**Jennifer Aniston & Brad Pitt!** Crown Leslie Odom Jr., burst on the scene in 2015, originating the role of Aaron Burr in the Broadway musical phenomenon Hamilton. Since then, he has performed for sold-out audiences, sung for the Obamas at the White House, and won a Tony Award for Best Leading Actor in a Musical. But before he landed the role of a lifetime in one of the biggest musicals of all time, Odom put in years of hard work as a singer and an actor. With personal stories from his life, Odom asks the questions that will help you unlock your true potential and achieve your goals even when they seem impossible. What work

did you put in today that will help you improve tomorrow? How do you surround yourself with people who will care about your dreams as much as you do? How do you know when to play it safe and when to risk it all for something bigger and better? These stories will inspire you, motivate you, and empower you for the greatness that lies ahead, whether you're graduating from college, starting a new job, or just looking to live each day to the fullest.

**Bindlestiff** Crown Archetype The beloved New York Times columnist "inspires women to embrace aging and look at it with a new sense of hope" in this lively, fascinating, eye-opening look at women and aging in America (Parade Magazine). "You're not getting older, you're getting better," or so promised the famous 1970's ad -- for women's hair dye. Americans have always had a complicated

relationship with aging: embrace it, deny it, defer it -- and women have been on the front lines of the battle, willingly or not. In her lively social history of American women and aging, acclaimed New York Times columnist Gail Collins illustrates the ways in which age is an arbitrary concept that has swung back and forth over the centuries. From Plymouth Rock (when a woman was considered marriageable if "civil and under fifty years of age"), to a few generations later, when they were quietly retired to elderdom once they had passed the optimum age for reproduction, to recent decades when freedom from striving in the workplace and caretaking at home is often celebrated, to the first female nominee for president, American attitudes towards age have been a moving target. Gail Collins gives women reason to expect the best of their golden years.

NEW YORK TIMES BESTSELLER • The inspiration for *Impeachment: American Crime Story* on FX The definitive account of the Clinton-Lewinsky sex scandals, the extraordinary ordeal that nearly brought down a president—with a new preface by the author that reframes the events in light of the Me Too movement “A story as taut and surprising as any thriller . . . [an] unimpeachable page-turner.”—People First published a year after the infamous impeachment trial, this propulsive narrative captures the full arc of the Clinton sex scandals—from their beginnings in a Little Rock hotel to their culmination on the floor of the United States Senate with only the second vote on presidential removal in American history. Rich in character and fueled with the high octane of a sensational legal thriller, *A Vast Conspiracy* has indelibly shaped our understanding of this disastrous moment in American political history.

*Life Lit by Some Large Vision* Taylor & Francis

In a time of reckoning, this year's National Magazine Awards finalists and winners focus on abuse of power in many forms. Ronan Farrow's Pulitzer Prize-winning revelation of Harvey Weinstein's depredations (*New Yorker*), along with Rebecca Traister's charged commentary for *New York* and Laurie Penny's incisive *Longreads* columns, speak to the urgency of the #MeToo moment. Ginger Thompson's reporting on the botched U.S. operation that triggered a cartel massacre in Mexico (*National Geographic/ProPublica*) and Azmat Khan and Anand Gopal's *New York Times Magazine* investigation of the civilian casualties of drone strikes in Iraq amplify the voices of those harmed by U.S. actions abroad. And Alex Tizon's “My Family's Slave” (*Atlantic*) is a powerful attempt to come to terms with the cruelty that was in plain sight in his own upbringing. Responding to the overt racism of the Trump era, Ta-Nehisi Coates's “My President Was Black” (*Atlantic*) looks back at the meaning of Obama. Howard Bryant (*ESPN the Magazine*) and Bim Adewunmi (*Buzzfeed*) offer incisive columns on the intersections

of pop culture, sports, race, and politics. In addition, David Wallace-Wells reveals the coming disaster of our climate-change-ravaged future (*New York*); Don Van Natta Jr. and Seth Wickersham's *ESPN the Magazine* reporting exposes the seamy sides of the NFL; Nina Martin and Renee Montagne investigate America's shameful record on maternal mortality (*NPR/ProPublica*); Ian Frazier asks “What Ever Happened to the Russian Revolution?” (*Smithsonian*); and Alex Mar considers “Love in the Time of Robots” (*Wired* with *Epic Magazine*). The collection concludes with Kristen Roupenian's viral hit short story “Cat Person” (*New Yorker*). **The Keys to Acting** Simon and Schuster The *New York Times* bestselling memoir from legendary comedienne Carol Burnett is a “loving, poignant” (*People*) tribute to her eldest daughter, Carrie Hamilton. The daughter of one of television's most recognizable and beloved stars, Carol Burnett, Carrie Hamilton won the hearts of everyone she met with her kindness, her quirky humor, and her unconventional approach to life. After overcoming her painful and public teenage struggle with drug addiction in a time when personal troubles were kept private, Carrie lived her adult life of sobriety to the fullest, achieving happiness and success as an actress, writer, musician, and director before losing a hard-fought battle with cancer at age thirty-eight. Now Carol Burnett shares her personal diary entries, photographs, and correspondence as she traces the journey she and Carrie took through some of life's toughest challenges and sweetest miracles. Authentic, intimate, and full of love, *Carrie and Me* is a funny and moving memoir about mothering an extraordinary young woman through the struggles and triumphs of her life.

