The Power of the Powerless: Citizens Against the State in Central Eastern Europe Stone Bridge Press

At the heart of this book is the problem of war termination. Britain won an almost unbroken string of tactical military victories during an undeclared war against the Republic of Indonesia in the 1960s, yet it proved difficult to translate this into strategic success. Using conflict termination theories, this book argues that British strategy during Confrontation was both exemplary and flawed, both of which need not be mutually exclusive. The British experience in Indonesia

represents an illuminating case study of the difficulties associated with strategy and the successful termination of conflicts. The value of this book lies in two areas: as a contribution to the literature on British counter-insurgency operations and as a contribution to the debates on the problems of war termination in the context of strategic thought.

Confronting Without Offending McGraw Hill Professional

When we are baffled by the insanity of the "other side"—in our politics, at work, or at home—it's because we aren't seeing how the conflict itself has taken over. That's what "high conflict" does. It's the invisible hand of our time. And it's different from the useful friction of healthy conflict. That's good conflict, and it's a necessary force that pushes us to be better people. High conflict is what happens when discord distills into a good-versus-evil kind of feud, the kind with an us and a them. In this state, the brain behaves differently. We feel increasingly certain of our own superiority, and everything we do to try to end the conflict, usually makes it worse. Eventually, we can start to mimic the behavior of our adversaries, harming what we hold most dear. In this "compulsively readable" (Evan Osnos, National Book Award-winning author) book, New York Times

bestselling author and award-winning journalist Amanda Ripley investigates how good people get captured by high conflict—and how they break free. Our journey begins in California, where a world-renowned conflict expert struggles to extract himself from a political feud. Then we meet a Chicago gang leader who dedicates his life to a vendetta—only to realize, years later, that the story he'd told himself about the conflict was not quite true. Next, we travel to Colombia, to find out whether thousands of people can be nudged out of high conflict at scale. Finally, we return to America to see what happens when a group of liberal Manhattan Jews and conservative Michigan corrections officers choose to stay in each other's homes in order to understand one another better, even as they continue to disagree. All these people, in dramatically different situations, were drawn into high conflict by similar forces, including conflict entrepreneurs, humiliation, and false binaries. But ultimately, all of them found ways to transform high conflict into good conflict, the kind that made them better people. They rehumanized and recategorized their opponents, and they revived curiosity and wonder, even as they continued to fight for what they knew was right. People do escape high conflict. Individuals—even entire communities—can short-circuit the feedback loops of outrage and blame, if they want to. This is an “insightful and enthralling” (The New York Times Book Review) book—and a mind-opening new way to think about conflict that will transform how we move through the world.

Powerful Phrases for Dealing with Difficult People John Wiley & Sons

With lucid analysis and engaging storytelling, USA Today senior diplomatic correspondent Barbara Slavin portrays the complex love-hate relationship between Iran and the United States. She takes into account deeply imbedded cultural habits and political goals to illuminate a struggle that promises to remain a headline story over the next decade. In this fascinating look, Slavin provides details of thwarted efforts at reconciliation under both the Clinton and Bush presidencies and opportunities rebuffed by the Bush administration in its belief that invading Iraq would somehow weaken Iran's Islamic government. Yet despite the dire situation in Iraq, the Bush administration appears to be building a case for confrontation with Iran based on the same three issues it used against Saddam Hussein's regime: weapons of mass destruction, support for terrorism, and repression of human rights. The U.S. charges Iran is supporting terrorists inside and outside Iraq and is repressing its own people who, in the words of U.S. officials, "deserve better." Slavin believes the U.S. government may be suffering from the same lack of understanding and foresight that led it into prolonged warfare in Iraq. One of the few reporters to interview Iranian president, Mahmoud Ahmadinejad, as well as his two predecessors and scores of ordinary Iranians, Slavin gives insight into what the U.S. government may not be taking into account. She portrays Iran as a country that both adores and fears America and has a deeply rooted sense of its own historical and regional importance. Despite government propaganda that portrays the U.S. as the "Great Satan," many Iranians have come to idolize staples of American pop culture while clinging to their own traditions. This is clearly not a relationship to be taken a face value. The interplay between the U.S. and Iran will only grow more complex as Iran moves toward becoming a nuclear power. Distrustful of each other's intentions yet longing at some level to reconcile, neither Tehran nor Washington know how this story will end.

