FIELDS EATON

The Pocket Oxford-Hachette French Dictionary Digital Press

A breakthrough program for triathletes -- beginner, intermediate, and advanced -- showing how to balance training intensity to maximize performance -- from a fitness expert and elite coach. Cutting-edge research has proven that triathletes and other endurance athletes experience their greatest performance when they do 80 percent of their training at low intensity and the remaining 20 percent at moderate to high intensity. But the vast majority of recreational triathletes are caught in the so-called "moderate-intensity rut," spending almost half of their time training too hard--harder than the pros. Training harder isn't smarter; it actually results in low-grade chronic fatigue that prevents recreational athletes from getting the best results. In *80/20 Triathlon*, Matt Fitzgerald and David Warden lay out the real-world and scientific evidence, offering concrete tips and strategies, along with complete training plans for every distance--Sprint, Olympic, Half-

Ironman, and Ironman--to help athletes implement the 80/20 rule of intensity balance. Benefits include reduced fatigue and injury risk, improved fitness, increased motivation, and better race results.

Hero Worship! 1000 Comic Books You Must Read is an unforgettable journey through 70 years of comic books. Arranged by decade, this book introduces you to 1000 of the best comic books ever published and the amazing writers and artists who created them. • See Superman from his debut as a sarcastic champion of the people, thumbing his nose at authority, to his current standing as a respected citizen of the world • Experience the tragic moment when Peter Parker and a generation of Spider-Man fans learned that "with great power, there must also come great responsibility" • Meet classic characters such as Archie and his Riverdale High friends, Uncle Scrooge McDuck, Little Lulu, Sgt. Rock, the kid cowboys of Boys' Ranch, and more. • Enjoy gorgeous full-color photos of each comic book, as well as key details including the title, writer, artist, publisher, copyright information, and entertaining commentary. 1000 Comic Books You Must Read is sure to entertain

and inform with groundbreaking material about comics being published today as well as classics from the past.

Into the Dark (Alexis Carew, #1) Da Capo Lifelong Books

Designed for polytechnic and undergraduate students of electrical/electronics, this book offers short questions and answers at the end of chapters. It is also suitable for those preparing for professional courses like AMIE and AMITE.

Germanic and Romance Inversion in French Galahad Books

Interaction of Radiation with Matter focuses on the physics of the interactions of ionizing radiation in living matter and the Monte Carlo simulation of radiation tracks. Clearly progressing from an elementary level to the state of the art, the text explores the classical physics of track description as well as modern aspects based on condensed mat

There has been an exponential growth of personal GPS device sales over the last few years and Garmin is leading the way. In particular, the Garmin nüvi navigators have revolutionized what we expect from a GPS navigation device, or from any device for that matter. In this handy new Pocket Guide, mobile device expert Jason O'Grady reveals the secrets to using these leading personal GPS devices, including the nüvi 350 which provides automatic routing, turn-by-turn voice directions, and touchscreen control—making it easy to find your way anywhere. In addition the built-in "Travel Kit" offers an MP3 player, an audio book player from Audible.com, a jpeg-format picture viewer, a world travel clock with time zones, a currency converter, a measurement converter, and a calculator. With this essential companion you'll be a Garmin GPS master in no time!

Kiplinger's Personal Finance Random House Worlds

The Race Across America (RAAM) is a nonstop, 3,000-mile bicycle race with a twelve-day limit. The race course traverses deserts and mountains in all kinds of conditions including extreme temperatures, wind, rain, and fog. Racers typically sleep less than four hours per day. The Race Across America is the toughest ultracycling race in the world. It requires physical and mental toughness, but also organization, planning, and an efficient, dedicated, well-trained crew. "One Million Pedal Strokes" tells the story of how rookie Keith Wolcott completed RAAM in 2014, with his wife Ellen as his crew chief. It gives racer, crew chief, and crew perspectives of the race. It contains details about planning and details about decisions that must be made, with sections on potential problems, strategy, training, the mental aspect, a goal pace, crew training, nutrition, clothing, equipment, and recovery—all aimed to be useful for prospective RAAM racers.

