattan to Brooklyn were dubbed "Beecher Boats." Beecher inserted himself into nearly every

important drama of the era—among them the antislavery and women’s suffrage movements, the rise of the entertainment industry and tabloid press, and controversies ranging from Darwinian evolution to presidential politics. He was notorious for his irreverent humor and melodramatic gestures, such as auctioning slaves to freedom in his pulpit and shipping rifles—nicknamed “Beecher’s Bibles”—to the antislavery resistance fighters in Kansas. Thinkers such as Emerson, Thoreau, Whitman, and Twain befriended—and sometimes parodied—him. And then it all fell apart. In 1872 Beecher was accused by feminist firebrand Victoria Woodhull of adultery with one of his most pious parishioners. Suddenly the “Gospel of Love” seemed to rationalize a life of lust. The cuckolded husband brought charges of “criminal conversation” in a salacious trial that became the most widely covered event of the century, garnering more newspaper headlines than the entire Civil War. Beecher survived, but his reputation and his causes—from women’s rights to progressive evangelicalism—suffered devastating setbacks that echo to this

day. Featuring the page-turning suspense of a novel and dramatic new historical evidence, Debby Applegate has written the definitive biography of this captivating, mercurial, and sometimes infuriating figure. In our own time, when religion and politics are again colliding and adultery in high places still commands headlines, Beecher’s story sheds new light on the culture and conflicts of contemporary America.