The key to a harmonious, highly effective work environment is not by ensuring you work among carbon-copies of yourself whose personalities never clash with one another or with you. That pipe dream could not ever happen, nor would it result in a successful team collaboration even if it could. Instead, most of us are going to work today with individuals who at times come across as incompetent, lazy, spotlight-hugging, whiny, or backstabbing. And then tomorrow we go to work with them again . . . and again . . . and again. Like it or not, the bulk of our waking hours are spent with people at work--people who can grate on our nerves. Therefore, learning to interact effectively with difficult employees, colleagues, and bosses is an absolute essential for our success. With *Powerful Phrases for Dealing with Difficult People*, anyone can learn how to confront head-on the difficult situations that can arise when dealing with these personalities, before they fester and spread. Helpful features inside this practical and easy-to-use book include: • Thirty common personality traits, behaviors, and workplace scenarios along with the phrases that work best with each • Nonverbal communication skills to back up your words • Sample dialogues that demonstrate how phrasing improves interactions • A five-step process for moving from conflict to resolution • “Why This Works” sections that provide detailed explanations • Button-pushing situations are going to come up today at work--and tomorrow too. Don't let them rent space inside of you and turning everything to mold. Instead, choose to deploy simple phrases to regain control

and resolve conflicts. When you do, you, your colleagues, and your company will be all the better for it!

From intimate relationships to global politics, Sarah Schulman observes a continuum: that inflated accusations of harm are used to avoid accountability. Illuminating the difference between Conflict and Abuse, Schulman directly addresses our contemporary culture of scapegoating. This deep, brave, and bold work reveals how punishment replaces personal and collective self-criticism, and shows why difference is so often used to justify cruelty and shunning. Rooting the problem of escalation in negative group relationships, Schulman illuminates the ways cliques, communities, families, and religious, racial, and national groups bond through the refusal to change their self-concept. She illustrates how Supremacy behavior and Traumatized behavior resemble each other, through a shared inability to tolerate difference. This important and sure to be controversial book illuminates such contemporary and historical issues of personal, racial, and geo-political difference as tools of escalation towards injustice, exclusion, and punishment, whether the objects of dehumanization are other individuals in our families or communities, people with HIV, African Americans, or Palestinians. *Conflict Is Not Abuse* is a searing rejection of the cultural phenomenon of blame, cruelty, and scapegoating, and how those in positions of power exacerbate and manipulate fear of the "other" to achieve their goals. Sarah Schulman is a novelist, nonfiction writer, playwright, screenwriter, journalist and AIDS historian, and the author of eighteen books. A Guggenheim and Fulbright Fellow, Sarah is a Distinguished Professor of the Humanities at the City University of New York, College of Staten Island. Her novels published by Arsenal include *Rat Bohemia*, *Empathy*, *After Delores*, and *The Mere Future*. She lives in New York.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

How to Work Together for the Sake of the Gospel Most churches in the U. S. have less than 75 members. Many of these congregations barely have enough money to pay their pastor's salary, much less launch a movement or host a conference. How can they hope to make an impact beyond their own walls? In *Churches Partnering Together*, Chris Bruno and Matt Dirks show how all churches—big and small—can do more together than they can do apart. Looking to the New Testament for guidance, this practical book will help pastors, church leaders, and laypeople alike think creatively about gospel-driven church partnerships in their own communities and around the world.

The Skills You Need to Know to Handle Conflicts at Work, at Home and in Life Crown

Named a Most-Anticipated Book of 2022 by Entertainment Weekly, Lit Hub, and AV Club Oscar-nominated screenwriter, director, and actor Sarah Polley's *Run Towards the Danger* explores memory and the dialogue between her past and her present These are the most dangerous stories of my life. The ones I have avoided, the ones I haven't told, the ones that have kept me awake on countless nights. As these stories found echoes in my adult life, and then went another, better way than they did in childhood, they became lighter and easier to carry. Sarah Polley's work as an actor, screenwriter, and director is celebrated for its honesty, complexity, and deep humanity. She

brings all those qualities, along with her exquisite storytelling chops, to these six essays. Each one captures a piece of Polley's life as she remembers it, while at the same time examining the fallibility of memory, the mutability of reality in the mind, and the possibility of experiencing the past anew, as the person she is now but was not then. As Polley writes, the past and present are in a “reciprocal pressure dance.” Polley contemplates stories from her own life ranging from stage fright to high-risk childbirth to endangerment and more. After struggling with the aftermath of a concussion, Polley met a specialist who gave her wholly new advice: to recover from a traumatic injury, she had to retrain her mind to strength by charging towards the very activities that triggered her symptoms. With riveting clarity, she shows the power of applying that same advice to other areas of her life in order to find a path forward, a way through. Rather than live in a protective crouch, she had to run towards the danger. In this extraordinary book, Polley explores what it is to live in one's body, in a constant state of becoming, learning, and changing.

#1 NEW YORK TIMES BESTSELLER • Discover the life-changing memoir that has inspired millions of readers through the Academy Award®-winning actor's unflinching honesty, unconventional wisdom, and lessons learned the hard way about living with greater satisfaction. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE GUARDIAN** “McConaughey's book invites us to grapple with the lessons of his life as he did—and to see that the point was never to win, but to understand.”—Mark Manson, author of *The Subtle Art of Not Giving a F*ck* I've been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life's challenges—how to get relative with the inevitable—you can enjoy a state of success I call “catching greenlights.” So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it's medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot's license, going to church without having to be born again, and laughing through the tears. It's a love letter. To life. It's also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.

