Contemporary Issues In Accounting Finance And Corporate

Downloaded from archive.imba.com by guest

CLARK HARPER

Financial Accounting Routledge

This book has papers presented in ICCBP 2021 in the area of Marketing, Finance and Accounting, OB and HRM, Operations and SCM, IT, Strategy, Entrepreneurship and case studies with respect to various functional activities. The book will find some space in the minds of the stakeholders and provide some important strategies for the future.

A User-Oriented Approach Springer Science & Business Media

With the collapse of Enron and other similar scandals, financial reporting and its relation to corporate governance has become a contentious issue. In this revealing book, author Paul Rosenfield involves the reader in exploring contemporary financial reporting and skilfully highlights the deficiencies in current methods. In doing so it provides a user-oriented guide to the salient issues which affect all aspects of financial accounting. Contemporary Issues in Financial Reporting

challenges the reader to critically think through the issues and arguments involved in the practice of financial reporting. It goes to the heart of the most difficult and controversial problems, investigating the major issues and commenting upon the solutions offered in financial reporting literature. The grave defects in current accepted accounting principles are demonstrated and exposed, and alternative solutions are offered. Written by a former Secretary General of the International Accounting Standards Committee, practitioners and accounting scholars alike will find this volume to be an essential addition to their libraries.

Contemporary Issues in Cost Accounting Emerald Group Publishing

Ethical Issues in Accounting offers a comprehensive and accessible introduction for students and teachers of business studies and accountancy as well as the practicing accountant. The book covers the ethical implications of several aspects of accounting: * ethics and taxation * creative accounting * ethics in accounting regulation * ethical dilemmas in the public sector * whistleblowing * various aspects of social accounting, including environmental accounting. The fitness of the accounting profession as guardians of accounting and auditing ethics is also

discussed in detail.

Lessons from Indonesia South-Western Pub

This volume draws together contemporary topics, themes and methodologies in the field of sustainability reporting and assurance to reveal how sustainability information is actually used, interpreted and processed by internal and external users.

Contemporary Environmental Accounting Pearson Education India

Explores advanced accounting concepts & policies by applying them to a range of contemporary accounting issues. Authors: Rankin, Monash University & previously RMIT & University of Southern Queensland; Stanton, University of Newcastle; McGowan, University of South Australia; Ferlauto, University of Western Sydney; Tilling, University of Notre Dame.

Contemporary Issues in Audit Management and Forensic Accounting Pearson Higher Education AU
Contemporary Environmental Accounting: Issues, Concepts and Practice has been written by two of the world's leading experts in the field in order to provide the most comprehensive and state-of-the-art textbook on environmental accounting yet attempted. The book is suitable for both

undergraduate and graduate students and their teachers, professional accountants, and corporate and organisational managers. Although no prior knowledge of environmental accounting is necessary to understand the critical issues at stake, academic accountants will also find that the book provides a useful introduction to the topic. The goals of the book are to discuss and illustrate contemporary conceptual approaches to environmental accounting; to make readers aware of crucial controversial topics; and to offer practical examples of how the concepts have been applied throughout Europe, North America and Australia. In order to increase the usefulness of the book for relevant courses, each chapter concludes with a set of questions for review. This book is essential reading for all those who are interested in how environmental issues influence accounting. A solutions manual is available on request with the purchase of this book.

Contemporary Issues in Sustainability Accounting, Assurance and Reporting Springer

Islamic finance is one of the fastest growing segments in the global financial market. However, while the principles and concepts of Islamic finance date since the founding of Islam, it is only recently that widespread application and practice has developed. Further, while predominately Muslim countries obviously fuel the growth of Islamic finance world-wide, both Islamic and conventional financial institutions in countries with smaller Muslim populations, including the UK, the US, and in Europe, are increasingly providing Shariah-compliant financial products and services. The recent global financial crisis especially has encouraged customers and regulators in many countries to consider Islamic finance as an alternative to conventional financial systems. This book compiles recent and cutting edge research in Islamic finance, including Islamic banking, and provides a useful starting point for discussion and policy formulation for academic, industry and government researchers, practitioners, policymakers, and students alike throughout the world. Contributors to the volume include academics with Islamic finance expertise and practitioners and policymakers with a long history of involvement in the sector from across four countries. This mix ensures that the book has comprehensive coverage of many of the issues involved, is highly accessible to the professional and non-professional reader alike, and that it will serve as an authoritative source of information on Islamic finance for years to come.

