What does science have to do with science fiction? What does science fiction have to do with scientists? What does religion have to do with science and science fiction? In the spiritual vacuum of our post-Christian West, new mythologies continually arise. The sources of much religious speculation, however, may be surprising. Author James Herrick directs our attention to a wide range of scientists, filmmakers, science fiction writers and religious philosophers and discovers there the role that science and science fiction have played in such mythmaking. From scientists such as Francis Bacon, Francis Crick, Carl Sagan and Freeman Dyson, to filmmakers such as George Lucas and Steven Spielberg, to science fiction writers such as Olaf Stapledon, Sir Arthur C. Clarke, Robert Heinlein and Isaac Asimov, Herrick finds a curious collusion of science with science

fiction for promoting and justifying alternative spiritualities. The rise of these new mythologies, he argues, is no longer a curiosity at the edge of Western culture. This alchemy is catalyzing a religious vision of new gods, a new humanity, and alien races with superior intelligence and secret knowledge. This new mythology overshadows the realms of politics, science and religion. Should we follow such visions? Does science endorse these mythologies? Are we being offered a spirituality superior to the Judeo-Christian tradition? This book will help you decide. *A Devotional Coloring Book for Adults* Lulu.com Some people prefer a little spice when it comes to the coloring of their cats. In *Ginger Cats*, artist Rachel M Brown shares a selection of her orange cat paintings. Many of the paintings are of one of Rachel's own ginger cats, an ill-tempered Manx that she and her husband welcomed into their lives. Whether it be a cat gazing out of a window or angel cats flying above, you will be sure to recognize something of your own ginger cat in these

paintings. With over 20 color illustrations, this sweet book makes a perfect gift for the cat lover in your life. You can preview most of the paintings at Cat-Paintings.com, which also has paintings and illustrations of other colors of cats.

There are a lot of self-help books out on the market today, each one promising you success if you will follow the prescribed formula. They establish "recipes for success" if you follow their plan and stick to it. This ebook, however, is different. It is not a how-to manual or recipe for success. Rather, it is a series of proven strategies designed to help you achieve mental toughness and become resilient to the many adversities that you will inevitably face in life. You can become a better person. You can achieve your goals, but not before you set them and make a plan. You can transform anger and other unpleasant emotions into positive energy to help you overcome adversity and achieve your goals, but not before you become self-aware and

understand your own tendencies behind anger. You can focus better so that you can get the job done, but not before you take reasonable steps to eliminate or significantly reduce the distractions in your life. In short, you can be the best you out there! However, first you must change how you think about yourself. You must eliminate the negative self-talk and significantly reduce the negative influences in your life. You must surround yourself with positive people who are on your side, in your corner, willing to do whatever they are able to do to help you achieve your goals. This ebook will guide you on transforming adversity, anger, and unpleasant emotions so that they generate more positive outcomes, setting realistic goals and achieving them, enabling your focus so that you can get the task accomplished, reducing the stress in your life so that you can overcome stressful situations, and unlocking your true potential. It also has easily accessible information on the 25 cognitive biases, "the psychology of human misjudgment," as laid out by billionaire Warren Buffett's partner, Charlie

Munger. Understanding the 25 cognitive biases will help you better know yourself and make better decisions that consistently place you ahead of the crowd. In this ebook, a lot of emphasis is placed on setting manageable, achievable goals and making a plan to accomplish them. There is a difference between goals and dreams. Dreams reflect our highest aspirations - becoming a New York Times bestselling author, competing in the Olympics, being in Forbes Magazine as a Top 50 entrepreneur. Goals, however, are realistic expectations that we can set for ourselves and then achieve as part of our own pathways to success. Ultimately, that success may look like being a New York Times bestselling author or an Olympic athlete. It may also look like making a down payment on a house, paying off a mortgage, getting a promotion at work, or opening your own business. This ebook will help you set the goals that you need to set in order to enable your true success that reflects your own core values and potential. Enjoy reading this ebook, and may it influence and empower

you to become the best person that you can be! *Princess Rosalinda and the Color Pink* Houston, TX ; Edmonton : Vantage Publishing

Miracles happen today.

Do you want to increase your faith? Read about miracles. True stories of God's faithfulness, love, and power are woven together with art, poetry and scripture into a tapestry made of the colors of the rainbow that demonstrate the many aspects of faith. A woman finds herself in a car accident on a lonely Nevada highway gazing at her two daughters sprawled on the road. She screams in terror for help. Someone places a white gold cross in the palm of her hand. This changes everything. "A White Gold Cross," one of the true stories found in "Faith Colors, Encounters with God in Living Faith," explores the power of faith in God to transform the outcome of a terrible crisis. This story is found in the section called White Faith, the kind of faith that strengthens the inner heart to persevere. A son prays in earnest while the emergency team from the fire station try to revive his father. After the paramedics give up and permission is granted to stop CPR, the father miraculously begins to breathe on his own. But will he survive long enough to take care of his unfinished business? This story is found under Blue

Faith, the kind of faith that looks up from a dark pit to find hope. These testimonies and others, including some of the author's own experiences, are grouped into the colors of the rainbow to highlight important aspects of faith. Poems and prophetic art, intensifying the impact of the messages, are found throughout the book. Each color section concludes with a prayer to draw the reader's heart closer to God. Scriptures and colorful prophetic pictures featured in this book highlight significant attributes of faith that are bound to spark hope in God and His promises found in the Bible.

A different type of coloring book, "S M Coloring and Shading Books" can be as challenging or as simple to color as you wish. The pictures are sketch-like and intentionally printed lighter, so that you can color over the gray. Visit our Facebook page "S M Coloring and Shading Books" for examples, ideas, techniques and more. For a more challenging experience, use the gray shading in the picture as a guide to

work on shading techniques. We like to color over or outline the darker areas with one or a few shades of a color, then color the lighter areas with a contrasting or lighter shade. For a simple coloring experience just color the picture, the gray may show through depending on what you are coloring with and your technique, this will give some depth to the picture. You can always outline in black if you prefer that look. Art and Craft Supplies Coloring Book contains over 35 one-sided pictures of art and craft supplies to color including

colored pencils, tiles, shells, glass, watercolors, rocks, tools and more. Pull out your pastel pencils, colored pencils, crayons, markers or whatever you like and start coloring. (Some techniques may bleed through the paper so put extra paper in between if needed.) The pages are one-sided to enable you to take a picture out if needed for technique, framing, or a gift and not miss out on coloring the other side or have it bleed through. Be sure to check out our whole line, search "S M Coloring and Shading Books."