Flip-Flop and Don't Stop Alpha Science Int'l Ltd.

In the tradition of Laurie Halse Anderson's *Speak*, Mary Cecilia Jackson's devastating but hopeful YA debut is about a ballerina who finds the courage to confront the abuse that haunts her past and threatens her future. There are two kinds of people on the planet. Hunters and prey I thought I would be safe after my mother died. I thought I could stop searching for new places to hide. But you can't escape what you are, what you've always been. My name is Savannah Darcy Rose. And I am still prey. Though Savannah Rose—"Sparrow" to her friends and family—is a gifted ballerina, her real talent is keeping secrets. Schooled in silence by her long-dead mother, Sparrow has always believed that her lifelong creed—"I'm not the kind of girl who tells"—will make her just like everyone else: Normal. Happy. Safe. But in the aftermath of a brutal assault by her seemingly perfect boyfriend Tristan, Sparrow must finally find the courage to confront the ghosts of her past, or lose herself forever.... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Wearable Sensors in Sport Independently Published

"Implementing Microsoft Dynamics AX 2012 with Sure Step 2012" is a guide that will help you better understand the principles of Sure Step Methodology and enable you to utilize these in a

practical and pragmatic way when implementing Microsoft Dynamics AX 2012. If you are a Dynamics AX consultant, developer, or in a customer resources or sales role that requires guidance and knowledge of the AX business solution space, or the delivery of an AX business solution that meets or exceeds the expectations of your organization, then this book is ideal for you. Basic experience of Dynamics AX and Sure.

Sparrow Springer Science & Business Media

A comprehensive guide to mapping software explains how to interface one's GPS receiver with a computer to create maps, annotate aerial photos, and create 3-D maps. Also includes where to find free software and maps, how to use aerial photos and satellite imagery, and how to view favorite backcountry locations in 3-D.

Microsoft Exchange 2000 Infrastructure Design explains from a system designer's and administrator's perspective Microsoft's Active Directory and its interaction with Exchange 2000, details issues concerned with migration to Exchange 2000, and outlines the specific technology and design issues relating to connectivity with Exchange 2000. Readers will learn to use these technologies to seamlessly co-exist with their current environment, migrate to a native Exchange 2000 environment, and connect to the Internet as well as to other messaging systems. The book's blend of expert instruction and best practices will help any organization create optimal system designs and configurations to support different technical and business scenarios. McCorry and Livengood are experts in Microsoft technologies from Compaq, the world's leading integrator of Exchange systems. In Microsoft Exchange 2000 Infrastructure Design, they spell out the key technologies, features, and techniques IT professionals must master to build a unified and robust Exchange 2000 messaging service. This book details the framework organizations must put in place to most effectively move to Exchange 2000. Detailed explanations of Active Directory integration with Exchange 2000, migration to Exchange 2000 from another system and Exchange 2000 transport, connectivity, and tools Gives readers the benefit of authors' extensive experience Unique description of the software "plumbing" organizations must master to move to Exchange 2000

America's Islands Running Press

The Erie Canal was a preposterous idea. Even President Thomas Jefferson, usually ahead of his time, believed that it could not be built for at least a century, and yet, the Erie Canal came to be just as its planners had thought it would. For the first time in the history of the United States, a cheap, fast route ran through the Appalachians, the mountains that had so effectively divided the West from the East of early America. With the canal, the country's fertile interior became accessible and its great inland lakes were linked to all the seas of the world. Here, from award-winning historian Ralph K. Andrist, is the canal's dramatic and little-told story.

Apollo's Fire Penguin

Sport technology has to be seen from the holistic, as well as inter- and transdisciplinary point of view. Product development requires close collaboration between engineers, athletes, sports scientists, and business managers. It requires an in-depth understanding of engineering disciplines, life and sport sciences, as well as economics. The Impact