Contemporary Issues in Management Accounting Routledge

Issues in Financial Accounting addresses the controversial issues in financial accounting that have been debated by the preparers, users, auditors and regulators of financial statements. Henderson provides the best balance of technical and theoretical coverage in any Financial Accounting text on the market today, with its presentation of real-world examples, current debates and the underlying rationale for the accounting concepts demonstrated. Throughout the text, academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting. The new 15th edition covers significant recent developments to the accounting standards in Australia and is based on the AASB standards and interpretations that have been issued up to the end of 2012. This includes the Australian Accounting Standard Board's (AASB) program of changes to make accounting standards equivalent to International Financial Reporting Standards.

Contemporary Issues and Debates Nova Science Publishers

This easy-to-read accounting theory text contains two distinct, but integrated parts. Part One focuses on two interwoven topics: accounting theory formulation and standard setting in a chronological format. This section analyzes the major historical efforts attempted in the development of an accounting theory. The Conceptual Framework project is studied, and the FASB and how it influences current standard setting is examined. Part Two covers contemporary financial reporting issues as they relate to the FASB's Conceptual Framework. Controversial accounting areas, such as cash flows, accounting for pensions, post-employment benefits and stock options, are studied within the context of the definitions of assets and liabilities provided by the Conceptual Framework. Interesting and challenging cases provide the reader with practical experience in applying accounting theory.

A Discipline in Transition Wiley

Providing a comprehensive account which brings a wide range of countries to the forefront in terms of both comparability and accountability, this study shines a light on the differences in accounting systems between states, and fills a gap in the literature by combining these aspects of public sector accounting and auditing within a single book.

Issues, Concepts and Practice Simon and Schuster

Contemporary Issues in Accounting Regulation looks at accounting regulation in a different way.

The opening chapters explore the tension between the power of the state and the forces of the market, and other aspects of the political dimension to accounting regulation. The book also examines the process of setting accounting standards, highlighting the crucial role of standard setters in assessing the level of public support for an issue in the face of opposing positions taken by powerful interest groups. In addition, the book provides an introduction to the theoretical framework of accounting regulation, looking at choices between controversial accounting methods and at markets that are characterized by asymmetry of information and beliefs. The final chapters of the book are concerned with creative accounting, deregulation of financial reporting by smaller companies, and the link between price regulation and accounting policy choices.

Contemporary Issues in Finance, Accounting, and Consumers' Behavior: Emerald Group Publishing

"We are pleased to offer you with the following book titled "Contemporary Issues in Finance, Accounting and Consumers' Behaviour: Lesson From Indonesia" written by prominent authors who are specialized in the area from the Faculty of Economics and Business, Universitas Indonesia, and other top-ranked universities in Indonesia. The book covers some most recent studies and updated issues in the following areas: 1. Corporate Finance, Governance and Social Responsibility: The articles in this chapter discuss recent issues related with corporate financial management in various contexts, including risk management, risk-taking behaviour, CSR as both an antecedent and a consequence, as well as recent issues in accounting like carbon emission disclosure. 2. Auditing and Accounting Education: This chapters contains articles that analyze how earning management practice could be minimized, how risk-based internal audit could affect credit process, how settlement of government losses is practiced in central government institution, IFRS convergence and discussions on what motivates students to become accounting educators. 3. Islamic Economics and Consumer Behavior: Some issues discussed by the articles in this chapter include Islamic microfinance and women's empowerment, intention to purchase various products and services (e.g. halal personal care products, commercial airline services, motorcycle, muslim fashions, etc.), zakat as a tax deduction and its influence on tax compliance and spirituality in the workplace. This book is strongly recommended to be used as a reference for researchers, students and also business practitioners not only in Indonesia, but also wider audiences that required deeper insights/thoughts in dynamic, changing and global emerging market (i.e. in Indonesia)"--

