MERCER SHERLYN

American Zombie Gothic Puffin

The fresh, astonishing follow-up to the acclaimed *Low Town*, again combining steely hardboiled crime with dark fantasy. Once he was a hero of the Great War, and then a member of the dreaded Black House. Now he is the criminal linchpin of *Low Town*. His name is Warden. He thought he had left the war behind him, but a summons from up above brings the past sharply, uncomfortably, back into focus. General Montgomery's daughter is missing somewhere in *Low Town*, searching for clues about her brother's murder. The General wants her found, before the stinking streets can lay claim to her, too. Dark, violent, and shot through with corruption, this book is a fantastic successor to a much-heralded fantasy debut.

"A must-read for anyone who wants to understand why they behave as they do." —Art Markman, Ph.D., author of *Smart Thinking: Do you play to win? Or do you play not to lose?* As Tory Higgins and Heidi Grant Halvorson have discovered in their work at Columbia University's Motivation Science Center, everything we do is motivated either by a desire to be better off or to simply hang on to what we've got. And understanding the simple but crucial difference between the two can empower you to motivate yourself and influence everyone around you. Examining how promotion/prevention focus applies across a wide range of situations—from selling products to managing employees to raising children to getting a second date—Halvorson and Higgins show us how to identify, change, and use focus to get the results we want.

This comprehensive study of the intersection of death and religion offers a unique look at how religious people approach death in the twenty-first century. Previous scholarship has largely focused on traditional beliefs and paid little attention to how religious traditions evolve in relation to their changing social context. Employing a sociological approach, "Death and Religion in a Changing World" describes how people from a wide variety of faiths draw on and adapt traditional beliefs and practices as they deal with death in modern societies. The book includes coverage of newly emerging social and religious phenomena that are only just beginning to be analyzed by religion

scholars, such as public shrines, the role of the media, spiritual bereavement groups, and the use of the Internet in death practices.

Too Late to Say Goodbye Penguin

Written within a cloistered environment to protect sources that have yet to be identified, TOO LATE TO SAY GOODBYE is a chilling portrait of two beautiful, successful women whose murders were made to look like suicides. Jenn Corbin appeared to have it all: two little boys, a posh home in the suburbs of Atlanta, and a husband - Dr Bart Corbin, a successful dentist - who was handsome and brilliant. Then, in December 2004, Jenn was found dead with a bullet in her head, apparently by suicide. Only later would detectives learn that another woman in Dr Corbin's past had been found years earlier with nearly the exact same wound to the head, also ruled a suicide. In TOO LATE TO SAY GOODBYE, Ann Rule - working in cooperation with victims' families, police investigators, and sources from Georgia to Australia - unravels the now-sensational deaths. What emerges is an incredible tale of jealous rage; of stunning evidence that runs from the steamy to the macabre; and of a fateful, mind-boggling coincidence that appears to have motivated the killings. The definitive

unravelling of one of the strangest murder investigations of our time, this is the greatest achievement of a truly great writing career.