*The Books of Earthsea* Simon and Schuster As a new attorney, Pamela Braswell was confident her career was about to skyrocket. Instead, she narrowly escaped death at the hands of a serial rapist and killer—his only surviving victim. Twenty years later, the moratorium on executions in California that put his execution on hold ended, but the governor announced he wouldn't enforce the death penalty. Braswell's firsthand true crime narrative gives a victim's perspective of the harrowing investigation, the revelations in the press, the grand jury indictment and capital murder trial. Through it all, her refusal to be a victim transforms her view of the world—and its heroes.

In the summer of 2000 *X-Men* surpassed all box office expectations and ushered in an era of unprecedented production of comic book film adaptations. This trend, now in its second decade, has blossomed into Hollywood's leading genre. From superheroes to Spartan warriors, *The Comic Book Film Adaptation* offers the first dedicated study to examine how comic books moved from the fringes of popular culture to the center of mainstream film production. Through in-depth analysis, industry interviews, and audience research, this book charts the cause-and-effect of this influential trend. It considers the cultural traumas, business demands, and digital possibilities that Hollywood faced at the dawn of the twenty-first century. The industry managed to meet these challenges by exploiting comics and their existing audiences. However, studios were caught off-guard when these comic book fans, empowered by digital media, began to influence the success of these adaptations. Nonetheless, filmmakers soon developed strategies to take

advantage of this intense fanbase, while codifying the trend into a more lucrative genre, the comic book movie, which appealed to an even wider audience. Central to this vibrant trend is a comic aesthetic in which filmmakers utilize digital filmmaking technologies to engage with the language and conventions of comics like never before. The Comic Book Film Adaptation explores this unique moment in which cinema is stimulated, challenged, and enriched by the once-dismissed medium of comics.

Anne Rice's Vampire Chronicles An Alphabettery Little, Brown

Ossie Davis, the celebrated civil rights activist, actor, writer, and director, is remembered for a film, television, and stage career of more than half a century. His awards include an Emmy Award, an NAACP Image Award for his work in the Spike Lee film *Do the Right Thing*, a Lifetime Achievement Award from the Screen Actors Guild, and a Kennedy Center Honor. The last two honors, like so many of his accomplishments, were shared with his wife and partner (in life and in work), Ruby Dee. Ossie Davis is also revered for his lifelong commitment to those social and political causes about which he was so passionate. Of all the gifts he possessed, perhaps none was greater than his ability to articulate the important issues of the day. He used his brilliant mind and his oratory skills to give voice to his concerns as a black man, an American, and a human being in the world, as well as to the individuals and communities whose concerns he made his own. This monumental book brings together many of the moving speeches, essays, and other writings as an ultimate gift to posterity. *Life Lit by Some Large Vision* includes some humor, some history, and some surprises: moving tributes to such luminaries as Malcolm X and Louis Armstrong; thought-provoking speeches on the treachery of the English language and the challenge of breaking through the "niggerization" process; letters to friends and fellow thinkers; essays that span decades of social thought and revolutionary positions; and the closing monologue from his groundbreaking 1961 play, *Purlie Victorious*. The unforgettable sound of Ossie Davis's voice is well documented in his work on film and television, but the words on these pages offer his heart and mind, and will be the next best thing to witnessing him speak in person. Ruby Dee contributes a foreword to the collection and introductory notes to the individual pieces, many of which were written and delivered with her at his side. The result is a comprehensive celebration

of one man's extraordinary wisdom and generosity. This is a book that will enrich countless readers -- as a gift, an educational resource, a volume to be read aloud on special occasions, and much more.

**The Far-from-Complete Compendium of Magiswords** Lulu.com

From the widely acclaimed author of *The Gone-Away World* and *Tigerman*, comes a virtuosic new novel set in a near-future, high-tech surveillance state, that is equal parts dark comedy, gripping detective story, and mind-bending philosophical puzzle. "A Pynchonesque mega-novel that periodically calls to mind the films of *Inception* and *The Matrix*.... What a ride!" —The Washington Post In the world of *Gnomon*, citizens are constantly observed and democracy has reached a pinnacle of 'transparency.' Every action is seen, every word is recorded, and the System has

