The amazing
and dramatic
story of Bill
Lester, one of
the most well-
known
NASCAR
drivers in

history—and a
pioneer whose
determination
and spirit has
paved the way
for a new
generation of
racers.
Winning in
Reverse tells
the story of
Bill Lester
whose love for
racing
eventually
compelled him

to quit his job as an engineer to pursue racing full time. Blessed with natural talent, Bill still had a trifecta of odds against him: he was black, he was middle aged, and he wasn't a southerner. Bill Lester rose above it all, as did his rankings, and he made history time and time again, becoming the first African American to race in NASCAR's Busch Series, the first to participate in the Nextel

Cup and the first to win a Pole Position start in the NASCAR Craftsman Truck Series. Whether you are contemplating a career or lifestyle change, challenging social norms, or struggling against prejudice or bigotry, *Winning in Reverse* is a story for sports fans and readers everywhere about the power of perseverance in the face of adversity. *Black Newspapers*

*American

that question.
An executive
with nearly
thirty years in
the trenches
of the hard-
nosed Detroit
automobile
industry,
Richard E.
"Dick" Dauch
had long

dreamed of running his own manufacturing company. From his first job on the plant floor at General Motors to his crucial role in helping to rescue Chrysler from the brink of bankruptcy, Dauch focused passionately, and relentlessly, on quality, productivity, and flexibility in manufacturing. In 1993 he took on the challenge of his life, buying a lagging axle supply and parts business

from GM, along with five rusting, unprofitable, union-controlled, near-decrepit plants in the heart of a crime-ridden Detroit and a deteriorating environment in Buffalo, New York. The newly created "stand-alone" company was named American Axle and Manufacturing. Dauch set out to create a world-class industrial automotive manufacturer. He bought and bulldozed the crack, liquor, and

prostitution businesses that surrounded the company and rebuilt the plants. He upward educated, trained, and expanded the skill sets of the workforce, struck tough bargains with unions, and solved massive quality problems that were costing tens of millions every year and undermining customer satisfaction. Within one year of opening the doors, AAM had turned an

astounding \$66 million in profit. In American Drive, Dauch narrates the story of AAM against the backdrop of his nearly fifty years in the auto industry, from its glory days to its decline in the face of foreign competition, government bailouts, battles with unions, and the recent Great Recession. Tough, smart, inspiring, high-energy, and opinionated, Dauch offers memorable lessons on

leadership, advanced product technology, communication, negotiation, and making profits in the most difficult times. Dauch's story transcends the auto industry and draws a blueprint for job creation, manufacturing competitiveness, economic growth, and excellence in America. The Unknown Driver CarTech Inc The Unknown Driver is a story about a Good Samaritan helping a lady

and her child who is suddenly in danger after coming back from China. The individuals now want to kill the Good Samaritan for helping the lady get away. The lady has something special that these individuals want. The Good Samaritan Prays to God asking him to let this accused Murder who gave his life to Christ five years ago to help her. Now this Christian who barely

listens to the Holy Spirit, now must put their trust in the voice of God to help someone they don't even know.

Penguin Books Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In

this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century. *The Harbour Report*

Motorbooks For gearheads who want to build or modify popular LS engines, How to Build and Modify GM LS-Series Engines provides the most detailed and extensive instructions ever offered for those

modding LS engines through the Gen IV models. The LS1 engine shook the performance world when introduced in the 1997 Corvette. Today the LS9 version far eclipses even the mightiest big-blocks from the muscle car era, and it does so while meeting modern emissions requirements and delivering respectable fuel economy. Premier LS engine technician Joseph Potak

addresses every question that might come up: Block selection and modifications Crankshaft and piston assemblies Cylinder heads, camshafts, and valvetrain Intake manifolds and fuel system Header selection Setting up ring and bearing clearances for specific uses Potak also guides readers through forced induction and nitrous oxide applications. In addition, the book is

fully illustrated with color photography and detailed captions to further guide readers through the mods described, from initial steps to final assembly. Whatever the reader's performance goals, How to Build and Modify GM LS-Series Engines will guide readers through the necessary modifications and how to make them. It's the ultimate resource for building the

ultimate LS-series engine! The Motorbooks Workshop series covers topics that engage and interest car and motorcycle enthusiasts. Written by subject-matter experts and illustrated with step-by-step and how-it's-done reference images, Motorbooks Workshop is the ultimate resource for how-to know-how. *Automotive Oscilloscopes* Simon and Schuster This new color

edition is essential for the enthusiast who wants to get the most performance out of this new engine design but is only familiar with the older Chevy small-blocks. Covered is everything you need to know about these engines, including the difficult engine removal and installation, simple engine bolt-ons, electronic controls for the Generation III engine, and detailed engine builds

at four different power levels. D and B Million Dollar Directory Metro Books Includes advertising matter. Automotive News Plunkett Research, Ltd. This new revised and updated edition is the ultimate buyer's/seller's/user's guide for American automobiles manufactured from 1805 to 1942. With more than 5,000 photos and histories of cars and their companies written by one

of America's most respected automotive historians, this is the most extensive automobile reference available. Standard Catalog of American Cars, 1805-1942 Motorbooks International OCD sufferers have difficulty concentrating, and often their compulsions--needless checking, excessive worrying, and even repetitive actions like rewashing--make it

difficult for them to lead their everyday lives. Misdiagnosed or untreated OCD can become chronic and more severe. It is also hereditary, so parents who have OCD may pass symptoms on to their children. Written by an OCD sufferer with a technical review by a licensed psychologist, this practical guide covers: * Diagnosis and the identification of symptoms * The types of

OCD * Current treatment options * Some coping strategies * Support groups * Useful resources like an OCD self-test With The Everything® Health Guide to OCD, people who suffer from the disorder can rest easy, knowing they have the knowledge and medical information to help them recognize and cope with the symptoms and decide upon treatment. AUTHOR: Chelsea Lowe (New England)

is a professional writer who has been living with OCD for 7 years (she was diagnosed at the age of 37). She has written about the disorder for the Philadelphia Inquirer, the New York Daily News, and TV Guide. Her other publication credits include Newsweek, National Public Radio, Newsday, the Los Angeles Times, the Boston Globe, Technology Review, and the Boston Herald. Judith A. Lytel,

Psy.D. (Amherst, MA), is a licensed psychologist who has been in private practice for more than 12 years, treating patients with anxiety disorders such as OCD. She was a Clinical Instructor and Preceptor in Obstetrics and Gynecology at Tufts University School of Medicine. A graduate of Penn State, Johns Hopkins, and the Massachusetts School of Professional Psychology, Dr. Lytel

completed a postdoctoral fellowship in Behavioral Medicine at Harvard-affiliated Cambridge Hospital.
