**Blogging for Profit: \$100,000/Year Step by Step Guide How to Make Passive Income Wealth Using Killer SEO Methods, Affiliate Marketing Techn** Independently Published  
 One of the keys to getting rich and creating wealth is to understand the different ways in which income can be generated. It's often said that the lower and middle-class work for money whilst the rich have money work for them. The key to wealth creation lies within this simple statement. Imagine, rather than you working for money that you instead made every dollar work for you 40hrs a week. Better still, imagine each and every dollar working for you 24/7 i.e. 168hrs/week. Figuring out the best ways you can make money work for you is an important step on the road to wealth creation. One of the reasons people find it difficult to make the leap from earned income to more passive sources of income is that the entire education system is actually pretty much designed to teach us to do a job and hence rely largely on earned income. However, to become rich and create

wealth you will be required to cross the chasm from relying on earned income only. If you search the internet for "passive income", you may find a definition or two, but mostly, what you find are websites trying to sell you on the passive-income-flavor-of-the-day. It's frustrating, I know. I don't know about you, but before I jump into any opportunity or even before I take a trip, I like to do my research. That being said, there are a lot of good opportunities out there. But before you start spending money, This BOOK discuss what passive income is, what it isn't, and top 50 online passive income methods you can start creating to earn \$100000. What are you still waiting for?

The United States, worth \$300 million in car sales master Grant. Grant Cardone has recently been very popular with financial media. Of course, the content he shares is indispensable to the business, the success of sales, self-motivation, etc.; but unlike the general business guru, this dude likes to talk, including financial management. These five steps are also the highlights of his recent sharing: Calden Financial Management Five Steps Set goals, prohibit material desires, increase revenue, continue to invest, and execute repeatedly The first step is to set an ultimate goal of accumulating wealth before retirement, and then earn one-tenth of this goal with the fastest speed. For example, "If you want to have \$10 million before retirement, then your first priority is to make a quick profit of one million dollars." This bucket of gold is important for you to create more wealth. Investment principal. In the second step, you must reject all "showing" consumption before you earn the first pot of gold, such as buying a more dazzling car or buying a beautiful watch that will envy your friends. In the third step, after you have the first bucket of gold, you must work hard to increase your work income, or reduce your expenses. You must use the fastest speed to achieve the realm of "40% of work income per month." The fourth step is to continue to invest in the first barrel of gold and the remaining money of the month, invest in the target with "long-term value-added opportunities," and hold it for a long time, and do not arbitrarily redeem it. Or, invest in financial tools that can consistently create cash flow. The fifth step is to repeat the first four steps until you find that the passive income generated through the investment has "equal to or exceeds" your main work income. "This means you no longer need to spend your time or energy to make money. Congratulations! You can be yourself without fear." Did you find out? Although the initial goal setting was 10 million US dollars, in the end, Calden was based on "passive income over salary" as a measure of the work of retirement financial projects. The five major steps he has proposed are not so much to "earn wealth," but rather to let you "accumulate wealth" step by step, and transfer funds into passive income commodities before retirement. Today, Calden's identity is no longer a super salesman, more of the title of a well-known financial coach in the United States, it writes a lot of books related to financial management, teach readers how to accurately target the financial goals of each stage, and create passive income. For many wealth management people, the words "passive income" do have some magic. The so-called passive income refers to the source of income that does not have to be laborious and laborious, but also allows the money to flow smoothly and automatically. Among the various types of investment and wealth management products on the market, there are indeed many tools that are "limited in risk and can be fixedly distributed." But you will also find that in Calden's plan to create passive income, it is necessary to have a long-term resistance to passive income over salary. The five steps he proposed included two important elements: the principal, which included enough first bucket of gold and monthly investment amount; time, which is a process that requires long-term discipline and slow landing. If you want to create your passive income, this book will be worthy of your reference.

Many people have tried using social media to start a business or just integrate their small business on social media but failed. Places like Facebook and twitter are Goldmines but only few people know the exact secret used by the Gurus. This is because the less you know the less competition they have to deal with, and the easier they make profit. On this book, the step by step procedures on how to create a passive income on Facebook is revealed. This involves different income generation methods that can lead to reoccurring and growing stream of profit. You will be shown exactly how one of these methods generated over \$2000 on a single Facebook account within few weeks. Odessa Berry, owner of a Pet Clinic in New York used one of these methods and made in 2 months what she used to make in a year. After reading just the First and Second Chapters of this book you will start to see Facebook in a different way, to use each and every feature for boosting your income on a daily basis. Delay causes the ineffectiveness of a method. This principle also applies to social media marketing; the starters always do better. Most so-called social media marketers don't even know these strategies exist. For example, in Chapter 8, The Facebook Killer ROI method was used last week to reach 1.9 million users with the simple tweak listed, which generated over 17,800 sales on a single product. Today you can take advantage of this new tweak and independently create the life you want.

Learn How to make money online which is super easy! Many people claim that they earn hundreds and thousands of dollars a month while staying in the comfort of their home and working online. Other people who drag themselves to the office five times a week (sometimes more) just could not believe it. So, is it really possible or is this another marketing hype just to grab attention but is too good to be true? Well, the truth is that yes, it can be done and that there are many people who are already doing it. However, making money online requires you to have the right knowledge, and you need to invest time and effort to make it work. But as far as making money is concerned, making money online is definitely doable, and that you can do it, too. By the time you finish reading this book, you will have the keys that will allow you to make \$100-\$100,000 solely from your online income. You might be wondering, why is there a big range between \$100 and \$100,000-this is because the amount that you will earn will depend on how much efforts you are willing to give. Of course, just like any other venture, there is no 100% guarantee that you will receive positive profits in return, but if you have the right knowledge and if you apply this knowledge effectively, then there is no reason why you could not make a six-figure income in just a few months. There are already a good number of people who are earning a living from their online ventures. Some of them have even quit their office job and now work full-time in the comfort of their home in pajamas while sipping a cup of coffee continuously raking in cold, hard cash. If this is the lifestyle that you want, a life where you are in control of everything and do not have to go to an office and please your boss every now and then, then this book is definitely for you. So, can you make money online? Yes, you can! In fact, the \$100-\$100,000 income range is just an example. You can earn more than \$100,000. The only limitation is the one that you put on yourself.
