 Betrothed as a young girl, Rachel Solomon faces a loveless union to an older man as a promise to her ailing father. Her young math teacher befriends her in her senior year of high school, and Rachel gradually divulges her growing fears. Before the year is finished, David Christianson can no longer deny his love, and pledges to rescue Rachel from the arranged marriage. They are married in the judge's chambers in downtown Boston at the end of the school year. But their honeymoon is short-lived. When Rachel's father dies of heart failure, her former fiancé and her scheming Aunt Hazel team up and successfully separate the newlyweds. Baffled and angry, David finishes grad school and takes a teaching assignment in the Midwest. Disillusioned, Rachel moves in with her Aunt Ruth and Uncle Saul in the Midwest. Mere miles apart for years without realizing it, they are finally reunited in answer to their son's timely prayer the day Rachel registers him in his father's school.

 John Eldredge revises and updates his best-selling, renowned Christian classic. God designed men to be dangerous, says John Eldredge. Simply look at the dreams and desires written in the heart of every boy: To be a hero, to be a warrior, to live a life of adventure and risk. Sadly, most men abandon those dreams and desires-aided by a Christianity that feels like nothing more than pressure to be a "nice guy." It is no wonder that many men avoid church, and those who go are often passive and bored to death. In this provocative book, Eldredge gives women a look inside the

true heart of a man and gives men permission to be what God designed them to be-dangerous, passionate, alive, and free.

The heart is our most important organ and perhaps our most mysterious. Every day it pumps 9000 litres of blood and beats around 100,000 times. But the heart is more than just a pump. In all major human cultures, it is seen as the source of love, sympathy, joy, courage, strength and wisdom. Why is this so? Having witnessed the extraordinary complexity and unpredictability of human hearts in the operating theatre -

each one individual in its make-up, like a fingerprint – heart surgeon Reinhard Friedl went on a search for answers. He examined closely the latest findings in neurocardiology and psychocardiology, and in *The Beat of Life* he shares his discoveries. In the tradition of Giulia Enders' *Gut* and Norman Doidge's *The Brain That Changes Itself*, he uses riveting personal stories to illustrate the complex relationship between the heart, the brain and the psyche. *The Beat of Life* ends with a plea: that we recognise the heart's wisdom and adopt a more heart-centred way of living, which will lead to greater health.

The Beat of Life Thomas Bouregy Lillianna Zook and Thomas Girod have been friend their whole lives but Lillianna's family moves to another state and she fears her friendship with him will be lost forever. During a chance meeting Lillianna learns that Thomas is in need of money so in order to help her friend Lillianna finds a way to make a lot of money quickly.