Britain's Conflict with Indonesia Routledge

Using conversation analysis to explore the nature of argument, asymmetry, and power on talk radio, this book focuses on the interplay between the structures of talk in interaction and the structures of participation on talk radio. In the process, it demonstrates how conversation analysis may be used to account for power as a feature of institutional discourse. To address a number of key issues in the study of institutional communication and conflict talk, a case study of a British talk radio show is presented, stimulating some penetrating questions: * What is distinctive about interaction on talk radio? * What is the basis of the communicative asymmetries between hosts and callers? * How are their arguments constructed, and in what ways does the setting enable and constrain the production of conflict talk? These questions are answered through the detailed study of conversational phenomena, informed by a critical concern for the relationship between talk and social structure. This book will be of interest to a wide readership consisting of academics, advanced undergraduates, and postgraduate students in a range of courses in sociology, linguistics, media/communication/cultural studies, anthropology, and popular culture.

Families Spend 50 Minutes Per Day Arguing, Do You Want to Be Wasting Your Life in Conflict? The right tools can help you turn fights into positive learning experiences and even opportunities for growth A new study reveals shocking statistics - we spend an average of 49 minutes per day fighting with family members! In addition, 2.8 hours of work time per week is also dedicated to conflicts. Instead of being focused on something productive, we're wasting energy on interactions that are very often meaningless and sometimes - destructive. Nobody likes conflict, yet we seem to be dedicating an awfully long amount of time to it. We argue with loved ones. We argue at the office. And to top it all off - we argue on social media! Do you know why we engage in conflict? The number one reason people give when being asked about why they'd get in a fight (a digital or in real life) is "they started it!" In other words, most of us never own up to our actions or take responsibility for the things that we do. Society tends to have a pretty negative view on confrontation, which is why most of us will never learn how to disagree in a meaningful way and how to actually start perceiving conflict as a learning opportunity. Conflict, however, can be a truly beneficial thing because: It allows us to learn more about others New ideas can be born during a heated interaction An opportunity is provided to verbalize needs that would have been unaddressed otherwise It can teach many valuable skills: patience, active listening, collaboration and flexibility When done correctly, it can lead to a resolution Which brings us to the next point - learning to manage conflict in the correct way so that a resolution can be achieved. In *Dealing with Conflict*, you'll discover: Some of the most common causes of arguments, disagreements and conflicts in the workplace, at home or among friends What's active listening and why you need to start practicing it today The importance of accepting responsibility for conflicts and seeing the argument from another perspective The power of acknowledging you're wrong What set of skills and tools every person needs to develop for effective conflict management The strategies for resolving a conflict like a boss Digital conflict, how it came in existence, what can be done about it and how to manage bullying The importance of knowing when the situation can't be salvaged and you need to quit And much more. As a bonus, you'll see real-life example of arguments and conflict

situations and the best ways to diffuse those through open and honest communication. Most of us are non-confrontational by nature. This is why we tend to blow the fear of conflict out of proportion. Whether you're fighting with your significant other over work-life balance or you're being approached by an angry coworker who thinks you took all the credit for a joint project, fear could paralyze you and make you act in an irrational way. You need a shift in mindset to start seeing conflict as a healthy opportunity to grow. *Mastering Confrontation* by Robert Hunt can help you change your mindset gradually using concrete steps. Scroll up and click the "Add to Cart" button to master uncomfortable situations, improve your communication and learn the ins and outs of conflict resolution.

"A Land With A People began as a storytelling project of Jewish Voice for Peace-New York City and subsequently transformed into a theater project performed throughout the New York City area. A Land With A People elevates rarely heard Palestinian and Jewish voices and visions. It brings us the narratives of secular, Muslim, Christian, and LGBTQ Palestinians who endure the particular brand of settler colonialism known as Zionism. It relays the transformational journeys of Ashkenazi, Mizrahi, Palestinian and LGBTQ Jews who have come to reject the received Zionist narrative. Unflinching in their confrontation of the power dynamics that underlie their transformation process, these writers find the courage to face what has happened to historic Palestine, and to their own families as a result. Stories touch hearts, open minds, and transform our understanding of the "other"-as well as comprehension of our own roles and responsibilities. A Land With a People emerges from this reckoning. Contextualized by a detailed historical introduction and timeline charting 150 years of Palestinian and Jewish resistance to Zionism, this collection will stir emotions, provoke fresh thinking, and point to a more hopeful, loving future-one in which Palestine/Israel is seen for what it

is in its entirety, as well as for what it can be"--

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.
