You can search for tests as well as find information about laboratory operations and policies, our accreditation and licensing, and other helpful resources. Each test entry contains information about the testing site, method ...
 UCSF Clinical Laboratories Online Manual
 What is a medical laboratory science

professional? Medical laboratory science professionals, often called medical laboratorians, are vital healthcare detectives, uncovering and providing laboratory information from laboratory analyses that assist physicians in patient diagnosis and treatment, as well as in disease monitoring or prevention (maintenance of health).
 What is a Medical Laboratory Science Professional?
 A medical laboratory or clinical laboratory is a laboratory where clinical pathology tests are carried out on clinical specimens to obtain information about the health of a patient to aid in diagnosis, treatment, and prevention of disease. Clinical Medical laboratories are an example of applied science, as opposed to research laboratories that focus on basic science, such as found in some ...