Principles, Progress and Prospects Routledge

This book gathers the proceedings of the ICAFFI International Conference on Accounting, Finance and Financial Institutions. The main topics addressed include: corporate finance, financial markets and asset pricing, empirical finance, taxation, financial risk management, international finance, financial econometrics, financial reporting and accounting standards, managerial accounting, measuring financial performance, accounting information systems, and current issues in accounting and finance in emerging and other markets. Presenting both cutting-edge research and a broad set of methods, and combining practical and theoretical perspectives, the book offers a valuable resource for researchers, practitioners and regulators alike.

AccountingThe Current Developments in Accounting Beyond the Numbers

Big, unexpected changes are here to stay. Slow, incremental change has become a relic of the past. Today's shifts come fast and big, what Darrell West calls megachanges, in which dramatic disruptions in trends and policies occur on a regular basis. Domestically, we see megachange at work in the new attitudes and policies toward same-sex marriage, health care, smoking, and the widespread legalization of marijuana use. Globally, we have seen the extraordinary rise and then collapse of the Arab Spring, the emergence of religious zealotry, the growing influence of nonstate actors, the spread of ISIS-fomented terrorism, the rise of new economic and political powers in Asia, and the fracturing of once-stable international alliances. Long-held assumptions have been shattered, and the proliferation of unexpected events is confounding experts in the United States and around the globe. Many of the social and political institutions that used to anchor domestic and international politics have grown weak or are in need of dramatic reform. What to do? West says that we should alter our expectations about the speed and magnitude of political and social change. We also need to recognize that many of our current governing processes are geared to slow deliberation and promote incremental change, not large-scale transformation. With megachange becoming the new normal, our domestic and global institutions must develop the ability to tackle the massive economic, political, and social shifts that we face.

Contemporary Accounting Issues Emerald Group Publishing

Explores the subtle, secret influences that affect the decisions we make--from what we buy, to the careers we choose, to what we eat.

Contemporary Issues in Social Accounting Cengage Learning

Other chapters deal with newly emerging concerns in management accounting, including network relations, integrated cost management systems, knowledge management pursuits, environmental management accounting, and accounting and digitisation. Each chapter encompasses discussions of basic premises complemented by insights from modern day practice, research and thought. This makes the book particularly suitable for students in intermediate, advanced and executive level courses in management accounting. It also provides an extensive corpus of discussions, which will inform those in practice. Readers interested in gaining direct insights into specialised management accounting areas will find this book to be an especially valuable reference source

Accounting and Finance Routledge

Studies in Accounting and Finance: Contemporary Issues and Debates, useful for business executives, accounting and finance practitioners, researchers, and students discusses contemporary issues in accounting and finance. Topics discussed include globalization of accounting standards, accounting for financial instruments, fair value accounting, accounting for intangibles, corporate governance and accounting, accounting for social and environmental costs, accounting for employee stock option plans, obstacles to the development of high-quality accounting standards, small company reporting, accounting ethics, technology reporting, and global economic meltdown.

Contemporary Issues in Public Sector Accounting and Auditing Springer Nature

Contemporary Issues in Accounting 2nd Edition is suited to a wide range of courses, particularly relevant to advanced financial accounting subjects at both an undergraduate and postgraduate level. It considers a broad range of financial accounting issues facing contemporary businesses from a range of perspectives, including appropriate theories and research findings. The 2nd edition examines the regulatory setting within which accounting operates from the context of the process of standard setting and the Conceptual Framework. Within this framework one of the most controversial areas of accounting - measurement - is examined in detail. Alternative measurement choices are considered, with intangibles and sustainability reporting being examined in more detail as they are areas with unique measurement challenges. With the increasing use of fair value measurement, we present a comprehensive analysis of this measurement basis, including its application in specific contexts.

Contemporary Issues in Islamic Finance Routledge

Contemporary Studies in Economic and Financial Analysis (CSEF 104) dedicates 16 chapters in articles and studies on Contemporary Issues of Business Economics and Finance. Authors contributed from the International Applied Social Science Congress, held in Turkey.
