Am I with the right person? Will our love last? Men and women in love are haunted by these questions. Love -- especially why it blossoms in relationships and why it later dies -- is a mystery to them. Will Our Love Last? A Couple's Road Map solves this mystery by giving readers a new understanding of love -- an understanding they can actually use to evaluate the soundness of their relationships and to

answer confidently the crucial questions that mystified them before. Based on hundreds of cases in his twenty-four years as a marital therapist and twenty-nine years in his own happy marriage, Sam R. Hamburg, Ph.D., explains how compatibility is the key to lasting love. He shows how compatibility on three major dimensions -- the Practical Dimension, the Sexual Dimension, and the Wavelength Dimension -- is essential to the mutual understanding and

affirmation that keep love alive, and he leads readers through a simple but systematic procedure for assessing their compatibility with a romantic partner in these crucial relationship areas. Dr. Hamburg introduces a new technique, The Hand Rotation Exercise, to help readers express their degree of compatibility and then convey that visually to their partner. In addition, he presents two new original techniques for working through relationship conflicts and coming to agreement on

difficult issues: His Way/Her Way and The Long Conversation. Written in a clear, direct style that is free of jargon, *Will Our Love Last?* empowers readers to make important relationship decisions that are intellectually and emotionally informed. *Will Our Love Last?* will help couples trying to decide if they should take the next step to a more committed relationship. It will aid individuals embarking on a new relationship, or who are between relationships, to evaluate the rightness

of a new or prospective partner. And it will assist people who are already in committed relationships to make an honest assessment of their prospects for happiness with their current partner. People have it in their power to make sure that they truly are with the right person. *Will Our Love Last?* shows the way. **The Mission of Love**

situations. One of the eternal problems of mankind is that of love and hate. Why and how does it happen that we love this one of our fellow-men, feel safe in his affection, expect

satisfactions of our needs from him and are attracted to him, while we hate and avoid other? Ever since the publication of Freud's first works one of the main objects of psycho-analytic research has been the study of these powerful currents of the human mind. The author contributed several important papers on this subject, and Primary Love and Psychoanalytic Technique is a collection of his material from 1930 to 1952. The first half of this volume is a collection of all his papers on this

topic. The first, "Psycho-Sexual Parallels to the Fundamental Law of Biogenetics", is an attempt to trace the development of the erotic instincts from their earliest biological beginnings in unicellular organisms to their highest manifestations in human beings. Other papers deal with the problems of "Genital Love". "Transference of Emotions", of "Love and Hate" and so on. *I Love You More* Createspace Independent Publishing Platform
