PALMER NELSON

Realization 2020 Routledge
REALIZATION 2020 is the crux of different events that happened during 2020. It is going to help you go through all the important events that happened in 2020. Pooja Pruthi has shared her thoughts and Learnings during 2020. 2020 was one unforgettable year and we cannot deny the fact that it has shown the true colors of life. This book will help you learn basic lifestyle and how you can build your personality by taking care of few things. Let's go back and revive what all happened and realize what all we have to take care of in future.

This technical report provides information and techniques for assessing

water control gates, focusing particularly on those controlling reservoirs impounded by a dam.

Introduction to Biometrics Harvard Business Press

With a light touch and an interesting variety of examples, de Geus employs biological metaphors in order to analyze corporate management.

Halal Logistics and Supply Chain Management in Southeast Asia Notion Press

Biochar, a biomass that is burned at very high temperature in the absence of oxygen, has recently become an interesting subject of study. Biochar is highly stable and does not degrade; it possesses physical properties that assist in retention of nutrients in the soil. The use of biochar will undoubtedly have a

significant impact not only on soil nutrients but also on soil organism communities and their functions. This book focuses on how the ecology and biology of soil organisms is affected by the addition of biochar to soils. It takes into account direct and indirect effects of biochar addition to soils, on the soil carbon cycle, impact on plant resistance to foliar and soilborne disease, interactions with pathogenic, mycorrhizal and saprophytic fungi. The stability of biochar in soil environment is also discussed. Special focus has been put on application of biochar to remediate polluted soils, taking into account possible toxic effects of biochar on soil fauna. This book will be useful to students and researchers in agronomy, biology, ecology, and environmental

managers from both academic as well as industrial organizations.

The possibility of a worldwide influenza pandemic in the near future is of growing concern for many countries around the globe. Many predictions of the economic and social costs of a modern-day influenza pandemic are based on the effects of the influenza pandemic of 1918. This report begins by providing a brief historical back-ground on the 1918 influenza pandemic, a short-lived, but tragic event. Detailed influenza mortality statistics for cities and states are presented which provide insight into mortality differences based on race, income and place of residence.

Next, anecdotal evidence on the economic effects of the 1918 influenza are reported using newspaper articles published during the pandemic. This report also includes a survey of economic research on the subject, and a list of the likely economic effects of a modern-day influenza pandemic. Tables and figures. This is a print on demand report.

This book constitutes the proceedings of

the 13th International Conference on Transforming Digital Worlds, iConference 2018, held in Sheffield, UK, in March 2018. The 42 full papers and 40 short papers presented together with the abstracts of 3 invited talks in this volume were carefully reviewed and selected from 219 submissions. The papers address topics such as social media; communication studies and online communities; mobile information and cloud computing; data mining and data analytics; information retrieval; information behaviour and digital literacy; digital curation; and information education and libraries.

Transforming Digital Worlds Asian Development Bank

This publication provides a snapshot of the overall public-private partnership

(PPP) landscape in Indonesia. It includes more than 500 qualitative and quantitative indicators to profile the national PPP environment, the sector-specific PPP landscape (for eight identified infrastructure sectors), and the PPP landscape for local government projects. This downloadable guide also captures the critical macroeconomic and infrastructure sector indicators (including the Ease of Doing Business scores) from globally accepted sources. Through Presidential Regulation 38/2015, the cornerstone of the country's robust PPP enabling framework, Indonesia expects PPPs to continue playing a pivotal role to achieve its infrastructure investment target of \$429 billion for 2020-2024 and mobilize 59% of this value from the private

sector.

2015/16 Springer

Rural poverty is often unseen or misperceived by outsiders. Dr Chambers contends that researchers, scientists, administrators and fieldworkers rarely appreciate the richness and validity of rural people's knowledge or the hidden nature of rural poverty. This is a challenging book for all concerned with rural development, as practitioners, academics, students or researchers.

ASEAN Corporate Governance Scorecard
Wentworth Press

Biometric recognition, or simply biometrics, is the science of establishing the identity of a person based on physical or behavioral attributes. It is a rapidly evolving field with applications

ranging from securely accessing one's computer to gaining entry into a country. While the deployment of large-scale biometric systems in both commercial and government applications has increased the public awareness of this technology, "Introduction to Biometrics" is the first textbook to introduce the fundamentals of Biometrics to undergraduate/graduate students. The three commonly used modalities in the biometrics field, namely, fingerprint, face, and iris are covered in detail in this book. Few other modalities like hand geometry, ear, and gait are also discussed briefly along with advanced topics such as multibiometric systems and security of biometric systems. Exercises for each chapter will be available on the book website to help

students gain a better understanding of the topics and obtain practical experience in designing computer programs for biometric applications. These can be found at: <http://www.csee.wvu.edu/~ross/BiometricsTextBook/>. Designed for undergraduate and graduate students in computer science and electrical engineering, "Introduction to Biometrics" is also suitable for researchers and biometric and computer security professionals.

Implications for a Modern-Day Pandemic
Alfred Publishing Company
Analyzing the development of small and medium enterprises (SMEs) in Asian developing countries, the book is based on a survey of key literature and data on SMEs with the focus on; recent

development, export performance, main constraints, competitiveness, innovation and technology transfer, and female entrepreneurs.

SMEs in Asian Developing Countries John Wiley & Sons

Corporate governance principles provide guidance on how corporations should operate. Adoption of international corporate governance best practices leads to long-term sustainability and resilience, and can be a competitive tool to attract foreign investments. The Asian Development Bank, in partnership with the ASEAN Capital Markets Forum, have jointly developed the ASEAN Corporate Governance Scorecard, an assessment based on publicly available information and benchmarked against international best practices that encourage publicly

listed companies to go beyond national legislative requirements. This report can be used by capital market regulators and other stakeholders as a reference to understand the current corporate governance standards across the region. It is also a useful diagnostic tool to guide improvement of corporate governance standards.

Farm Management

The concept of Halal defines what adheres to Islamic law and is so comprehensive that it goes beyond food to include processes. The Halal industry has allowed many business firms a competitive advantage and is integral in its support for industries from food, tourism, banking and hospitality to medical. This book gives an overview of what Halal is in logistics and supply chain management, and discusses related issues and challenges in Southeast Asia. The book also examines Halal logistics and supply chain in reference to global trends and practices. It attempts to integrate theoretical and methodological aspects of Halal logistics and supply chain study in different geographical areas across industries. This will be a useful reference for those

who wish to understand the Halal ecosystem and Halal logistics supply chain development.

Oon Yeoh

Inequality in its many forms is becoming an ever greater problem in modern society. The revised edition of this popular book explains why it is so important to understand class and stratification, and how the tools used to analyse these divisions can help us to understand and confront problems of inequality. This third edition of *Class and Stratification* has been extensively revised, expanded and updated, incorporating discussions of contemporary economic and social change. It includes discussions of political and economic neoliberalism and its impacts as well as developments in

social theory, such as the emphasis on 'individualization' and the 'cultural turn'. New to this edition is a chapter focusing on 'cultural' approaches to class analysis, which together with established approaches are used to explore new developments in social mobility, educational opportunity, and social polarization. The book will be essential reading for upper-level undergraduate and postgraduate students in the social sciences seeking to understand the changing face of social inequality. By highlighting the damage increasing inequality is causing to the social fabric, the book reveals the important part class continues to play in our lives today.

Class and Stratification

This text is developed for the first course in Farm Management, typically taken by

a junior/senior level student. Designed to introduce students to the key concepts on how to effectively manage a farm business, the seventh edition provides

students with the basic information needed to measure management performance, financial progress, and the financial condition of the farm business.