access to its citizens' thoughts and memories—all in the name of providing the safest society in history. When suspected dissident Diana Hunter dies in government custody, it marks the first time a citizen has been killed during an interrogation. The System doesn't make mistakes, but something isn't right about the circumstances surrounding Hunter's death. Mielikki Neith, a trusted state inspector and a true believer in the System, is assigned to find out what went wrong. Immersing herself in neural recordings of the interrogation, what she finds isn't Hunter but rather a panorama of characters within Hunter's psyche: a lovelorn financier in Athens who has a mystical experience with a shark; a brilliant alchemist in ancient Carthage confronting the unexpected outcome of her invention; an expat Ethiopian painter in London designing a controversial new video game, and a sociopathic disembodied intelligence from the distant future. Embedded in the memories of these impossible lives lies a code which Neith must decipher to find out what Hunter is hiding. In the static between these stories, Neith begins to catch glimpses of the real Diana Hunter—and, alarmingly, of herself. The staggering consequences of what she finds will reverberate throughout the world. A dazzling, panoramic achievement, and Nick Harkaway's most brilliant work to date, *Gnomon* is peerless and profound, captivating and irreverent, as it pierces through strata of reality and consciousness, and illuminates how to set a mind free. It is a truly accomplished novel from a mind possessing a matchless wit infused with a deep humanity.

The Actor's Life Little, Brown

From beloved CBS Sunday Morning correspondent Mo Rocca, author of *New York Times* bestseller *Mobituaries*, comes an inspiring collection of stories that celebrates the triumphs of people who made their biggest marks late in life. Eighty has been the new sixty for about twenty years now. In fact, there have always been late-in-life achievers, those who declined to go into decline just because they were eligible for social security. Journalist, humorist, and history buff Mo Rocca and coauthor Jonathan Greenberg introduce us to the people past and present who peaked when they could have been puttering—breaking out as writers, selling out concert halls, attempting to set land-speed records—and in the case of one ninety-year tortoise, becoming a first-time father. (Take that, Al Pacino!) In the vein of *Mobituaries*, *Roctogenarians* is a collection of

entertaining and unexpected profiles of these unretired titans—some long gone (a cancer-stricken Henri Matisse, who began work on his celebrated cut-outs when he could no longer paint), some very much still living (Mel Brooks, yukking it up at close to one hundred). The amazing cast of characters also includes Mary Church Terrell, who at eighty-six helped lead sit-ins at segregated Washington, DC, lunch counters in the 1950s, and Carol Channing, who married the love of her life at eighty-two. Then there's Peter Mark Roget, who began working on his thesaurus in his twenties and completed it at seventy-three (because sometimes finding the right word takes time.) With passion and wonder Rocca and Greenberg recount the stories of yesterday's and today's strongest finishers. Because with all due respect to the Golden Girls, some people will never be content sitting out on the lanai. (PS Actress Estelle Getty was sixty-two when she got her big break. And yes, she's in the book.)

Actor Timothée Chalamet has seemingly come out of nowhere, yet the young and talented New York-born actor—nominated already for his first Oscar award (Call Me by Your Name) by the age of twenty-one—is actually LaGuardia trained with a long pedigree of talent and tenacity. Greta Gerwig, the writer-director of the film Lady Bird, asserts that Timothée is “Christian Bale, Daniel Day-Lewis, Leonardo DiCaprio...a heartthrob but with

thoroughbred acting chops.” In this (unofficial) biography, you'll read interviews and accounts of and about Timothée's background, personality, acting philosophy, friendships, influences, and, of course, his dramatic rise to fame. Who is this young celebrity? Why is he being hailed “the next Leonardo DiCaprio?” What are the current stand-out performances of his career? And most importantly, what's next for this up-and-comer? See why GQ magazine calls Timothée Chalamet a “once-in-a-generation talent” and how this fascinating, multi-lingual rising star is “in possession of such preternatural talent that audiences start thinking about the actor's future not in years but in decades.” These questions and more will be explored in Timothée Chalamet: An Unauthorized Biography.

From Academy Award-winning multi-talent Jamie Foxx, a hilariously candid look at the joys and pitfalls of being the father of two daughters. Jamie Foxx has won an Academy Award and a Grammy Award, laughed with sitting presidents, and partied with the biggest names in hip-hop. But he is most proud of his role as father to two very independent young women, Corinne and Anelise. Jamie might not always know what he's doing when it comes to raising girls—especially when they talk to him about TikTok (PlikPlok?) and don't share his enthusiasm for flashy Rolls Royces—but he does his best to show up for them every single day. Luckily, he has a strong example to follow: his beloved late grandmother, Estelle Marie Talley. Jamie learned everything he knows about parenting from the fierce woman who raised him: As he puts it, she's “Madea before Tyler Perry put on the pumps and the gray wig.” In Act Like You Got Some Sense—a title inspired by Estelle—Jamie shares up close and personal stories about the tough love and old-school values he learned growing up in the small town of Terrell, Texas; his early days trying to make it in Hollywood; the joys and challenges of achieving stardom; and how each phase of his life shaped his parenting journey. Hilarious, poignant, and always brutally honest, this is Jamie Foxx like we've never seen him before.
