 With easy-to-follow instructions, anyone can make beautiful versions of these classic toys in wood... Over the past century no toys have been more popular, or were made in greater numbers, than die-cast metal vehicles. They were small, about 2 to 5 inches in length, and included the likes of cars, trucks, boats, and planes. You no doubt played with them, collected

them, and bought them for your children or grandchildren. You know the more modern names such as Corgi, Matchbox, and Hot Wheels, but before those brands landed on any kiddo's wish list, there was Dinky Toys. Dinky Toys were the most popular diecast vehicles ever made and they led the charge of metal die-cast vehicles populating many a playroom floor. In Wooden Dinky Toys, Les Neufeld, a professional woodworker and wooden toy expert, redesigns the favorites of the Dinky Toy line so anyone who enjoys working with wood can make beautiful versions of these iconic toys. In Wooden Dinky Toys, all the projects have been chosen by the level of historical popularity, as well as the ease of conversion to a wooden counterpart. Each are made to scale -- approximately 1/64, typical of small diecast toys -- making a car between

2-1/2 in. and 3 in. long, an airplane 4 or 5 in. long, and large truck 6 or 7 in. long. Some of the projects have a few moving parts, but they are all simple enough to make in a few hours or, at the most, a weekend. Only basic tools are needed and the materials can be found among the scraps of any shop or garage. Best of all, these are woodworking projects that will appeal to all skill levels. Parents or grandparents can work with children to make a favorite while novice woodworkers will feel comfortable tackling any of the toys. Strict adherence to the "blueprints" isn't required and all the toys can be altered to suit personal preference. Many options are provided along the way, with suggestions for ways to customize further, that allow crafters to put their own stamp on each toy while generating lots of ideas for the next project. While there are

several wooden toy books showing how to build larger conventional toys, *Wooden Dinky Toys* is the only guide you need to successfully craft these popular and realistic small toys.

[Dragons Love Tacos meets Goodnight, Goodnight, Construction Site](#) in this

irresistibly kid-friendly read-aloud about a little taco truck that is having trouble

finding a place to park. Little Taco Truck serves up tasty treats to the hungry

workers on Union Street . . . until one day, Miss Falafel shows up with her baked pita

bread and crunchy chickpea fritters--and parks in his space. The next day, Miss

Falafel is there again, and this time she's brought Gumbo Jumbo and Annie Arepas

with her. Little Taco Truck's headlights dim. What if people like Gumbo Jumbo's

spicy stew and Annie Arepas's warm cornbread cakes more than they like his

tacos? When more trucks arrive the following day and there's no space left for

Little Taco Truck, he swishes his wipers to hide his tears and heads home. At last,

with some ingenuity and help from new friends, Little Taco Truck wins back his

coveted parking spot. And guess what? There is room enough for everyone!

Packed with flavor and savory smells, this irresistible read-aloud about friendship and

determination is perfect for even the youngest truck and taco fans.

Come on, kids: grab a hammer, step up to the workbench, and get ready to measure,

saw, drill, and make cool things! Wood Shop is an exciting introduction for today's

kids to an age-old tradition: building with wood. With step-by-step photographs and

clear instructions, aspiring woodworkers learn essential skills such as how to drive

a nail, use a power drill, "measure twice, cut once," and saw correctly. Then the fun

begins, with 17 cool and creative projects kids can build to furnish the wood shop,

decorate their bedrooms and homes, and create their own play equipment. Favorite

projects include Tic-Tac-Toe-To Go!, One-Board Birdhouse, a Tool Tote, and a

hanging Twinkle Light. Wood Shop is the perfect gift for tinkerers, young makers,

fans of LEGO toys, and aspiring carpenters and engineers. This publication conforms

to the EPUB Accessibility specification at WCAG 2.0 Level AA.
