Collaborative Information Practices for Organizational Learning Penguin
Award-winning entrepreneur and journalist Shane Snow reveals the counterintuitive reasons why so many partnerships and groups break down--and why some break through. The best teams are more than the sum of their parts, but why does collaboration so often fail to fulfill this promise? In *Dream Teams*, Snow takes us on an adventure through history, neuroscience, psychology, and business, exploring what separates groups that simply get by together from those that get better together. You'll learn: * How ragtag teams--from soccer clubs to startups to gangs of pirates--beat the odds throughout history. * Why DaimlerChrysler flopped while the Wu-Tang Clan succeeded, and the surprising factor behind most failed mergers, marriages, and partnerships. * What the Wright Brothers' daily arguments can teach us about group problem solving. * Pioneering women in law enforcement, unlikely civil rights collaborators, and underdog armies that did the incredible together. * The team players behind great social movements in history, and the science of becoming open-minded. Provocative and entertaining, *Dream Teams* is a landmark work that will change the way we think about people, progress, and collaboration.

Going beyond the message of *Lean In* and *The Confidence Code*, Gannett's Chief Content Officer contends that to achieve parity in the office, women don't have to change—men do—and in this inclusive and realistic handbook, offers solutions to help professionals solve gender gap issues and achieve parity at work. Companies with more women in senior leadership perform better by virtually every financial measure, and women employees help boost creativity and can temper risky behavior—such as the financial gambles behind the 2008 economic collapse. Yet in the United States, ninety-five percent of Fortune 500 chief executives are men, and women hold only seventeen percent of seats on corporate boards. More men are reaching across the gender divide, genuinely trying to reinvent the culture and transform the way we work together. Despite these good intentions, fumbles, missteps, frustration, and

misunderstanding continue to inflict real and lasting damage on women's careers. What can the Enron scandal teach us about the way men and women communicate professionally? How does brain circuitry help explain men's fear of women's emotions at work? Why did Kimberly Clark blindly have an all-male team of executives in charge of their Kotex tampon line? In *That's What She Said*, veteran media executive Joanne Lipman raises these intriguing questions and more to find workable solutions that individual managers, organizations, and policy makers can employ to make work more equitable and rewarding for all professionals. Filled with illuminating anecdotes, data from the most recent relevant studies, and stories from Lipman's own journey to the top of a male-dominated industry, *That's What She Said* is a book about success that persuasively shows why empowering women as true equals is an essential goal for us all—and offers a roadmap for getting there.

High Five! combines the spellbinding charm of a timeless parable with cutting-

edge information about why teams are important and what individuals and organizations can do to build successful ones. Through the story of Alan Foster, a workplace one-man band, High Five! identifies the four key ingredients of winning teams. Although Alan is an effective producer, he is unwilling to share the spotlight by partnering on projects and is fired because, as his boss puts it, "Alan, we need good producers who are good team players, too." It is a bitter pill for him to swallow. While mulling over his disappointment, he takes his son to his grade-five hockey practice, where it is clear that his son's team, the Riverbend Warriors, knows nothing about teamwork, either. When the team's two overworked coaches learn of Alan's plight, they persuade him to join their ranks, and he finds himself charged with teaching himself and the players the meaning of teamwork. With the help of a woman friend—a former girls' basketball coach who has "won more high school basketball championships than anyone"—Alan and the Warriors learn the magic of teamwork and that "none of us is as smart as all of us." With its simple style and easy-to-follow techniques, High Five! is a must-read for anyone seeking to learn the value and power of teamwork. Most of us live our lives by accident - we live as it happens. Fulfilment comes when we live our lives on purpose. 'What are you going to do with your life? What are you doing with your life now?' 'Do you have goals? A vision? A clear sense of why you do what you do?' Almost everyone knows someone who has grappled with at least one of these

questions. The answers can often seem elusive or uncertain. Though there are many paths to follow into the unknown future, there is one way that dramatically increases the chances we will enjoy the journey. To travel with someone we trust. We can try to build a successful career or a happy life alone, but why would we? Together is better. This unique and delightful little book makes the point that together is better in a quite unexpected way. Simon Sinek, bestselling author of *Start With Why* and *Leaders Eat Last*, blends the wisdom he has gathered from around the world with a heartwarming, richly illustrated original fable. Working hard for something we don't care about is called stress. Working hard for something we love is called passion.

Women worldwide are breaking their silence—coming forward against the men that have oppressed

and abused them in the #MeToo movement. It’s an exciting, liberating moment time of female empowerment—but now we have to relearn how to connect with each other. Instead of supporting each other through the challenges of a traditionally male-dominated working world, millions of women have experienced the polar opposite. Studies show that 30% of workplace bullies are female—employing tactics such as cyber bullying, verbal attacks, gossiping, and shunning to use against each other—and many women have garnered “mean girl” reputations as competitive and unsupportive in the workplace. Inside the galvanizing *In This Together*, 40 successful and eminent women from a wide range of fields show us how much we can achieve if we embrace our collective power and strength, instead of competing against each other—such as learning new skills to advance in our careers and ultimately earn more money, working to dramatically increase the number of women in leadership positions, and even recruiting men to take up workplace equality as their own impassioned cause. Empowering, stirring, and actionable, *In This Together* is an indispensable addition to every modern woman’s arsenal in our continued fight for the opportunities we deserve.

Robert Cohen draws on fifty years of acting, directing and teaching experience in order to illustrate how the world's great theatre artists combine collaboration with leadership at all levels, from a production's conception to its final performance. This book challenges the notion that creating brilliant theatrical productions requires tyrannical directors or temperamental designers. Viewing the theatrical production process from the perspectives of the producer, director, playwright, actor, designer, stage manager, dramaturg and crew person, Cohen provides the techniques, exercises and language that promote successful collaborative skills in the theatre. Collaboration is vital to successful theatre making and *Working Together in Theatre* is the first book to show how leadership and collaboration can be combined to make every theatrical production far greater than the sum of its many parts.
